

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

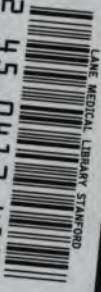

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. TABLE 1

ILLINOIS STATE BOARD OF HEALTH.

To His Excellency, JOHN P. ALTGELD, Governor:

SIR:--In conformity with the Twelfth Section of the Act to Create and Establish a Board of Health in the State of Illinois, approved May 25, 1877, I have the honor to submit to you the accompanying report for the year 1894.

Very respectfully,

J. W. SCOTT, M. D.,

Secretary.

MEMBERS AND OFFICERS OF THE BOARD—1894.

JULIUS KOHL, M. D., Belleville.

WILLIAM E. QUINE, M. D., Chicago, *President*.

JOHN A. VINCENT, M. D., Springfield.

GEORGE THILO, M. D., Chicago.

B. M. GRIFFITH, Springfield, *Treasurer*.

SARAH HACKETT STEVENSON, M. D., Chicago.

JAMES B. MCFATRICH, M. D., Chicago.

J. W. SCOTT, M. D., Chicago, *Secretary*.

ABSTRACT OF PROCEEDINGS

OF THE

ILLINOIS STATE BOARD OF HEALTH, 1894.

ABSTRACT OF THE PROCEEDINGS
OF THE
ILLINOIS STATE BOARD OF HEALTH
AT ITS
MEETINGS DURING THE YEAR 1894.

ANNUAL MEETING, SPRINGFIELD, JANUARY, 1894.

[The Seventeenth Annual Meeting of the State Board of Health of the State of Illinois was held in the office of the Board in the Capitol at Springfield on Wednesday, the 30th day of January, 1894.

Present: Drs. Julius Kohl, Jno. A. Vincent, George Thilo, B. M. Griffith, Sarah Hackett Stevenson, James B. McFatrigh and the Secretary, Dr. J. W. Scott.

The minutes of the meeting held September 15th, 1893, having been read and approved, an adjournment was taken for the purpose of paying the usual visit of ceremony to the Governor.

The Board reconvened at 11:30 A. M., and on motion of Dr. Stevenson that examinations of non-graduate applicants be held at all the regular quarterly meetings of the Board, and the following subjects embraced in such examinations were assigned by the President for the ensuing year: Gynecology and Pathology, Dr. Vincent; Hygiene and Chemistry, Dr. Thilo; Practice and Jurisprudence, Dr. Griffith; Obstetrics and Physiology, Dr. Stevenson; Surgery and Anatomy, Dr. McFatrigh; Materia Medica, Dr. Kohl.

In the case of Julius Klosterman of Okawville, who asked a special examination before the Homeopathic member of the Board, on motion of Dr. Vincent, it was ordered that the application be rejected, and that the Secretary notify Dr. Klosterman that he must pass an examination on all branches before the full Board.

The Secretary was instructed to issue to Dr. Jas. B. Bacon of Chicago, a duplicate of certificate No. 7050, issued him August 25, 1885. The Secretary was also instructed to issue duplicate certificate to Dr. C. W. Reed, upon presentation of satisfactory proof of the loss or destruction of his original certificate No. 341, issued December 26, 1877.

At the afternoon session the report of the Secretary for the quarter ending January 30, was read and is as follows:

REPORT OF THE SECRETARY FOR THE QUARTER ENDED JAN. 30, 1894.

During the year there were 708 certificates, entitling to practice medicine, issued—706 being upon diplomas and two upon examination by the Board.

Of the 706 certificates granted to Doctors of Medicine, 617 were based upon diplomas of legally chartered medical institutions that had complied with the Schedule of Minimum Requirements of the Board, and 89 to graduates of colleges whose diplomas were required to be supplemented by an examination in Practice, Surgery, Obstetrics and Gynecology. Eight duplicates were issued upon proof of the loss or destruction of the original certificates, and 83 applicants were rejected on account of failure to comply with the provisions of the Medical-Practice Act or the requirements of the Board based thereon.

Midwife certificates were issued to 65 licentiates of recognized institutions and to 31 non-graduates. Nineteen applications for midwife certificates were rejected on account of failure to pass the Board's examination.

Office Work:

More than 8,000 written communications have been received and 6,840 have been sent out.

There were distributed 10,000 of the quarterly reports of the July, 1892, meeting, in which was printed the revised schedule of minimum requirements adopted at that meeting, 3,800 copies of the report on Zymotic Diseases in Chicago, sanitary survey blanks to 270 cities and towns of over 1,000 population, copies of the official order of the Board concerning vaccination to the county superintendents of schools, and to each of the 12,000 school districts in the State, together with 400,000 personal certificates of vaccination and blanks for reporting the results of the enforcement of the order.

A number of annual reports, official registers, reports on medical education, preventable disease circulars and other publications of the Board have also been distributed.

The following notice has, within the last thirty days, been sent to 154 persons reported as practicing medicine in Chicago whose names do not appear upon the official register:

SIR:—It has been reported to this office that you are engaged in the practice of medicine. A careful search of the Official Register of Legally-Qualified Physicians reveals the fact that you have not received the State certificate, without which no one can legally practice medicine and surgery in the State of Illinois.

If you are a graduate of a legally-chartered medical institution in good standing with the Board, it will only be necessary for you to make the enclosed affidavit and comply with the instructions printed thereon; but if not a graduate, you will have to pass an examination before the Board in order to obtain a State certificate. The next meeting for examination will be held in Chicago, April 26, 1894, at the Grand Pacific Hotel.

Enclosed please find a copy of the Medical-Practice Act, the provisions of which it is made the duty of the State Board of Health to enforce.

Very respectfully,

J. W. SCOTT, M. D.,

Secretary.

Responses have thus far been received from 39 of those notified, with the following results: Nine have taken out certificates; two applications are still pending; nine were women who have married since receiving certificates; nine were incorrectly reported in McDonald's Directory, names misspelled; two were druggists who denied practice; two students not practicing; one has left Chicago, three not practicing; one Ph.D. Paul, asked more time in which to comply, and one returned not found.

Small-pox:

At the last meeting of the Board, report was made of the prevalence of small-pox in many states and a communication was submitted from Arthur R. Reynolds, M. D., Commissioner of Health of Chicago, showing the extent of the existence of the disease in that city and stating that in his opinion there was danger of an extensive epidemic during the winter. That there was ground for such apprehension, the report of the Commissioner for the past quarter clearly demonstrates, for while it may not appear that the disease has as yet assumed the proportions of a general epidemic, the number of cases developed and the widely distributed centers of infection throughout the city warrant the conclusion that such an epidemic was imminent and has been averted only by the timely and successful measures adopted to secure general vaccination and by the vigilance and promptness of the Chicago Health Department, in locating and isolating such cases as have occurred. These measures were made possible by the liberal policy of the city council in making an extra appropriation of \$11,000 for carrying them out. The letter of the Commissioner is as follows:

CHICAGO, Jan. 24, 1894.

J. W. Scott, M. D., Sec'y State Board of Health, Springfield, Ill.:

DEAR DOCTOR:—I have the honor to report to you that in 1893 we had in Chicago 136 cases of small-pox, 64 of which occurred in December. Every month in the year excepting March contributed one or more cases. Many of the cases were traced to outside sources of infection, some of

them occurring about the same time in various parts of the city from unknown sources. We have found the disease in very many parts of the city. It has, however, chiefly been confined to the poorer people. Twenty-one deaths have occurred in 1893 from small-pox. With one exception none of them had ever been vaccinated. The exception was a man 38 years of age, vaccinated in infancy but having a very slight scar.

Since January 1st we have had 128 cases up to date, with 22 deaths. We have now about 100 patients in the small-pox hospital.

Yours very truly,

ARTHUR M. REYNOLDS, M. D.

Commissioner of Health.

Outside of Chicago small-pox has occurred in Mascoutah township in Clinton county, near Halls, in Pike county, at Manhattan, Will county, and at Round Grove township, Livingston county.

At the first mentioned point five cases occurred with two deaths. The disease was reported to have been brought thither by a young lady of the town of New Memphis who had been visiting at the World's Fair at Chicago, and who had called upon a relative, a nurse at the pest house. The disease, a mild varioloid, was not at first recognized and it was not until two of her brothers and a neighbor had contracted the disease that it was reported. A supply of vaccine virus was at once forwarded and instructions to establish and enforce strict quarantine. The action of local authorities and physicians was prompt and thorough and but one case further resulted—a case of varioloid.

The case reported from Pike county was of a mild character, source of contagion unknown. General vaccination was practiced, quarantine enforced and no further cases developed.

In accordance with a resolution passed by the National Conference of the State and Provincial Boards of Health held in Toronto, 1885, and Washington, 1887, notices of the occurrence of small-pox have been sent from time to time to all State Boards of Health and to Provincial Boards, and such reports have been received from the State Boards of Indiana (160 cases), Pennsylvania (for year, 710), Connecticut (for quarter, 7), Ohio (for quarter, 1), Maine (for quarter, 1), Minnesota (for quarter, 1), West Virginia (for quarter, 4), Tennessee (for quarter, 1), Kentucky (for quarter, 1), Wisconsin (for quarter, 1), North Carolina (for quarter, 1), and the province of Ontario (for quarter, 7).

Vaccination of School Children:

Pursuant to the order of the Board passed at the last meeting, there was passed and sent to county superintendents of schools, to the mayors and presidents of the councils of cities and towns and to the press generally, throughout the State, the following circular letter:

OFFICE OF THE SECRETARY, Springfield, September, 1893.

To the County Superintendent of Schools:

DEAR SIR:—Illinois has been thus far singularly fortunate in escaping any epidemic outbreak of small-pox, notwithstanding the frequent and fatal occurrences of the disease in surrounding commonwealths. Outside of Cook county there have been only a few isolated cases during the past

ten years. This remarkable immunity can only be attributed to the general enforcement of vaccination in the State as a result of the severe epidemic of 1881-1883, and more especially to the enforcement of the School Vaccination Order of the State Board of Health, promulgated at that time and since then pretty generally observed.

That order, unanimously adopted at a special meeting of the Board, held November 22, 1881, is as follows:

Resolved, That, by the authority vested in this Board, it is hereby ordered that, on and after January 1, 1882, no pupil shall be admitted to any public school in this State without presenting satisfactory evidence of proper and successful vaccination."

While it is true that this order has since been "pretty generally observed", an emergency now exists that demands full compliance with its provisions. You are therefore respectfully requested to report to this office, at your earliest convenience, the status of the schools under your jurisdiction with respect to the enforcement of the order. Your reply should cover the following points:

1. What measures have been taken by your school directors to enforce the vaccinal protection of scholars? Please furnish copies of existing orders, rules and regulations on this subject.

2. To what extent are these measures successful? In what are they defective?

3. What is your total enrollment—average daily attendance—number presenting "satisfactory evidence of proper and successful vaccination" at the beginning of the present term?

The time for argument as to the value of vaccination has long passed. Persons of intelligence do not now question its utility. Properly performed and duly repeated, with reliable vaccine, under aseptic conditions, it is incontestibly proven to be a safe and positive protection against the ravages of a most loathsome disease. Among the hundreds of cases of small-pox which occurred in the State within the first year after the promulgation and enforcement of the School Vaccination Order, not one was reported of a public scholar who had been properly and recently vaccinated. On the other hand, several cases (with a large proportion of deaths) occurred among scholars who had never been vaccinated or not vaccinated since infancy. In no instance, where the order was faithfully carried out, did it become necessary to close a school even when small-pox existed in the community. But there are many instances of schools being broken up and studies interrupted where—as shown by the returns in this office—the order was neglected or imperfectly enforced.

Out of an aggregate of 227,213 public scholars in Chicago—where a similar rule is in force—only 17 cases of small-pox occurred in fifteen years.

Finally there may be cited the following facts and figures, based upon a recent report to the Local Government Board of England:

Of every 1,000 unvaccinated children (under 10).....101 had small-pox.
Of every 1,000 vaccinated children (under 10).....5 had small-pox.

In other words, unvaccinated children are *twenty times* more liable to an attack of small-pox than those who have been vaccinated.

Of every 1,000 unvaccinated persons (over 10).....94 had small-pox.
Of every 1,000 vaccinated persons (over 10).....19 had small-pox.

Unvaccinated persons, over 10 years of age, are *five times* more liable to small-pox than vaccinated of the same class.

Of every 100 unvaccinated children who took small-pox.....44 died.
Of every 100 vaccinated children who took small-pox.....2 died

An unvaccinated child (under 10) is *twenty times* more liable to take small-pox, and *twenty-two times* more liable to die, and its chance of death is *four hundred and forty times* greater than that of a vaccinated child.

Of every 100 unvaccinated persons (over 10) who took small-pox...54 died
Of every 100 vaccinated persons (over 10) who took small-pox.....5 died

An unvaccinated person (over 10 years old) is *five times* more liable to small-pox, and *twenty times* more liable to die of it than one vaccinated, while his liability to death during an epidemic is *fifty-five times* greater.

BY ORDER OF THE BOARD:

JOHN W. SCOTT, M. D.,

Secretary.

From a very large correspondence received in answer to this letter, it was ascertained that the order of the Board has been very generally disregarded throughout the State since 1882. Outside of the larger cities, not to exceed 10 per cent. of the school children had been vaccinated. Moreover, it appears that this order was looked upon as merely advisory and the authority of the Board to promulgate such an order was not conceded and many objections to its enforcement were made. With a view to correcting wrong impressions regarding the nature of the order, the following letter was sent to the clerk of the board of school directors of each school district in the State—about 12,000 in number—and with it a blank form for making returns:

To the Directors,

*School District No....., T....., R.....,
.....County, Illinois.*

The order of the State Board of Health adopted Nov. 22, 1881, is as follows:

Resolved, That, by the authority vested in this Board, it is hereby ordered that on and after January 1, 1882, no pupil shall be admitted to any public school in this State without presenting satisfactory evidence of proper and successful vaccination.

This order is permanent and mandatory and has been declared, in an opinion of the Attorney General, to have the full force and authority of law. Moreover, the statute provides that "it shall be the duty of all police officers, sheriffs, constables, and all other officers and employes of the State, to enforce such rules and regulations, so far as the efficiency and success of the Board may depend upon their co-operation."

Under this law it is *your* duty as school directors to see that the above order is enforced. It is reported that the order has not been enforced in your district for several years. This fact and the knowledge that small-pox is prevailing in many states and has recently appeared in several counties of this State makes it necessary that you act at once.

Vaccination certificates and blanks for your report to the county superintendent are herewith sent you.

W. E. QUINE, M. D.,

President.

Attest, J. W. SCOTT, M. D., *Secretary.*

The following letter answering objections to the enforcement of vaccination was sent to the county superintendents of each county:

To County Superintendents of Schools:

Since the sending out from this office of the circular letters calling attention to and urging compliance with the rules of the Board concerning the vaccination of school children, a large number of communications have been received from officers, directors and patrons of schools urging as objections to the enforcement of the order:

1. That many are violently opposed to vaccination.
2. That some are unable to bear the expense.
3. That the winter season is unfavorable.

4. That school officers, by excluding from school those pupils who have not been vaccinated, would become liable for damages.

Reply to these objections in the order named:

1. The time for discussing the necessity, efficacy and practical harmlessness of vaccination, and the right of the State to enforce it is past. These are established and admitted facts, and properly constituted health authorities—national, State and local—recognize and act upon them as such and it is not competent for school directors, whose duty is simply to enforce laws, to postpone or annul them by vote or otherwise or to determine whether an emergency exists demanding their enforcement. In support of the above the following report of a committee made to the Belgian Academy of Medicine is submitted: "Without vaccination, hygienic measures and methods, whether public or private, are powerless in preserving mankind from small-pox. Vaccination is always an inoffensive operation when practiced with proper care on healthy subjects. It is highly desirable in the interest of the health and lives of the people that vaccination be made compulsory."

In Germany, where vaccination is compulsory, of 2,485,485 persons, vaccinated in 1890, the official governmental returns show that not a single case resulted fatally and that, while small-pox prevailed that year in all the neighboring countries, but 58 cases occurred in the German Empire, or 1.18 cases to each million of population—less than has occurred this year in Chicago. These 58 cases represented 33 widely separated centers of infection, yet so complete was the protection afforded by general vaccination that in no instance was there any spread of the disease.

2. Provision for the vaccination of the children of those who are unable to bear the expense should be made by the town board which is *ex officio* the board of health, and is charged by law with the enforcement of this and kindred orders.

3. Small-pox is a disease that prevails most extensively in cold weather. It is during the existence of the disease that vaccination is usually performed, and yet evidence is lacking that will warrant the conclusion that vaccinations performed during the winter months have been attended with more serious results than at other periods of the year.

4. In answer to the last objection, it is only necessary to quote the following opinion of the Attorney General filed in this office on the 6th inst. "I am of the opinion that if the State Board of Health has promulgated a rule, requiring children to be properly vaccinated before attending school, it is the duty of school officers to assist in enforcing such rule and such school officers are not liable for damages for suspending children who refuse to submit to vaccination."

Many to whom the Board's former circular was addressed, seem to have understood it to be simply a request for information instead of a mandatory order with which the Board is determined to secure compliance. To remove this impression, a letter addressed to the school directors throughout the State has been prepared and copies sufficient in number to supply one to each district in your county are sent you to-day by express with blank certificates of vaccination, and forms on which to report the results of the enforcement of the order.

Will you please see that these orders and blanks are promptly distributed, and make public such portions of this letter as will have a tendency to remove objections to and secure compliance with the Board's order.

Very truly yours,

J. W. SCOTT, M. D.

Secretary.

Judging from the demand made upon the office for reliable vaccine, the number of certificates called for, and reports and letters received from school officers, health boards and physicians,
B. H.—B

much has been accomplished in the way of vaccination in all parts of the State as a result of these efforts, and the work is still progressing rapidly.

It may not be out of place to state that there was reported the death of a boy directly from the effects of vaccination at Coffee, Montgomery county. In response to an inquiry sent at once, Wm. H. Cook, M. D., the physician who vaccinated the boy, and also attended him during his fatal illness, states that at the same time he vaccinated the boy, he vaccinated 200 or more other school children and never had better success. That there was "no connection whatever as cause and effect in the case;" the boy dying the 18th day after being vaccinated, from well marked cerebro spinal meningitis; that the "vaccination had taken well," "the inflammation had subsided," and "the sore was drying up nicely."

Scarlet Fever:

Localized outbreaks of scarlet fever have been reported at Camden, Neoga, Pleasant Plains, Tamaroa, Rantoul, Otterville and Colchester.

Diphtheria:

Diphtheria has been reported at Pana, Karber's Ridge, Palmyra, Golconda, Wataga, Vermilion, Elizabethtown, Polo, Lawrenceville, Champaign, Assumption and Springfield.

Typhoid Fever at Geneseo, Polo and Otterville:

The preventable disease circulars of the Board have been furnished to all these places and the outbreaks checked where the instructions have been carried out.

In all cases where reports of preventable diseases have been made, advantage has been taken of such opportunity to insist that the local authorities shall, in the case of cities and incorporated towns and villages, adopt such a health ordinance as is advised by the State Board, appoint a local health board and a health officer, and in the case of rural districts the attention of the township officers—the supervisor, assessor and clerk—has been called to the fact that they are *ex officio* the local board of health, that it is their duty and that they have authority to enforce the rules and regulations of the State Board.

Publications by the Board:

There have been compiled during the last quarter, the annual reports of the Board for the years 1889, 1890, 1891 and 1892, the reports on Medical Education and the Official Register of Physicians. One volume which is in print, includes the reports of 1889, 1890, 1891 and the report on Zymotic diseases in Chicago. Another volume, which will include the report of 1892 and the report on Medical Education is ready for press. The Official Register for 1894 is also in press and will be published together with the annual report of the year 1893 as soon as such report can be compiled.

Prosecutions by the Board:

During the present quarter, the prosecutions of suits have been authorized against D. M. Bye, Jno. Brod, Samuel G. Ade, Robert Grear, F. W. Johnson, Fritz Grung, and Franz Goetz of Chicago, against C. Linck, at Hillsboro; N. T. Oliver and the Shaker Medicine Company, at DuQuoin, and against Dr. Blankner, at Jerseyville.

The Board's attorney in Chicago reports that Bye has left the State to avoid prosecution; that on November 15th a judgment was rendered against John Brod for \$100 and costs. In the case of Samuel G. Ade the judgment was in favor of the defendant, and the case has been appealed to the Circuit Court of Cook County and is still pending. Evidence necessary to the conviction of Robert Grear has not yet been secured. In the suit against Franz Goetz and F. W. Johnson the summons were returned marked "not found." Fritz Grung has been fined \$100 and costs and has appealed his case to the district court. Cases are still pending in Chicago against John Morgan, Dennis Desmond, John Kean and Joseph Levy. Morgan and Desmond have left the State. Dr. Blankner of Jerseyville was fined \$100 and costs, but before judgment was rendered, in fact before the jury had returned the verdict of guilty, he had left Jerseyville for St. Louis. Oliver also left the State before notice could be served upon him. In the case of C. Linck no return has been made. In a suit commenced in the previous quarter against Ferd Seidl, of Benson, judgment was rendered in a justice court in favor of the defendant, and the case has been appealed to the Circuit Court. Julius Klostermann, of Okawville, was fined \$100 and costs, has promised to refrain from practice until licensed, and has made application for an examination. In a suit in the Sangamon County Circuit Court against Professor Mueller of Springfield, judgment was given for the defendant, and a motion for a new trial is pending.

In the cases in Henry county against H. Blunt and A. B. Cooper, the State's Attorney reports that in the case of Blunt, before the authority to prosecute was issued, he left the county and has not since returned. Cooper was prosecuted under the act and the full statutory penalty imposed, but before summons could issue he left the State.

Suits against the Board:

January 20 J. C. McCandless brought suit in the Circuit Court of Cook County for a mandamus to compel the Board to issue to him the State certificate, based upon a diploma issued by the Physio-Medical College of Chicago, and at the same time the Physio-Medical College of Chicago prayed for and obtained an injunction in the same court restraining the Board and its officers from issuing in any way any statement that the State Board of Health of Illinois did not recognize the Physio-Medical College as in good standing, or that it was not in good standing, and from passing any resolutions to the effect that the college was not in good standing. The mandamus suit was set for January 26th, and

the injunction for the third Monday in February, 1894. With the consent and advice of the president, the secretary retained Messrs. Hamline, Scott & Lord, attorneys, to defend these suits, and all papers and such portions of the records of the office as pertain to the cases are now in their hands. January 26th the attorneys appeared before the court and obtained a continuance of fifteen days in which to prepare an answer to the mandamus case.

Foreign Diplomas:

At the last meeting of the Board, there were submitted letters written by one Dr. Glaz to your secretary, in which it was charged that certain Russians had obtained certificates from this Board by fraud, and the secretary reported that he had written to the United States Minister at St. Petersburg for copies of the laws regulating the practice of medicine and midwifery in Russia, and asking for a statement of the value of "Feldscher Certificates," issued by Russian universities. He replied that he would furnish the information asked, but as he had not done so on January 10th, another urgent letter was written him.

Inquiries were made of the rectors of the Universities of Charkov, Dorpot, Warsaw and Moscow as to the genuineness of the claims made by thirteen certificated physicians of this State that they are graduates of said universities. From answers received it is found that five are graduates, having received the degree of M. D.; that one had obtained from the Warsaw Feldscher School, which is united with the university, a Feldscher Certificate (1885 H. 2019), and that another was among the number of scholars in the same school, but in the lists of schools there is no intelligence about his receiving a certificate. With regard to two others, the information furnished, although not conclusive, would seem to indicate that they are not graduates of the universities mentioned in their affidavits.

Inasmuch as two of the persons in making applications for their State certificates entitling to practice medicine in Illinois made affidavits that they had received the diploma of the University of Warsaw, and as it has been officially stated by the rector of said university that neither of them had received the degree of M. D. from said university, the Secretary would respectfully suggest that they be notified to appear at the next meeting of the Board and show cause why their certificates should not be revoked for unprofessional and dishonorable conduct, in that they were obtained through misrepresentations and false swearing.

The Secretary also asks that like instructions be given him with regard to any of the other six, concerning whom similar information may be received.

Hoeller, William, case of:

A certificate entitling to practice medicine in Illinois was issued to William Hoeller on June 18, 1890, based upon a diploma of the University of Vienna, which he made affidavit was issued him December 16, 1862.

On March 3, 1893, a letter was received from Dr. Geo. S. Smith, of 1742 Diversey avenue, Chicago, in which he says that he has been informed by honorable physicians and druggists that Hoeller "is practicing medicine under a diploma said to be issued by two Chicago physicians now in practice, and who it is said issued the diploma for \$100," and "this man had no diploma several years ago, offered large sums of money for a dead physician's diploma, and after repeated offers has obtained one." Dr. Smith offered to give the names of his informants and to assist should the Board see fit to make an investigation.

Dr. Detlefsen, of 1072 Lincoln avenue, Chicago, writes that one Wm. Hoeller is apparently in possession of a bogus diploma, and encloses a copy of a letter received by him from the rector of the University of Vienna, in which it is stated that the name Wm. Hoeller does not appear in the lists of the year 1862 of the university.

July 15th a letter was written from the Secretary's office to the rector of the University of Vienna asking whether a diploma was granted to Wm. Hoeller by the University of Vienna on December 16, 1862, or at any other time, and on the 29th of August the following reply was received:

Dr. J. W. Scott, Secretary of the State Board of Health, Springfield, Ill.:

VIENNA, AUG. 17, 1893.

DEAR SIR:—In reply to your inquiry of July 31, 1893, No. 51,560, I would inform you that no medical degrees were conferred at the University of Vienna on December 16, 1862, and that the name of Wm. Hoeller does not appear in the lists of those who have received the degree of doctor of medicine at Vienna; and that he, therefore, is not a graduate of the University of Vienna.

Very respectfully,

E. LUDWIG,

dz Rector Magnificus.

Hoeller has been cited to appear before the Board at this meeting and show cause why his State certificate should not be revoked for unprofessional and dishonorable conduct, in that he, in making application for the State certificate entitling to practice medicine and surgery in Illinois, made affidavit that he was the lawful possessor of a diploma issued to him, after due examination, by the University of Vienna, on the 16th day of December, 1862; that he was the person named therein, and that the diploma presented by him and referred to in his affidavit was the genuine diploma of that institution, whereas it is shown by the correspondence received from the university that he did not graduate on the date named or at any other date.

Notice has been served upon Hoeller to appear at this meeting and show cause why his certificate should not be revoked for unprofessional and dishonorable conduct.

Goerss, Franz C. A., case of:

On March 23, 1889, Franz C. A. Goerss filed his application for the State certificate entitling to practice medicine and surgery in

Illinois. He presented a diploma purporting to have been issued by the University of Erlangen, Bavaria, dated January 26, 1869, with his affidavit that said diploma was the genuine diploma of that institution and has been issued to him after due examination.

He presented also letters of recommendation from medical men of East Saginaw and Detroit and paid the fee of \$5.

On March 29th, the receipt of his fee and application were acknowledged and he was asked to furnish letters from physicians residing in this State. Replying, he said: "I am not acquainted in America, and send you the names of the doctors whom I know. I would ask you to send either the license or my diploma. On the 12th of May he writes to know whether the Board has decided his case, and says: "Although I am poor and possess but \$150, I would gladly send \$100 to get my license, if it can be more quickly obtained with money." On April 13th his application was declined and his fee returned.

November 8, 1889, he filed another application and presented a letter of recommendation signed by Dr. G. Schlick and Dr. J. E. Harper, of Chicago, and upon these credentials a State certificate was issued him.

On Jan. 14, 1891, a letter was received from the Western Pennsylvania Medical College, asking for information concerning the professional standing of F. C. A. Goerss, who had presented to that college his diploma from Erlangen, Bavaria, and desired the endorsement of its faculty. Secretary replied, giving the history of the case. On April 15, 1893, a letter was received from Chicago in which it was charged that Goerss had purchased his diploma of Jno. Buchanan, of New York. A letter was addressed July 31, 1893, to the dean of the University of Erlangen, asking whether the diploma of that institution had been issued to Goerss. To this he replied: "I have had the list of the graduates of 1869 very carefully examined, also the lists for ten years before and after (1859-1879) and am convinced that the name Franz C. A. Goerss, or the name Goerss at all, does not occur in them." Notice was sent to the Board's attorney in Chicago to be served upon Goerss to appear at this meeting and show cause why his certificate should not be revoked for unprofessional and dishonorable conduct, but the notice was returned with the information that Goerss had left the State and was at present in San Francisco. The notice will be served upon him as soon as his address can be ascertained.

Goodman, Herman, Case of:

In March, 1889, Herman Goodman made application for the State certificate—filing his affidavit that after due examination he had graduated at the University of Berlin on March 31, 1881. He also filed letters of recommendation from Drs. A. Reeves Jackson and S. S. Bishop, of Chicago, and paid the fee of five dollars required by law, and upon these credentials the State certificate was issued him.

On June 4, 1892, a letter was received signed Officer Shane, Maxwell Street Station, Chicago, in which it was asked by what authority Goodman was entitled to practice medicine. Answer was made that his authority was a State certificate based on the diploma of the University of Erlangen. To this Shane replied: "I think he does not hold a diploma from the Berlin University," and asks whether there is any way to find out whether the diploma is genuine. On June 15, 1892, a letter was addressed by the secretary to the dean of the Faculty of Medicine of the University of Berlin asking whether Goodman graduated as set forth in his affidavit, to which letter the following reply was received:

No person called Herman Goodman was graduated from this Faculty of Medicine on the 31st of March, 1891, and can be in legitimate possession of a diploma from said Faculty conferring upon him the degree of Doctor in Medicine.

Again, Sept. 6th, through the kindness of the Hon. C. Coleman, secretary of the American legation at Berlin, a certificate was received from the dean of the Medical Faculty of Berlin under seal of the University that "no person of that name (Herman Goodman) has, as far as our records reach, been graduated and has received the diploma of Doctor of Medicine."

Goodman has been notified to appear at this meeting and show cause why his certificate should not be revoked for unprofessional and dishonorable conduct.

Aftel, Gedalia, case of:

December 26th last, there was filed in the office of the Board an application for a certificate by one Gedalia Aftel, 557 Garfield Boulevard, Chicago, accompanied by an affidavit stating that he, Aftel, was the lawful possessor of a diploma of the civil medico—Surgical College of Warsaw, Poland—issued to him after due examination on the 4th day of December, 1865, and accompanied by letters of recommendation signed by Ladislav Slominiski, of Monmouth, Illinois, and A. E. Kroening, Chicago.

In accordance with the rules of the Board, the documents which accompanied this application, and which were in the Russian language, were forwarded to the Russian consul at Chicago with a request that he certify as to the genuineness of the documents and whether they were sufficient to entitle the holder to the right to practice medicine in the Russian Empire. The Hon. M. DeThal, Russian consul at Chicago, replied that all Russian documents, for their official acknowledgement in the United States, must be supplied with the attestation or certification by the United States of America consulates in Russia. Therefore, in the case of Gedalia Aftel, all documents must be sent to the consul of the United States in Warsaw, Russia, because the document was issued in Lulin, Russia, Poland. Dr. Aftel was written to this effect. January 13th Dr. Aftel called at the office in Springfield, accompanied by an interpreter, presented the certificates which had been returned to him, together with translations of the same, again stating that they were of such a character as fully entitled him to

practice medicine in all its branches in the Russian Empire. Further inquiry developed the fact that they were simply certificates to the effect that the degree "Feldscher" had been conferred upon him by the Feldscher school connected with the University of Warsaw. The claim was made that the original certificate had been confiscated by the Russian authorities, owing to the fact that Aftel was exiled from that country. The fact was also developed that Aftel possessed none of the qualifications which would entitle him to practice medicine in Illinois. It was suggested to the Secretary that \$200.00 would be forthcoming if some way could be devised to secure a certificate for Aftel. Dr. Aftel was informed that it would not avail him to press his claim further, as his credentials were not such as would entitle him to receive the State certificate. At his request, the fee which he advanced was returned to him.

Respectfully submitted,

J. W. SCOTT, M. D.,
Secretary.

On motion, the report of the Secretary was accepted and ordered spread upon the book of the minutes.

After a general discussion of the subjects of small-pox and vaccination of school children, the following resolution was adopted:

Resolved, That the Illinois State Board of Health enforce by all means in its power the vaccination of all school children and school teachers in the State, whether they are connected with public or private schools.

Dr. B. M. Griffith, Treasurer of the Board, submitted his report for the fiscal year ended September 30, 1893; also a report of the receipts and disbursements of his office from September 15, 1893, to January 30, 1894, inclusive. The reports were received and referred to the Auditing Committee.

On motion of Dr. Vincent, the Committee on State Sanitation was instructed to prepare and submit at the next regular meeting an outline for future sanitary work for consideration.

Dr. Quine, Chairman of the Committee on the Administration of the Medical Practice Act, presented the following report, which was adopted:

The Case of the Toledo Medical College:

The Toledo Medical College was excluded from the list of recognized colleges by the formal action of the Board at its meeting in Chicago, October, 1887, because of unprofessional conduct and non-compliance with the schedule of minimum requirements prescribed for medical colleges by this Board, and it now applies for re-establishment in good standing on the grounds that it is so thoroughly reorganized as to be, in effect, a new faculty operating under an old charter; that its educational equipments and facilities are above the minimum requirements of the Board; and that, for two years, the curriculum and requirements for admission and graduation have been at least equal to the average of medical colleges now in favor with this Board.

Your Committed visited the institution and examined thoroughly its appointments and clinical facilities, and became acquainted with nearly every member of its faculty.

Its faculty is thoroughly re-organized and but two members of the old organization—men of unassailable reputation, well known to your Committee—are connected with the institution at the present time. The faculty consists of representative men, and contains some men who would not be out of place in any teaching body in this country or elsewhere.

The curriculum of the college and its requirements for admission and graduation are acceptable to your Committee.

Its equipments and appointments—considering the small size of the institution—are unexceptionable.

It has a well ordered clinical laboratory, which your Committee saw in operation: a histological laboratory supplied with excellent microscopes—Bausch and Lomb—with one inch, one-sixth and one-twelfth inch objectives—about one instrument to four students, including the graduating class; a good pathological laboratory and museum; and the beginning of a cabinet of *materia medica*. The clinical resources of the college are excellent and splendidly utilized. Your Committee finds the Toledo Medical College to be worthy of confidence and approval, and recommends that said college be formally recognized by this Board.

Respectfully submitted,

WILLIAM E. QUINE.

JOHN A. VINCENT.

By the majority.

Upon motion of Dr. McFatrigh the following rule, passed at the meeting of the Board July 27, 1892, was rescinded:

RULE II. No medical college can be held to be in good standing until it has established its claim to such standing by an active existence of not less than five (5) years, and then only upon compliance during such period with the terms of rule I, and by its work and the character of its graduates as determined by the examination of the Board.

At the request of Dr. S. C. Duncan, President of the National Homeopathic Medical College of Chicago, action upon the recognition of that school was postponed until the April meeting.

The Secretary, from the Committee on Resolutions, reported that all resolutions of the Board had been compiled. The report was referred back to the committee with instructions to revise and print.

A communication was received from the Capital District Medical Society, through a committee composed of Drs. Geo. N. Kreider, of Springfield, E. J. Brown, of Decatur, and Carl E. Black, of Jacksonville, concerning tuberculosis and its prevention. The communication was referred to a committee consisting of Drs. Griffith, Vincent, Thilo and the Secretary, with instructions to prepare for general distribution a circular upon the subject.

A communication from the Wisconsin State Board of Health, regarding an outbreak of diphtheria at New Haven, Wis., and supposed to be traceable to the Cook County Hospital, was placed on file.

The Auditing Committee reported that they had audited and approved the Treasurer's account for the period from September 15, 1893, to January 30, 1894, had found them correct and ordered them to be recorded.

The Secretary was instructed to notify Dr. J. W. Carico, of St. Augustine, that the certificate of the Board would be issued upon the presentation of satisfactory evidence that he had received the necessary preliminary education before entering upon his medical studies in Tulane University.

On motion of Dr. Thilo, the Secretary was instructed to notify schools of midwifery that the Board would hereafter require, as a condition of any recognition of their diplomas, that the school require of every student attendance upon at least six months of instruction, with not less than ten hours a week, and further, that the applicant file with the Board a certificate, signed by the head of the institution, that she has attended not less than three confinements.

Wm. E. Quine, M. D., Chicago, President.

J. W. Scott, M. D., Chicago, Secretary.

B. M. Griffith, M. D., Springfield, Treasurer.

The President appointed the following standing committees:

Committee to Audit Accounts—Drs. J. B. McFatrigh and Julius Kohl.

Committee on State Sanitation—Drs. Sarah H. Stevenson, Jas. B. McFatrigh and Geo. Thilo.

Committee on the Administration of the Medical Practice Act—Drs. John A. Vincent, B. M. Griffith and J. B. McFatrigh.

Committee on the Revision of the State Board of Health and Medical Practice Acts—Drs. B. M. Griffith, John A. Vincent and Julius Kohl.

On motion of Dr. Vincent, the President was appointed a committee to draft a new schedule of minimum requirements, and report at next meeting.

On motion of Dr. Stevenson, the rule of the Board regarding the evidences of preliminary education required of applicants for matriculation in colleges recognized as in good standing, be amended so as to read as follows:

I. Credible certificate of good moral standing.

II. Diploma of graduation from good literary or scientific college or high school, or at least a second grade teacher's certificate.

The following resolution was unanimously adopted:

WHEREAS, It may occur that without improper motive some one of the examiners may over-rate or under-rate the answers of an applicant to his questions, and to the grave discredit of the Board,

Resolved, That therefore we recommend that whenever there is any doubt about the correctness of any of the ratings, and whenever it is practicable so to do, the entire Board should revise all valuations, and either approve them or scale them up or down, as in their judgment, justice and fair dealing may dictate.

In the case of Wm. Hoeller, of 240 Noble avenue, Chicago, it was ordered that in lieu of the fact that proper notice had been served on him to appear at this meeting and show cause why his certificate, No. 9,226, issued to him June 18, 1890, should not be revoked on the ground of unprofessional and dishonorable conduct, *in that, as alleged* by the rector of the University of Vienna, he

did not, as he recites in his affidavit, presented to this Board, graduate at said university on the 16th day of December, 1862, nor at any other time, and in view of the fact that Hoeller has acknowledged receipt of such notice (see letter on file) and has not appeared nor made any defense, certificate No. 9,226 be revoked, and that the Secretary be instructed to notify Hoeller of this action.

In the cases of Herman Goodman and Franz C. A. Goerss, also cited to appear before the Board, action was deferred until the April meeting.

The quarterly report of the Secretary, with the exception of that portion referring to individual cases upon which specific action was had, was approved and ordered printed in pamphlet form for distribution. The President, Secretary and Drs. Griffith and Kohl were appointed a committee on publication with power to act.

Dates for the regular meetings of the Board were fixed as follows:

Annual meeting, first Tuesday in January; should such date fall on a national holiday, the succeeding day.

First quarterly meeting, the last Tuesday in April.

Second quarterly meeting, the last Tuesday in June.

Third quarterly meeting, the last Tuesday in September.

On motion, the Board adjourned.

QUARTERLY MEETING, CHICAGO, APRIL, 1894.

The regular quarterly meeting of the State Board of Health was held at the Grand Pacific hotel in the city of Chicago, April 24-25, 1894.

The Board was called to order at 10 A. M. by the President, Wm. E. Quine; members present, Drs. Kohl, Vincent, Thilo, Griffith, Stevenson, McFatrach and the secretary, J. W. Scott, M. D.

The minutes of the annual meeting held January 30, 1894, were read and approved.

E. G. Weiland, of Bloomington, against whom a suit has been brought for practicing medicine without the State certificate, was permitted to take an examination, the certificate to be withheld pending the action of the court in which the suit is on trial.

In the case of Fritz Grung, of Chicago, who also made an application for an examination, it was ordered that he be refused an examination until the judgment entered against him for violation of the Medical Practice act be satisfied.

Zwightmann von Noppen, of Chicago, and Julius Klostermann, of Okawville, were, upon application, permitted to take the non-graduate examination.

James W. Gay, an Indian doctor, appeared before the Board and asked for the privilege of an examination by the Board. Gay admitted that he had been prosecuted in Hancock county for practicing without a license; that he had been fined \$100 and that the judgment had not been paid. On motion of Dr. Kohl, the application was denied until Gay should make his record good with the State.

Action on the application of J. C. Litzelle, of Rockford, was, on motion of Dr. Stevenson, deferred until the Secretary should have had opportunity to communicate with the University of Linko-joining, and determine the genuineness of diplomas which the applicant claimed had been granted him and which, he stated, had been destroyed by fire.

In the case of Herman Goodman, who had been cited to appear before the Board at its January meeting and show cause why his *certificate number 8558* should not be revoked, and who had

acknowledged receipt of such notice, and who had presented letters testimonial of his moral and professional standing, based upon which, action had been deferred until the present meeting. It was ordered, upon the presentation of evidence by the Secretary, that Goodman had admitted to him that he was not the possessor of a diploma from the Frederick Wilhelm University of Berlin, Germany, that said certificate No. 8558 be revoked, and that the Secretary be instructed to notify Goodman of this action.

On motion of Dr. Griffith, it was ordered that the Secretary be instructed to issue a certificate to J. A. Black, of Pleasant Mound, upon the filing in the office of the Secretary, a transcript of the records of the county clerk of Bond county, showing that said Black had filed in the year 1878, an affidavit of seventeen years of continuous practice in the State of Illinois.

The Secretary was instructed to issue duplicate certificates to S. J. Bassett, St. Elmo; J. G. Bemis and H. C. Clements, of Chicago, and Edgar A. Peck, of Canton, Ill.

The Secretary was instructed to prepare and have printed blank duplicate certificates in such form that it would be impossible that they could be altered or changed in any way for use as originals.

The Secretary reported that the Treasurer, Dr. B. M. Griffith, has voluntarily filed a bond to the Board in the penal sum of three thousand dollars (\$3,000). On motion of Dr. Kohl, the bond of the Treasurer was approved and accepted.

The quarterly report of the Secretary was read, and upon the motion of Dr. Griffith that the report be considered by sections, its consideration was deferred until the afternoon session.

The Secretary presented correspondence with Dr. James Lewis Howe, dean of the Hospital Medical College, of Louisville, with reference to the action of that college in admitting to its graduating class graduates of two years' winter schools at the close of their sessions, thus violating, as the Secretary claimed, the schedule of minimum requirements of the Board and of the college itself, as set forth in their printed announcements; that it did require three full courses of lectures in separate years. Dr. Howe, who was present, was introduced to the Board and made a statement in behalf of the college. He stated that the matter had been considered by the faculty of the college and that a majority of its members had decided that they should admit such applicants to their graduating class as presented diplomas from reputable (not recognized) colleges. The doctor said: "Personally I was opposed, for the reason that I believed that it was not carrying out the law in its fullest interpretation. I agree most fully with this Board."

On motion of Dr. Stevenson, the following resolution was unanimously adopted:

Resolved, That a medical college in good standing with this Board cannot, under any circumstances, graduate students who have not attended three (3) full courses of instruction in three (3) separate years.

Upon his request, Dr. Howe was presented with a copy of the resolution.

The Committee on the Administration of the Medical Practice Act submitted a report of its investigations of the American Medical College, of St. Louis, Mo., which resulted in finding that "the teaching facilities and equipments of the college are not such as will warrant the Board in continuing its recognition," and recommending that the diplomas of the American Medical College, of St. Louis, for 1894 and thereafter be not recognized.

The report of the committee having been read, Dr. E. Younkin, dean of the college, who had been previously informed by the Secretary of the substance of the report, was introduced and spoke at length in defense of his institution.

On motion of Dr. Kohl, the report of the committee was adopted.

The same committee presented a report on the Barnes Medical College, of St. Louis, Mo., which was unanimously adopted.

The conclusion and recommendation of the committee are as follows:

Your committee finds that in equipments and teaching facilities the Barnes Medical College meets all the requirements of this Board and recommends that, beginning with the session of 1894, the diplomas be recognized as a basis upon which to issue the State certificate entitling to practice medicine and surgery in Illinois.

The same committee presented its report upon the College of Physicians and Surgeons, of St. Louis, Mo.

Upon motion of Dr. Stevenson, the report was adopted.

The conclusion and recommendation of the committee are as follows:

The hospital facilities of the college are ample, and your committee finds that the teaching facilities of the college are fully up to the requirements of this Board, and recommends that the diplomas of 1894 and thereafter be recognized.

The same committee presented its report on the Marion-Sims College of St. Louis, Mo., which was, on motion of Dr. Vincent, adopted:

The conclusion and recommendation are as follows:

The committee finds that the Marion-Sims College complies with all the requirements of the Board, and recommends that it be placed in the list of colleges recognized by this Board as in good standing.

The same committee presented a report on the Hering Medical College of Chicago, which was, on motion of Dr. Kohl, adopted.

Its conclusion and recommendation are as follows:

Your committee finds that the teaching facilities of the college are fully up to the minimum requirements of the Board and recommend that the diplomas of 1894 and thereafter be recognized.

The secretary stated that he had been called upon to pass on an application, based upon a diploma issued by the Wisconsin

College of Physicians and Surgeons, of Milwaukee, Wisconsin; that the school had only been in existence for two years and that the Board had taken no action determining its standing, and asked for instructions.

On motion of Dr. Stevenson, the matter was referred to the Committee on Administration of the Medical Practice Act.

On motion of Dr. Stevenson, the president appointed Drs. Stevenson, Griffith and Vincent a committee to draft suitable resolutions upon the death of Dr. John H. Rauch, with instructions to report before the final adjournment of the Board.

At the morning session, April 25th, the report of the Committee on the Administration of the Medical Practice Act, upon the Beaumont Hospital Medical College, of St. Louis, Mo., was read and approved, and its conclusion and recommendation adopted, as follows:

Your committee finds that the college complies with all the requirements of this Board, and recommends that its diplomas of 1894 and thereafter be accepted as a basis upon which to issue the certificates entitling to practice medicine and surgery in Illinois.

On motion of Gr. Driffith, the report was adopted, and the secretary was instructed to notify the college, through its dean, that the Board could not endorse its action in graduating Dr. J. S. Cannon in the class of 1894.

The secretary read the following communication from Ernst F. Hermann, attorney at law, Chicago:

CHICAGO, March 29, 1894.

State Board of Health, Springfield, Illinois:

GENTLEMEN:—I wrote you in behalf of the Chicago College of Midwifery, a corporation of the State of Illinois, located in the city of Chicago. It seems that graduates of this institution, holding its diplomas, have failed to obtain from you the certificates referred to in Section 1 of the Illinois Medical Law, which reads in part as follows: "If the diploma is found genuine, and from a legally chartered medical institution in good standing, and if the person named therein be the person claiming and presenting the same, the State Board of Health shall issue its certificate to that effect, etc." I would request of you that you inform me of the grounds upon which such certificates have heretofore been refused.

The institution is very desirous of meeting and coming up to any requirements that it may thus far unwittingly have failed to comply with, to entitle it to have its diplomas recognized as contemplated by Section 1 above referred to. And it is to this end that I apply for the information requested.

Very respectfully,

ERNST F. HERMANN.

CHICAGO, April 7, 1894.

J. W. Scott, M. D., Secretary State Board of Health, Springfield, Illinois:

DEAR SIR:—Your favor of April 2d received and contents noted. I find myself still in some doubt as to the standing of the Chicago College of Midwifery under the Illinois Medical Law and the rules of your Board, and therefore request the favor of a further explanation.

A resolution of your Board adopted May 24, 1889, sets forth a "schedule of minimum requirements for Schools of Midwifery," the purpose for

which seems to be to fix a standard for determining what schools of this character are in "good standing" within the meaning of the Medical Act. If this be so, it would seem to be obligatory upon the Board (under Section 2 of the act of July 1, 1887) to issue its certificate to any one duly proving a diploma from an institution coming up to that standard, without further examination.

I notice further that in the Medical Law, Section 2, graduates in midwifery are differentiated from other graduates only as to the amount of the fee; and that where "examinations" are referred to in said law (as in Sections 4 and 5) the words "not graduates" are used; so that it would seem that the law does not contemplate and does not confer authority for the requiring of an examination where the applicant is a graduate of an institution "in good standing."

Very respectfully,

ERNST F. HERMANN.

On motion, Drs. Stevenson, Thilo and Kohle were appointed a committee to ascertain from council the legal authority of the Board in the matter and report at the next meeting.

The Committee on Resolutions regarding the death of Dr. Rauch submitted the following report, which was unanimously adopted, and the secretary was instructed to send copies to the various medical journals, state boards of health and to the relatives of the deceased.

Resolved, That the Illinois State Board of Health, realizing that the causes of state medicine and medical education have sustained a great loss in the death of its former President and Secretary of the Illinois State Board of Health, Dr. John H. Rauch, wishes to express to the profession at large, and to the family of the deceased, its high appreciation of the services rendered by Dr. Rauch, not only to the State of Illinois, but to our entire country.

He was the first man in our midst to place the subject of public health upon a scientific basis, treating the vital questions of drainage and water supply with the intelligence and energy necessary to bring about results, projecting plans in sanitary science that will long remain models worthy the study of the student of public health.

The name of Dr. John H. Rauch should be held in reverence by the medical profession for his zeal in the direction of advanced medical education. He was among the earliest and one of the most constant advocates of a more liberal education, and his "Schedule of Minimum Requirements" is as widely known in this country as is medical education itself.

Beside this recognition of Dr. Rauch's great knowledge of the subjects he had made his own, this Board wishes to record its appreciation of his enthusiasm for and devotion to his work, likewise of his many virtues as a friend and physician.

In the matter of the National Homeopathic Medical College of Chicago, the Committee on the Administration of the Medical Practice Act submitted a report which was accepted, and the following finding and recommendation were adopted:

The committee finds that the teaching facilities of the college are up to the minimum requirements of this Board and recommends that it be placed upon the list of recognized colleges, and that the graduates of 1894 and thereafter be granted certificates.

The Secretary presented a report of the condition of the heifers used by the Vaccine Farm for the propagation of vaccine virus, at Lombard, Ill., made by M. R. Trumbower, S. V., in response to a request that he investigate and report to the Board. The report is as follows:

Dr. J. W. Scott, Secretary State Board of Health:

I examined the cattle at the Lombard Vaccine Farm, and found them all proper subjects for that use.

M. R. TRUMBOWER, S. V.

OFFICE WORK.

Certificates issued:

During the period January 30 to April 24, 167 certificates were issued entitling to practice medicine and surgery, 160 being based upon diplomas of colleges unconditionally recognized as in good standing, and seven upon the applications having supplemented the diploma by passing the examination required of graduates of schools, which do not fully conform to its schedule of minimum requirements. Fourteen supplemental examinations have been conducted in the office by the Secretary. As a result of these examinations, seven successfully passed and were granted certificates, and seven failed to secure the required per cents. and their applications were rejected. One non-graduate examination was conducted by the Board at its meeting January 30, and in this instance the applicant failed to obtain the required standing. Two duplicate certificates were issued upon the order of the Board, the applicants having filed proof of the loss or destruction of the originals. Thirty-four certificates have been issued to midwives, and six applications for such certificates have been rejected upon failure to pass the necessary examination.

Correspondence:

Three thousand two hundred and seventy-three written communications were received, and 2,935 were sent out. Five hundred and fifty-two copies of the Board's reports, 1,000 of preventable disease circulars of the Board and 2,000 copies of the abstract of the minutes of the January meeting, about 60,000 personal certificates of vaccination, and a large number of other publications of the Board have been distributed.

SMALL-POX.

The increase of small-pox in this country, as indicated by the number of places infected, during the small-pox season of 1893-94, seems to have reached its maximum about the middle of March, last, up to which time there had been a total of 219 infection centers reported in 21 Commonwealths, including one point each in the Province of Ontario and British Columbia. The states invaded were New Hampshire, Vermont, Massachusetts, Connecti-

cut, New York, New Jersey, Pennsylvania, West Virginia, Georgia, Texas, Tennessee, Kentucky, Ohio, Indiana, Michigan, Illinois, Wisconsin, Iowa, and Minnesota.

The latest advices received in the Secretary's office indicated 83 infection centers in 11 states, and 1 in the Province of Ontario, since February 1st—Illinois not included.

In anticipation of this recent prevalence of small-pox, the State Board of Health nearly two years ago, renewed its efforts to secure vaccinal protection of the State, and these have been continued by the present Secretary. From correspondence, returns made to the office, and other sources of information, it may be stated that the efforts of the Board have been ably seconded by the local authorities and that in most localities in the State vaccination has been very generally secured. To this work must be attributed the general immunity of the Commonwealth in the face of repeated introductions of the infection, generally by tramps.

Since the last (January 31st), meeting of the Board there have been 21 such introductions, namely, at Edwardsville, Alton and Upper Alton, in Madison county; Joliet, Spencer and Braidwood, in Will county; Harvey and Maywood, in Cook county; Danville and Hoopeston, in Vermilion county, Rock Island, Freeport; Elgin, Decatur, Morris, Peoria, near East St. Louis (race track), Greenbush in Warren county, Libertyville in Lake county, Kingston in DeKalb county and Jonesboro in Union county.

At Edwardsville the outbreak was caused by a tramp, who was sent to the poorhouse, where he developed small-pox on the fourth day; there were a total of 25 cases with six deaths among the pauper inmates; April 19th there was one case remaining, convalescent.

The outbreaks at Morris and Greenbush were also in the poorhouses; at Morris a tramp was admitted, March 15th, supposed to be suffering with chicken-pox and recovered sufficiently to be discharged in a few days; March 27th and April 1st, two of the inmates developed small-pox, one of whom died. At Greenbush, where there were four cases, the source of contagion was reported to be Chicago through a tramp; except at Harvey, a manufacturing suburb of Chicago, there has been no extension of the disease beyond the families first infected, and at 12 of the 21 points there were only single cases. In all there have been 67 cases reported with 12 deaths.

The rules and regulations of the Board for the prevention of the spread of small-pox, as set forth in the "Preventable Disease Circular," are reported generally to have been strictly enforced.

Up to the close of the week ending April 21st, the spread of the disease continued unabated in the city of Chicago, a total of 962 cases having been reported since January 1, 1891. The progress of the disease is indicated by the monthly figures—January, 128 cases; February, 233 cases; March, 305 cases; 21 days in April, 296 cases—or an average of 14 a day for the 21 days,

which would give an aggregate of 420 cases for the month of April, an increase of 30 per cent. over the previous month. The resources of the Health Department have been overtaxed; the small-pox hospital crowded beyond its limits, so that cases are now retained at their own houses, and even in the county hospital which has been again quarantined. The infection centers are widely distributed, cases having been discovered during the past week in 21 of the 34 wards of the city. On the 21st there were some 60 cases being treated at their houses in 12 different wards in every division of the city—the majority, however, in the west division, in the group of wards opposite the business section, there being 26 infection centers in the 10th ward alone.

Measures recently instituted give ground for anticipation that some of the graver features of the situation may soon be ameliorated. Notwithstanding the condition of the municipal finances, the health department has been authorized to make whatever expenditures may be necessary for the prevention of a further spread; an extension of hospital facilities is well under way; a second house-to-house inspection by the police has been begun, and for the prevention of further deportation of the infection to other communities and states, as well as to prevent its introduction into the city from without, a system of inspection at railway stations is being established.

Meanwhile, the wholesale vaccination, begun by Health Commissioner Reynolds last year, is being vigorously pushed, and it is upon this work that the greatest reliance is to be placed. More public vaccinations have been performed in the city of Chicago within the past few months than among any other equal number of people, probably in the world, and, if the work is continued, it is only a question of time when the epidemic will die out for want of material.

With the recent action of the state boards of health of Ohio, Indiana, Wisconsin and Minnesota on the Chicago situation the members are already advised.

OTHER CONTAGIOUS DISEASES.

With the exception of small-pox, the State has been exceptionally free from contagious and infectious diseases during the past quarter.

No typhoid fever has been reported and but few cases of scarlet fever and diphtheria. Scarlet fever existed at Carlyle, Clinton county; Hanston and Sparta, Randolph county; Saunemin, Livingston county. Diphtheria was reported from Wasco and Geneva, Kane county; Thompson township, Jo Daviess county, and near Preston, Randolph county.

Vaccination:

In prosecuting the work of school vaccination, especial attention has been devoted to schools located in rural districts, as in many towns and cities of the State the order of the Board has been

incorporated into the local health ordinances, and in the majority of cases has been enforced through these agencies. Reports have been received from 3,150 district schools, and tabulated. These show a total enrollment of 73,081 pupils, of whom 67,241 present satisfactory evidence of successful vaccination, or 92 per cent. of the entire enrollment. As the enrollment of scholars is always somewhat in excess of the actual attendance, it will be seen that the percentage of unvaccinated must be extremely small. In some counties where reports have not been made directly to the office, letters were received from county superintendents stating that the order has been very generally observed. Many other districts report that while the order of the Board has been in the main complied with, that owing to objection on the part of some to vaccinate in cold weather they preferred to withhold their reports until they could be returned complete, and such reports are being received daily in the office of the Secretary.

The following circular letter was prepared and sent to the general managers of all the railroads operating lines in this State:

March 19, 1894.

DEAR SIR:—During the last week two cases have been reported to this office where persons afflicted with small-pox have been carried by railroads between points in this State.

In the first, a child was taken from Chicago to Kingston, DeKalb county; in the second, a man went from Libertyville, Lake county, to Chicago, in both cases over the C., M. & St. P. Railway.

These instances merely show what may occur at any time, and if you will permit me, I would suggest that you, as a protection to your own interest and as a matter of public safety, require that all employes of your road be at once vaccinated and revaccinated, as a condition of continuance in your service.

Very respectfully yours,

(Signed) J. W. SCOTT, M. D.,
Secretary.

A reply received from the Grand Trunk R. R. Co. is as follows:

DETROIT, MICH., March 29, 1894.

J. W. Scott, M. D., *Secretary State Board of Health, Springfield, Ill.:*

DEAR SIR:—Referring to your circular letter of March 19th, I enclose you herewith a few copies of my circular regarding small-pox, and the necessity of all employes being vaccinated at once.

Very truly,

(Signed) W. J. SPICER,
General Manager.

(Circular No. 60.)

DETROIT, MICH., March 24, 1894.

SMALL-POX.

The Secretary of the State Board of Health of Illinois has sent me the following:

"During the last two weeks two cases have been reported to this office where persons afflicted with small-pox have been carried by railroads between points in this State.

"In the first, a child was taken from Chicago to Kingston, DeKalb county; in the second, a man went from Libertyville, Lake county, to Chicago, in both cases over the C., M. & St. P. Railway.

"These instances merely show what may occur at any time, and if you will permit me, I would suggest that you, as a protection to your own interest and as a matter of public safety, require that all employes of your road be at once vaccinated and re-vaccinated, as a condition of continuance in your service."

I have also received a like notice from the Secretary of the State Board of Health of Indiana as follows:

"At a meeting of this Board, held the 15th inst., the following resolution was adopted:

"Resolved, That the management of all railroads entering this state from Chicago be requested to have their train crews vaccinated, in order that the public may be protected from small-pox through communication with them.

"We respectfully request that you comply with its provisions at as early a day as practicable. We are informed that some of the railroads have already taken this precautionary step."

Our medical officers, Dr. MacLean, of Detroit, and Dr. Miller, of Chicago, give as their opinion that it is imperatively necessary for us to meet the requirements of the State Boards of Health, and they will arrange the matter of vaccinating the employes of our company so that the work will be done at once and efficiently.

W. J. SPICER.

General Manager.

Similar letters were received from the other roads. A letter was also sent to the superintendent of all almshouses urging them to vaccinate and re-vaccinate all inmates, and to county physicians, advising them to vaccinate all persons sentenced to county jails before confining them therein.

Two suits have resulted from the efforts of the local school directors to enforce the order requiring vaccination as a condition of attendance upon schools. At Mount Erie, Wayne county, the directors were arrested upon complaint of parents that they had excluded their children from attendance upon the district school, taken before a local justice of the peace and fined one dollar each. The directors persisted in carrying out the order, were a second time arrested and fined. Each time the directors appealed the case to the district court of Wayne county. Upon the receipt of information of these suits, your Secretary assured the directors that the State Board of Health would assist to the extent of its ability in the defence of these cases, and use every effort to protect them from any trouble or expense which might result from their efforts to enforce its order. In pursuance of this promise, your Secretary visited Fairfield and consulted with the State's Attorney of the county, and was informed that the cases would be dismissed on his motion, as it would, in his opinion, be impossible to secure a conviction.

At St. Francisville, Lawrence county, a civil suit was instituted against the school directors for damages for excluding children from the schools. The same assurance was given the directors of support by the Board, and nothing further has been heard of the cases.

Scurvey.

On April 10 there was received in the office the following communication:

CHICAGO, April 9, 1894.

J. W. Scott, M. D., Secretary, State Board of Health, Springfield, Ill.:

DEAR DOCTOR:—During the past five weeks there have been several well-marked cases of scurvey in this hospital. The first case came to the hospital on March 3, 1894, giving the characteristic signs of scurvey. The case came from the drainage canal at Lamont, and from the limited history which we were able to obtain (the patient was a Bohemian) it appeared that his diet had been mostly bread, meat and coffee. Of the other cases, most give a similar diet. All of the cases have come from the drainage canal at Lamont, and nearly all the patients are either Bohemians or Poles.

Respectfully,

(Signed) CLEMENT PIERCE, M. D.

Dr. Pierce was advised that the matter would be at once investigated and brought to the attention of the Board, and the following letter was sent to Dr. Martin, Sanitary Inspector, Sanitary District, City of Chicago:

April 16, 1894.

No. 57379.

DEAR DOCTOR:—Communication has been received in this office that several well marked cases of scurvey are at the present time under treatment in the county hospital. This communication states also that the cases came from the drainage canal at Lamont, and from the limited history which could be obtained, it appeared that the diet had been mostly bread, meat and coffee.

All of the cases in the hospital came from the drainage canal at Lamont.

Will you kindly investigate this matter and report to this office at your earliest convenience?

Very truly yours,

(Signed) J. W. SCOTT, M. D.

Secretary.

Dr. Martin, Sanitary Inspector. Chicago, Ill.

To this letter Dr. Martin replied:

CHICAGO, April 17, 1894.

MY DEAR DOCTOR:—On receipt of your communication of the 10th in regard to alleged cases of scurvey admitted to Cook County Hospital, and said to be laborers on the drainage canal, I find that three men were received from Lamont on April 2, the cases were diagnosed as scurvey. Two of them have already been discharged so that I was unable to get any history of their cases. The one remaining, I interviewed, and found that for the past six months he had been living in the town out of employment. He had previous to this worked on the canal for a short time. These cases were all among Poles and Hungarians. There is quite a number of these nationalities living in town and working on the canal. Of course I am not familiar with their mode of living, but judge that it is of a very inferior character. In the boarding houses on the canal, however, there is an abundant supply of fresh meat and vegetables served to the laborers, far better than they usually obtain at the boarding houses that they are accustomed to patronize. I am aware of this from repeated inspection of meats when served, and of supplies in the store-houses, so that I can see no possibility of contracting from the use

of improper food, and I have had occasion to investigate very few complaints on this score, and when so doing have found that they were groundless. There is a point that I would like to have you enlighten me on. It is in regard to cases of variola that occur in our camps. For instance, a case occurs in a house where they may be five or six other inmates. We remove the man afflicted immediately and try to keep the others isolated for a number of days. Now the question arises what officer shall I call on as Sanitary Inspector of the State Board of Health to perform this work? I have consulted with the Attorney of your Board and he does not know, but thinks that in the regulations made by the Board the matter is clearly defined. If you will kindly furnish me with a copy of the law bearing on this matter, it will assist me very much.

Most sincerely yours,

(Signed) WILLIAM MARTIN, M. D.

Dr. J. W. Scott, Secretary, State Board of Health, Springfield, Ill.

Itinerant Venders:

During the past quarter, a number of applications have been received for information regarding the construction put by the Board upon the section of the Medical-Practice Act, pertaining to the itinerant vending of drugs and medicines, and also what would be required of those who desire to so vend in the State, that they may comply strictly with the terms of the law. To all these communications reply was sent as follows:

SIR:--Enclosed please find copy of the Medical-Practice Act, with section bearing upon itinerant vending marked; should you desire to apply for a license under this section, you should forward an application to this office, together with the legal fee and a sample of each of the articles which you propose to offer for sale. The matter will then be brought to the attention of the Board at its April meeting and you will be promptly notified of its action.

While no such applications have been filed, it is a question which must constantly arise, and it is necessary that the Secretary be informed definitely as to what position the Board will take in the matter.

It has been the policy of the Board heretofore to refuse in all cases to grant such a license. After having conferred informally with the Attorney-General, your Secretary believes that the right of the Board to peremptorily refuse to grant such license when application is properly made, the fee tendered and the applicant has complied with such reasonable requirements as the Board may demand is questionable, and would recommend that the Board at this time take action, definitely determining the matter and establishing the conditions under which such license will be granted, if at all.

REPORT OF THE COMMITTEE ON ITINERANT LICENSE.

To the President:

The undersigned, a committee appointed at the April, 1892, meeting of this Board, to confer with the counsel of the Board and to report concerning the duties and power of the State Board of Health, under section 11 of the Illinois Medical-Practice Act of 1837, and to prepare a code of procedure to govern the Board and its officers, if it shall be es-

sidered advisable to grant licenses in this State to itinerant venders of drugs, etc., would respectfully report that we have performed the duties prescribed in said resolution, have conferred with counsel, and beg leave to submit the following considerations and conclusions:

The 11th section of the act to Regulate the Practice of Medicine in Illinois, approved June 16, 1887, in force July 1, 1887, reads as follows:

"Any itinerant vendor of any drug, nostrum, ointment or appliance of any kind, intended for the treatment of disease or injury, or who shall, by writing or printing, or any other method, profess to cure or treat disease or deformity by any drug, nostrum, manipulation or other expedient, shall pay a license of one hundred (\$100) dollars per month into the treasury of the Board, to be collected by the State Board of Health in the name of the People of the State of Illinois, for the use of said Board of Health; and it shall be lawful for the State Board of Health to issue such license on application made to the State Board of Health, such license to be signed by the President of the Board and attested by the Secretary of the Board, with the seal of the Board. Any such itinerant vendor who shall vend or sell any such drug, nostrum, ointment or appliance without having a license so to do shall, if found guilty, be fined in any sum not less than one hundred (\$100) dollars and not exceeding two hundred (\$200) dollars for each offense, to be recovered in an action of debt before any court of competent jurisdiction. But such Board may, for sufficient cause, refuse such license."

It is the opinion of counsel, and your committee is constrained to concur in the opinion, that in enacting this section it was the intention of the General Assembly to provide a means by which some itinerants should be enabled to ply their vocation within the State. Who and what these shall be it is left for the State Board of Health to determine. That is to say, "for sufficient cause" the State Board of Health may refuse to issue the license to any given applicant for an itinerant vendor's license; but it is the opinion and advice of counsel that the "sufficient cause" must be set forth in each case of refusal.

It does not suffice for the proper and full discharge of the duties imposed upon the Board by this section to set up "sufficient cause" that "such itinerancy and the manner of vending is deemed prejudicial to the public welfare," it must be shown in what way and by what means such itinerancy and manner of vending is, or is likely to be, prejudicial to the public welfare.

A sweeping resolution refusing the itinerant license on the general ground of prejudice to the public welfare would operate to set aside and nullify a legislative enactment clearly intended to regulate the manner of, and to prescribe the fee to be charged for, granting such licenses; and in the judgment of counsel, it is doubtful if the Board will be sustained by the courts in such an assumption of authority.

In the language of counsel:

"It is to be assumed from the wording of the section that the General Assembly intended to regulate the itinerant vending of drugs, nostrums, etc., a matter of legislation entirely within the scope of its functions in the exercise of what is known as the "police power" of the State. Had it seen fit and deemed it necessary for the public welfare, the General Assembly, in the exercise of this power, might have absolutely prohibited any and all itinerant vending.

"It did not do so; it is not even silent upon the subject.

"On the contrary it defines how such vending may be legally carried on, it prescribes the amount of the fee to be paid, and to whom to be paid; and it specifies the body and its officers who shall issue license for such vending.

"These considerations lead to the conclusion that if an applicant for an itinerant license should tender the fee prescribed by the statute to the Board or its officers empowered by the statute to issue such license,

and such applicant should be refused a license under the general resolution of the Board, adopted in July, 1887, a court might, and probably would, on application, issue a mandamus requiring the Board to show specific cause why in this particular case 'such itinerancy and manner of vending is deemed prejudicial to the public welfare.'

"It is not necessary to travel further on this line. The court might, and probably would, ultimately sustain the Board. But that way lies an invitation to courts to step in and share an authority and discretion now wisely vested in a body of professional experts—men charged with the 'supervision of the interests of the health and life of the citizens of the State.'" This authority and discretion is a prerogative which should be jealously guarded, its exercise should be so obviously justifiable that courts would be slow to question, and still slower to interfere with, a dictum of the Board."

"Your committee concurs fully with the argument and conclusions of the learned counsel above cited. It is a consummation devoutly to be wished that the actions, rulings and decisions of the Board shall be so obviously justifiable as to discourage litigation and make successful appeal hopeless. In the subject matter under consideration, this seems entirely feasible.

It is within the power of the State Board of Health to define the conditions upon which it shall issue the itinerant license, and it may, and it is its duty, to make these conditions as stringent, rigid and onerous as may be necessary for the protection of the public welfare. When it has promulgated these conditions it will be "sufficient cause" for the refusal of a license if the applicant has not conformed to any one or more of such conditions, specifying in the refusal the condition or conditions not complied with.

We therefore recommend the adoption of the following preamble, enactments and declarations as the basis for the rules which shall govern the issue of licenses under section 11 of the Illinois Medical Practice Act:

WHEREAS, The State Board of Health is empowered to refuse the itinerant license provided for in section 11 of the Illinois Medical Practice Act for "sufficient cause;" therefore

The Board hereby defines such sufficient cause to be:

1st. That the drug, nostrum, ointment or appliance intended to be vended itinerantly is harmful, dangerous or deleterious, or that it contains a noxious or poisonous ingredient.

2d. That its mode of vending is calculated to deceive or defraud the public.

And the Board hereby enacts and declares:

1st. That any applicant for the itinerant license, under said section 11, shall furnish a full and true statement of the formula of the drug, nostrum, ointment and description of the appliance which it is proposed to vend.

2d. That the applicant shall defray the expense of the necessary analysis or other expert examination of his drug, nostrum, ointment or appliance.

3d. That the applicant shall furnish a full, true and complete description of the methods by which he proposes to advertise and promote the sale and vending of his drug, nostrum, ointment or appliance, together with copies of his advertisements, hand bills, pamphlets and other printed matter.

4th. That the applicant shall state in his application the number of months for which he desires the license to run, and shall tender with his application the sum of one hundred dollars (\$100) for each month of such period; and also an additional sum of one hundred dollars (\$100),

out of which to defray the expense of the analysis or expert examination required. Any surplus of the "additional sum of one hundred dollars (\$100)" beyond the amount necessary to defray the expense of the analysis or expert examination, shall be refunded to the applicant by the Secretary. If the "additional sum of one hundred dollars (\$100)" be not sufficient to defray the expense of the analysis or expert testimony, the Secretary shall notify the applicant of that fact, and no license shall be issued to the applicant until the expense of the analysis or expert examination has been paid. If the license be refused, the amount tendered with the application shall be refunded to the applicant.

5th. That if, after having obtained the itinerant license, any vendor of any drug, nostrum, ointment, appliance, etc., shall change the composition of his said drug, nostrum, ointment, appliance, etc., in quantity or quality, without the sanction of the Board first obtained, or if, without such sanction, he shall change, add to, or detract from any printed or published matter or other method of advertising or promoting the sale and vending of his drug, nostrum, ointment or appliance, so far as to differ in any way from that stated in his application, the license issued to such vendor shall be declared null and void, and all money paid for such license shall be forfeited to the Board.

6th. That there shall be a committee of three members of this Board, to be appointed annually by the President, and to be known as the Itinerant License Committee; and said committee may, at any time, make such changes in, and additions to, these regulations, subject to the approval of the Board, as it may deem advisable and as tending to more carefully guard the health and welfare of the people of the State of Illinois.

All of which is respectfully submitted.

Feldscher Certificates:

With a view of placing the Board in possession of official information regarding the regulations governing the practice of medicine in the Russian Empire, and definitely determining the nature and value of what is known in Russia and Poland as the degree *Feldscher*, a letter of inquiry was addressed to the United States Embassy, St. Petersburg, requesting full information. About the 1st of April the following official communication was received:

LEGATION OF THE UNITED STATES,
ST. PETERSBURG, March 8, 1894.

Dr. J. W. Scott, Springfield, Ill.:

DEAR SIR:—I have the honor to enclose herewith the information asked for in your letter of January 9. I send you both the original and the translation of the answer furnished to us by the foreign office of this imperial Government. Trusting that it will reach you in time for use, I am, sir, your obedient servant,

[Signed.]

G. CREIGHTON WEBB.

Translation.

Copy of a note of the Medical Department to the Department of the Interior, dated February 10, 1894, No. 1020.

Referring to the dispatch of the 5th of February, the Medical Department has the honor to inform the Department of the Interior that, according to the existing laws (Articles 93, 94, 95, 116, 587, Medical Statute, Vol. XIII, Code of Law, edited in 1892), no one, be he Russian subject or foreigner, not possessing a diploma or a certificate from a Russian university or from the Imperial Medical Academy, has a right to practice any branch of medicine in Russia. Foreign doctors possessing

foreign diplomas and desiring to practice medicine in Russia, are obliged, besides receiving a diploma for their profession from a Russian university or from the Imperial Military Medical Academy, to know the Russian language. However, foreign doctors, that are more known, or that have made themselves acquainted to the learned world by their works or successful, excellent practice, or who have occupied professor chairs or some important medical position in some other country, are allowed to practice freely in Russia after only a verbal examination (colloquium) in the Medical Council, or without any examination whatever, subject to the conclusion of the Medical Council and confirmed by the Minister of the Interior. The names of all the doctors that have the right to practice in Russia are entered on the general medical list, issued annually by the Medical Department.

Midwives are also obliged to possess diplomas from medical faculties or from the Military Medical Academy.

As to the Feldschers, they are not allowed in Russia to treat independently; but being the nearest performers of the doctor's instructions, they are allowed to give preliminary help in illness before the arrival of the doctor, and under his control, to accomplish as well all the Feldscher functions, viz.: to nurse the ill, to make the most ordinary bandages, to let blood (by order of the doctor), to revive unconscious persons, to vaccinate, to extract teeth, to set bones, to write prescriptions under the dictation of the doctor, to prepare medicines, etc.; they are also allowed to use medicine for their treatments, but only such as are considered absolutely innocent house remedies, and by no means strongly acting medicines. (No. 100, Code of Regulations and Statutes of the government, December 3, 1875, Article 20116.)

[Signed.]

CONSTANTINOV.

Supreme Court Decision re Christian Scientists:

An opinion has just been rendered by the Supreme Court of the State of Nebraska of greatest importance to this Board, and boards of other States, entrusted by law with the enforcement of the regulations regarding the practice of medicine, establishing, as it does, the liability of Christian Scientists and other unauthorized pretenders to healing power.

The case is entitled *State of Nebraska. v. Buswell*. Buswell is known as the Christian Scientist of Beatrice. The case was tried before the District Court of Gage County, Nebraska, and the defendant acquitted. The State appealed the case to the Supreme Court, and the following is a syllabus of the opinion:

The State of Nebraska v. Buswell. Exceptions from Gage county. Exceptions sustained. Opinion by Commissioner Ryan.

The act to establish a State Board of Health, to regulate the practice of medicine in Nebraska, etc., is as much directed against any unauthorized person who shall operate on, profess to heal, or prescribe for or otherwise treat any physical or mental ailment of another, as against one who practices medicine, surgery and obstetrics, as those terms are usually and generally understood.

The object of the statute establishing a State Board of Health, etc., is to prevent imposition upon the afflicted by ignorant and unqualified pretenders to healing power, and any person not within the exception prescribed in said act, and not having complied with its requirements as to a certificate, who shall, under any pretense, operate on, profess to heal or prescribe for, or otherwise treat any physical or mental ailment of another, thereby renders himself liable to its penalties.

**NECESSITY OF ESTABLISHING CO-OPERATION BETWEEN THE LOCAL HEALTH
AUTHORITIES AND THE STATE BOARD.**

The difficulty of obtaining reliable information of the existence of unsanitary conditions in different localities in the State, of work accomplished by local health authorities, and of the introduction and spread of contagious and preventable diseases, has impressed itself upon your secretary, as it must undoubtedly upon the members of the Board, as the main obstacle in the way of prompt, effective and systematic work in accomplishing the objects for which the Board was established. The Board has, from time to time, formulated sanitary instructions, adopted a model form of ordinance, prepared and furnished to each city and town of the State, Sanitary Survey Blanks, drafted preventable disease circulars, giving instruction regarding the prevention of contagious and infectious diseases.

These regulations of the Board have, in the main, been prepared and printed in such shape as to be available for prompt distribution upon the receipt of information of conditions demanding them.

The laws of the State have provided for the appointment or election of a local board of health in every incorporated city and town, and outside of such corporate limits in every township in the State the township officers are *ex-officio* a local board of health.

The act creating the State Board of Health gives it charge of all matters relating to quarantine, and authority to make such rules and regulations, and such sanitary investigations as they may, from time to time, deem necessary for the preservation and improvement of public health, and enjoins upon all police officers the duty of enforcing such rules and regulations, so far as the efficiency and success of the Board may depend upon their official coöperation. The act also entrusts to the Board the State system of registration of births and deaths.

The authority of the State Board is sufficient, and the powers conferred upon the local authorities are, in the main, ample, and the sources of the necessary information are available, but until a mutual understanding shall have been established between the State Board of Health and the local health authorities and physicians, but little in the way of practical sanitation can be expected on the part of either.

With a view of creating such relationship—of establishing permanent sources of prompt and reliable information; of obtaining reports of sanitary work accomplished; of securing the adoption of uniform health ordinances and regulations in all sections of the State, and of inaugurating an annual State Sanitary Survey; of consulting for the purpose of devising a method by which an accurate and complete registration of vital statistics may be obtained, and of having reports so prepared that they may be conveniently made a part of the State records, and available as a basis for permanent systematic work—your secretary would respectfully suggest that the Board issue a call for a conference of county, municipal and township health authorities, to be held in the city of Springfield, not later than the 15th day of June, 1894, and that the secretary be instructed to invite one or more representatives of all health boards, health associations, medical societies, and others who may be interested in such work, to set forth the objects of such conference, and urge their attendance.

Respectfully submitted,

J. W. SCOTT, M. D.,
Secretary.

As the report was being read, action was had upon the several sections as follows:

The work of the secretary in enforcing the order of the Board concerning the vaccination of school children was commended and

endorsed, and he was instructed to continue his efforts in that direction.

Drs. Griffith, Kohl and Vincent were appointed a committee, to which was referred all matters raised in the secretary's report with reference to Itinerant Vendors. The committee was given power to act.

On motion of Dr. Vincent, it was ordered that no recognition whatever be given to feldscher certificates, and that in all cases where the certificate of the Board had been granted on the basis of a feldscher certificate, the holder thereof be cited to appear before the Board and show cause why such certificate should not be revoked.

The section of the report regarding railroad sanitation was approved, and the secretary was authorized to embody it in a circular letter and send it to all railroads operating lines in the State.

The secretary was instructed to issue a call to all local boards of health, for a conference to be held with the State Board in the city of Springfield, at 10:00 A. M., on the 18th day of May, 1894. The report of the secretary was adopted as a whole.

The Sanitary Committee was instructed to take such action as they might see fit, with reference to the sanitation of school houses, almshouses and penal institutions, without further action of the Board.

The president, Dr. Wm. E. Quine, was authorized to advocate before the coming meeting of the Association of American Medical Colleges at San Francisco, the adoption of a uniform schedule of minimum requirements.

Dr. Arthur R. Reynolds, Commissioner of Health, Chicago, appeared before the Board by invitation and made a statement concerning the present status of small-pox in that city, the means at his disposal for securing further hospital and ambulance facilities, and for closer inspection, and the measures which he had adopted and had in contemplation for the prevention of the further spread of the disease. At the close of the doctor's statement, the following resolution was adopted:

WHEREAS, The Commissioner of Health, Dr. Reynolds, having made report to the State Board of Health that unlimited means have been placed at his disposal; that he has divided the city into districts sufficiently small to be thoroughly inspected and has placed such inspection in the hands of competent, professional inspectors; has made arrangements for increased additional hospital facilities and for a strict quarantine of all infected premises; be it

Resolved, That the Commissioner is now in position to use necessary precautions against the further spread of small-pox in the city and deportation therefrom, and that this Board extends to the Commissioner assurance of willingness and desire to coöperate with him in any way within its power.

Dr. Thilo presented a communication to the Board upon the disposal of the sewage of the city of Chicago. On motion of Dr. Stevenson, the communication was accepted as a part of the report of the Committee on State Sanitation.

Dr. Quine, the committee appointed to report a definite schedule of minimum requirements, submitted his report, and asked that action thereon be deferred until the next meeting of the Board. So ordered.

The Auditing Committee reported that they had examined the Treasurer's report and the financial statement of the Secretary and the statement of expenditures for the quarter ended April 24, 1894, had found them correct and ordered that the vouchers submitted for the several items be paid.

Meeting adjourned.

QUARTERLY MEETING, CHICAGO, JUNE, 1894.

The regular quarterly meeting of the Illinois State Board of Health was held at the Grand Pacific hotel in the city of Chicago, June 6, 1894.

The meeting was called to order at 10 o'clock A. M., and in the absence of the President, Wm. E. Quine, M. D., on motion of Dr. Kohl, Dr. B. M. Griffith was elected President *pro tem*.

Members present: Drs. Kohl, Vincent, Griffith, Thilo and Stevenson, and the Secretary, Dr. J. W. Scott.

The minutes of the meeting of April 24 and 25, 1894, were read and approved.

On motion of Dr. Stevenson, the Secretary was instructed to inform the dean of the American Medical College, of St. Louis, that an investigation of the American Medical College of St. Louis will be made by a committee of this Board during the next working year.

Communications were read from the Ohio Medical University, Wisconsin College of Physicians and Surgeons, Milwaukee, Wisconsin, and Southwestern Homeopathic Medical College of Louisville, Kentucky, asking the Board to take action regarding the standing of these schools.

On motion of Dr. Kohl, the Secretary was directed to make an investigation of the several schools and report the result of such investigation to the committee on the Administration of the Medical Practice Act.

The following communication was received from Mr. C. G. Rauch, of Lebanon, Pa., was presented to the Board, and on motion of Dr. Kohl, it was ordered spread upon the records:

“LEBANON, PA., May 26, 1894.

Dr. J. W. Scott, Secretary State Board of Health, Springfield, Ill.:

DEAR SIR:—I embrace the earliest opportunity since my return from a recent trip west, to acknowledge the receipt of resolutions passed by your Board, and also that of the state of Maryland, on the death and life-work of my brother, Dr. John H. Rauch.

XLVIII

Please extend to the Board our sincere thanks for the flattering testimonial of their appreciation of his long and arduous labors in the domain of preventive medicine, and the elevation of the standard of the medical profession.

Very sincerely yours,

C. G. RAUCH,

For the family."

On motion of Dr. Kohl, the Secretary was instructed to issue a duplicate certificate to Dr. J. C. Woodson, of Metropolis, Ill., satisfactory evidence having been presented of the loss of his original certificate.

The report of the Secretary for the quarter ended June 26th, was read and is as follows:

OFFICE WORK.

Certificates Issued:

During the period April 24 to June 26, 1894, 209 certificates were issued entitling to practice medicine and surgery in Illinois; 195 being based upon diplomas unconditionally recognized as in "good standing" and 10 upon the applicants having supplemented their diplomas by passing the examination required of graduates of schools which do not fully conform to the Board's Schedule of Minimum Requirements. Fifteen supplemental examinations have been conducted in the office by the Secretary. As a result of these examinations, 10 successfully passed and were granted certificates; 5 failed to obtain the required per centage and their applications were rejected. Nineteen candidates presented themselves at the non-graduate examination; 9 successfully passed and received certificates; 10 failed to receive the per centage necessary to entitle them to the certificate and their applications were rejected. Four duplicate certificates were issued upon the order of the Board, applicants having filed proof of the loss or destruction of their original certificates.

Certificates were issued to 25 midwives, and 7 applications were rejected upon failure to pass the necessary examination.

Correspondence:

During the quarter 1,657 written communications were received, 5,330 sent out; 60 copies of the Board's report; 205 circular letters to the general managers of each railroad in the State. 1,175 personal certificates of vaccination, 76 sanitary survey blanks and a number of other publications of the Board have been distributed.

Following is a table showing the places where small-pox has appeared, number of cases, number of deaths and origin of the contagion:

Places.	Cases.	Deaths.	Origin.
Alton.....	4		Race track.....
Aurora.....	4		Chicago.....
Bloomington.....	1		Chicago.....
Braidwood.....	1		Chicago.....
Danville.....	1		Hoopeston.....
Decatur.....	1		Chicago.....
*East St. Louis.....	4	2	Not stated.

SMALL-POX AND VACCINATION.

Illinois, outside of Chicago, is to be congratulated on its comparative immunity from the ravages of small-pox thus far in what has been styled a pandemic of small-pox. Up to the close of last week, June 23d, there had been thirty-one places, all told, infected, with an aggregate of 105 cases and 14 deaths—being an average of 3.38 cases and .45 deaths per place. During the corresponding period of the last pandemic, that of 1881-83, small-pox was introduced into 126 places in the State, with a total of 851 cases and 170 deaths—being an average of 6.75 cases and 1.35 deaths for each place.

This highly gratifying showing is attributable: first, to the efficient coöperation of the local health authorities in the prompt enforcement of the rules and regulations of the State Board for the suppression of small-pox; and, second, to the great amount of vaccinal work done for the prevention of small-pox.

It is to this latter agency, also, that the suppression of the outbreak in Chicago must be largely accredited. Notwithstanding all the efforts of the Health Department in isolation, disinfection, etc., it was not until the vaccinations attained enormous proportions

that the disease was got under control. As previously remarked, in the April quarterly report, more public vaccinations have been performed in the City of Chicago than among any equal number of people in the world during a similar period. Between Dec. 1, 1893, and April 30, 1894, a total of 321,400 vaccine points were used; between May 1 and June 15 a total of 767,000—making an aggregate of 1,088,400 points used during the five and a half months, and an average of 14,500 points daily during the 45 days of that period.

The Health Commissioner, Dr. Arthur R. Reynolds, in answer to a series of publicly propounded questions concerning the Chicago epidemic, prepared an argument and an appeal for continuous and general vaccination, some portions of which I have ventured to incorporate in this report. The questions propounded to Dr. Reynolds were:

What were the causes of this outbreak? Were they avoidable? Have the proper measures been enforced to arrest the progress of the outbreak? What is necessary to prevent a recurrence of such outbreaks? What are the prospects for the immediate future?

Dr. Reynolds replies:

As to causes, it is unfortunately the fact that in this country general vaccination is secured through the immediate dread of small-pox, as during a widespread outbreak of the disease—a so-called “epidemic.” The last general vaccination, not only in Chicago, but throughout the United States, was during the epidemic of 1881-3. About ten years prior to that, viz.: during the epidemic of 1871-4, vaccination was also general, as it was during the epidemic following the close of the civil war. In the intervals between these periods, small-pox occurred only sporadically and caused little or no alarm. In the absence of this menace, vaccination was neglected until another general outbreak caused it to be resorted to.

While it is incontestably true that vaccination secures immunity from small-pox in an immense majority of cases, it is also true that the degree of susceptibility of the small-pox contagion varies with the individual. This is shown by the fact, observed long before the days of Jenner, that while, as a rule, one attack of small-pox secures against a subsequent attack, nevertheless there are persons so susceptible to the contagion that they are attacked a second or third time or even oftener. * * *

What is true of these exceptions to the rule that one attack of small-pox is a preventative of a subsequent attack is also true of vaccination—with this additional limitation: That the protective power of vaccination is impaired by the lapse of time in a large number of individuals. As the result of experience and observation the best authorities have fixed the period of five years as the practical limit beyond which it is not safe to rely upon a given vaccination.

During the intervals between these general vaccinations there is a steadily increasing number of individuals susceptible to small-pox, made up of those born during the interval and not vaccinated, of those in whom vaccination has lost its protective power and of unvaccinated immigrants and others coming into the community. Added to these are the hyper-susceptible individuals whom neither repeated vaccinations nor a previous attack of small-pox will protect.

The first cause, then, of the present outbreak, was a ten years' aggregation of individuals susceptible to the small-pox contagion and the second cause was the introduction of the contagion—the application of the spark to the magazine.

2. Were these causes avoidable? In the absence of general and continuous vaccination—no. Without such stringent governmental control of the individual as obtains in some European countries, vaccination cannot be made compulsory, except during an alarming prevalence of small-pox—when, indeed, vaccination becomes voluntary and not compulsory.

In this country the extent of the vaccinal protection of a community is the measure of its intelligence. It is not the better sanitary environment of our best residence districts alone that secures practical immunity from small-pox to their inhabitants; it is their active appreciation of the virtue of vaccination. The disease is as virulent and as deadly to-day among the vaccinally unprotected of all classes as it was before the discovery of Jenner, when the pock-marked face and the hideous deformity of eye and nose, and every feature, was as common among the nobility as among the denizens of the slums.

And here lies a duty of the public press. To exploit the value of vaccination and to urge its general and continuous enforcement. If it is not generally and continuously enforced there is only one other method of preventing the recurrence of small-pox outbreaks whenever the aggregation of unprotected is great enough. That method consists in the maintenance of a non-intercourse quarantine against any infected place when the disease appears in this country. This is impracticable. There have been, since this epidemic began, a total of twenty-five states affected exclusive of Canada and Mexico. * * * Under the circumstances and conditions the outlook was clearly unavoidable.

4. What is necessary to prevent a recurrence of such outbreak? * * * Only by general and continuous vaccination can any community hope to escape outbreaks of small-pox. It is one of the oldest known diseases affecting mankind; it is one of the most widely diffused, being epidemic in Africa and thence carried by commerce to every quarter of the globe; it is one of the most virulent and one of the most persistently contagious of diseases. Therefore we are likely to have contagion, like the poor, alway with us; and whenever a contagion finds a sufficient number of susceptibles there will be set up an epidemic outbreak.

The only known means to prevent such a disaster is by preventing the aggregation of susceptibles, and that this can be done by general and continuous vaccination is a demonstrated fact. It has been abundantly proven that just in proportion as vaccination is efficiently and properly performed—which implies its necessary repetition—it markedly diminishes mortality from small-pox; it renders small-pox a mild disease as compared with the disease in the unprotected; it is an almost absolute security against death by small-pox. And, on the other hand, it is just as incontestably proven that (in the words of the eminent English sanitarian, John Simon): "Wherever vaccination falls into neglect, small-pox tends to become again the same frightful pestilence it was in the days before Jenner's discovery; that whenever vaccination is universally and properly performed small-pox tends to be of as little effect as any extinct epidemic of the Middle Ages."

A pure and efficient vaccine virus being a *sine qua non* of general and continuous vaccination, it is believed to be a duty of the Board to exercise supervision over vaccine propagation.

The following paper is the report of Dr. Thilo of his investigation of the Oak Park vaccine farm, Cook county, Illinois:

To the State Board of Health of Illinois:

At the request of the Secretary of the Board, I have investigated the Oak Park vaccine farm and submit to the Board this report, with some suggestions, for regulating the cultivation and sale of vaccine virus in Illinois.

The office of this institution, which was inspected May 25, 1894, is situated in Oak Park and the vaccine farm in Lombard, sixteen miles distant from Chicago. It is supervised by Dr. Wood, a legally-qualified physician residing in Oak Park, and is administrated by a manager and a farmer. The stable, in which exclusively heifers are kept during the incubating period, is a common country stable for about twenty animals, presenting a low ceiling, unplastered and uncoated walls, with a few small windows and a wooden floor with two outlets for the stable refuse. Special provisions for ventilation, flushing or disinfecting the stable are not to be seen there, but, on the other hand, no accumulation of filth is noticeable. In other words, the broom seems to rule there exclusively.

Eleven heifers were found in this stable in various stages of vaccination, healthy-looking animals, on which careful examination could not discover any accidental wound diseases, erythema, erysipelas, oedema, phlegmon, abscess or indolent ulcerations. In comparison with human beings, it was rather surprising how slightly the surrounding tissue was affected and how great was the tendency to healing. An annex of the stable contains the operating and the storing rooms, both equally uncoated rooms, about 10 by 10 feet, through which the atmosphere of the stable freely circulated.

The operating room contains an apparatus of two planks and a strap for wedging in the animal while standing. In one corner was an ice-box for storing lymph in the warm season; some pieces of soap were lying on a window and some rags hanging from a rope.

In the storing room was, on one side, a wooden box filled with clean points in frames: on the other side, an open place for drying lymph on the points and two paper boxes with vaccine points, one 6-bladed rusty knife for scarification, one kitchen knife, a crystal vase, two hair brushes and a fruit jar. No disinfectants could be shown.

The method of cultivating lymph is the following: The heifer is wedged in in the operating room, washed and shaved on both hips and then vaccinated, with especially prepared points, on about twenty-five spots, as large as a 50-cent piece each, and is then replaced in the stable.

On the 8th day of incubation the animals are transferred again to the operating room, all crusts and pustules removed by washing and scraping with a knife, and the lymph is then collected from the denuded cutaneous surface by a kitchen knife, on which it runs down and drops in a crystal vase.

This collecting is continued about one hour and a quarter, when exudation ceases, and the lymph is then affixed by small hair brushes to ivory points, which are framed in long rows, dried in the open air of the storing room for an hour and placed in a fruit jar for shipping to Oak Park, where the points are packed in nickel plated cases.

Tests of lymph just collected from two heifers, showed by microscopical examination, broken down tissues, cell detritus, abundant micrococci, some solitary bacilli and a multitude of a non-pathogenic micro-organism frequently observed in the dejecta of the human body.

Streptococci, which are generally regarded as the originators of accidental wound-diseases, were not found in the preparations.

Vaccination of ten persons with the Oak Park vaccine, produced a slight effect in six cases, with three or four typical pustules and a small areola.

Based on this investigation I formulate my opinion about the Oak Park vaccine farm as follows:

The institution complies, perhaps, with the rules of cleanliness of a country stable, but not at all with the aseptic precautions demanded by medical science, which should unquestionably govern all preparations for medical purposes.

In a stable, particularly, the conditions for decomposition and for development of infectious substances are so favorable, and the intention to cultivate there a virus for infecting the human body is so pronounced, that both circumstances imperatively dictate strict asepsis.

The method of collecting lymph is specific, as the lymph is collected on the 8th day of incubation, and the vesticles themselves are not utilized. This method involves, on the one hand, a greater chance for decomposing and on the other, a smaller one for the effectiveness of the vaccine virus.

Notwithstanding these deficiencies, no positive evidence was produced by the investigation, that the vaccine virus is able to originate other diseases than vaccinia.

The neglect of asepsis does not incur any penalty, so long as aseptic precautions are not obligatory, but rests rather with the authority which fails to provide for regulations.

Thus this concern illustrates the necessity of regulation for propagating and collecting vaccine lymph, and demands the speedy issue of them. The more imperatively so, as compulsory vaccination is now enforced in Illinois.

Hence, I take the liberty to submit to the Board the following suggestions:

RULES FOR CULTIVATION, APPLICATION AND SALE OF VACCINE VIRUS IN ILLINOIS.

1. Asepsis must be applied in vaccine farms thoroughly, on the animals as well as on their surroundings.
2. All floors, ceilings and walls of stable and operating rooms must be made of non-absorptive material, so constructed as to admit thorough flushing with boiling water and antiseptic solutions.
3. The animals must be perfectly healthy, and are to be washed and disinfected before entering the stable or operating room. All forms of bedding for animals are forbidden.
4. Previous to collecting lymph all crusts must be removed from the vaccinated surface by applications of mild antiseptic solutions before suppuraton develops—after about 144 hours incubation.
5. In all cases of accidental wound diseases of the animals, the collection of lymph is strictly forbidden, and the infected animal must be removed instantly from the stable.
6. Instruments and hands of operators must be carefully washed and disinfected before operating or collecting lymph.
7. The storing room must be separated from the stable.

All proprietors of vaccine farms or cultivators of vaccine lymph in Illinois must comply strictly with the above rules: all local boards of health, practicing physicians as well as salesmen in Illinois are required to use or to sell, respectively, only vaccine virus cultivated under the above rules.

Respectfully submitted,

DR. GEO. THULO.

Localized out-breaks of other preventable diseases have been reported as follows:

Diphtheria at Lively Prairie, Randolph county, and Pekin, Tazewell county.

Scarlet fever at Sigel, Shelby county; Neoga, Cumberland county; Buda, Bureau county; Rantoul, Champaign county, and Pekin, Tazewell county.

SCHOOL SANITATION.

There has been distributed from the office of the State Superintendent of Public Instruction a circular letter addressed to the school boards and teachers of Illinois, entitled "Circular 26, Concerning the health and comfort of school children," and it is respectfully suggested that this Board should supplement this effort on the part of the State school authorities by issuing to all the health officers of the State a circular letter instructing them to make an inspection of all the school houses in their districts and embodying all suggestions and rules that may be necessary to enable them to give to the school authorities such advice and co-operation as will result in putting the school house and premises in the best possible sanitary condition before the beginning of the next school year.

Pursuant to an order of the Board passed at the last meeting, held April 24, a conference of local health officers of the State was held in the city of Springfield May 18, 1894, and an organization effected of such officers, to be known as the "Illinois State Board of Health Auxiliary Sanitary Association."

A full report of the proceedings of the conference, together with a pamphlet setting forth the sanitary laws of the State, and such regulations as have been, from time to time, adopted by the Board, has been printed and copies, together with a circular letter calling attention to the necessity for and objects of such an organization and extending an invitation to all health organizations to enroll their executive officers as active members, has been sent to the health authorities of every locality in the State. The full report of the proceedings are hereto attached and made a part of this report.

CONFERENCE OF LOCAL BOARDS OF HEALTH WITH THE STATE BOARD
OF HEALTH OF THE STATE OF ILLINOIS, MAY 18, 1894.

In pursuance of the invitation of the State Board of Health of the State of Illinois, extended through its secretary, a meeting of the state and local boards of health was held in the Senate chamber of the capitol building at Springfield, May 18, 1894. As set forth in the invitation, the object of the conference was to effect a State organization of health authorities, with the view of securing uniformity of action and coöperation in matters of state sanitation.

The meeting was called to order by Dr. J. W. Scott, secretary of the State Board of Health, and Dr. W. E. Quine, president of the State Board, was elected chairman and Dr. Scott secretary of the conference. On taking the chair Dr. Quine made the following remarks:

Gentlemen of the Convention:—You know in a general way the objects of this convention. They are, first of all, and chief of all, to effect arrangements for organization. Most of you must be aware of the fact

that in the great State of Illinois there has been less attempt at organization of the sanitary forces of the State than has been done in relation to any of the neighboring states.

We of Illinois are not to be compared in respect to the efficiency of our sanitary arrangements with states contiguous to us and in daily communication with us.

Neighboring states have state organizations in which the central power or central authority is in almost daily communication with the hundreds of ramifications throughout the state. An important object of this meeting is to effect such an organization as will have representatives of the Illinois State Board of Health in practically every township of the commonwealth. It is within the power of the State Board of Health to delegate its authority; it is within the power of this organization to delegate its authority to each one of you, so that each one of you may possess and may exercise all the authority which is possessed and exercised by any other member of the state organization.

It is desired to make every one of you corresponding members of the State Board of Health so that the central organization may be kept in touch with the sanitary conditions prevailing in the remotest sections of the State.

It has been the policy of the State Board of Health hitherto to avoid trespassing upon the municipalities in which health organizations have already been established upon substantially the same principle as that which governs the executive of the State in sending militia here or there to quell riot or disturbance. He does not interfere with the local management of affairs unless called upon to do so by the local officials; and so, in relation to the State Board of Health, it is presumed to not interfere in the management of the sanitary affairs of Chicago or the sanitary affairs of any other city, unless such a condition should arise in these cities as to defy the control of the local health authorities, when the local health authorities may call upon the central power for assistance and coöperation.

You know well that the State Board of Health consists of members who are not paid. They do not receive a penny of compensation, but, on the contrary, they are called upon constantly to make a free donation of their time and of their efforts. It is very easy for you to understand the impossibility that is presented to seven men who rely upon their own private practice for maintenance, the impossibility that is presented to them to cover the great interests of this State, and of knowing the condition of the privy vaults in Cairo, the condition of the sewerage in Quincy, and the condition of the water supply at Rockford. It is obviously impossible for such an organization, hampered by lack of funds, to accomplish anything in the way of efficient modern sanitation without the coöperation of the health officers en masse throughout the State.

An important matter of this convocation also is to acquaint you with the reach and limit of your authority as sanitary officers. Many of you who are called upon now and then to adjust knotty questions—questions that perhaps come in contact with political problems, or possibly questions that involve the primary question of personal rights. You may not know exactly how far it is your duty to go, how far the law permits you to go, how far the law commands you to go, but it is for the purpose in some measure of familiarizing you with the sanitary laws of the State, to the end that each and every one of you, operating in the same direction, may be guided by the same laws, doing the same things under like circumstances in all parts of the State at the same time.

It is very important indeed that each and every one of us should be acquainted with these matters. There is no reason that we of the State Board are able to discover why, in the course of a year or two, we may not effect a compact, successfully-operating organization comprising 1,000 members, possibly 1,500, and, it is to be hoped, 2,000 correspondents in various sections of the State.

In this connection let me remind you that all sanitary officers are not medical practitioners: let me remind you that some of the best work in sanitation that is done or has been done in this State is being and has been done by non-medical officers.

We greet you, then, we welcome you, medical and non-medical colleagues, to this convocation.

I am told that my colleague, Dr. B. M. Griffith, of Springfield, and of the State Board of Health, has something for presentation to the meeting. I will therefore call on him.

Dr. Griffith.—Gentlemen of the Convention:—It was stated some time ago that no papers should be read. I hope you will not consider this in the light of a paper. There are some statements that are made in this that I could not make as concisely in any talk that I can give you as I can by this manner of laying the subjects before you. In reference to the necessity for local boards the following topics are offered you for discussion, as they will have something to do, probably, with your organization when you come to make up local boards:

1. Where any sanitary work is to be done, persons familiar with sanitary work should do it. The notation of vital statistics may be made by a clerk, but only the sanitarian can adjust the proper relation.

2. During an epidemic of any disease seriously affecting public health, local boards of health are alone to be relied upon to carry out measures for controlling the epidemic and quieting the people.

3. As a part of the State Board, local boards may be of great value in assisting the people to carry out the recommendations of the State Board concerning inspection, vaccination, isolation, fumigation and quarantine. Local boards can secure vital statistics, assist in making a local registry of births, deaths, diseases, causes of diseases, etc., and all the elements entering into a vital statistic register, which will be reliable, and which should be a part of every county record.

4. The vital statistics of Illinois to-day are practically worthless, only one city in the State pretending to have a full registry of births and deaths. Not one locality in the State records climatic changes with their relation to the health of the people; not one locality that keeps a tabulated record of deaths and diseases.

5. Through local boards of health may be effected the education of the people concerning sanitary laws sufficient to enable them to construct dwelling houses, churches, school houses, and other buildings. As sanitary officers they should be prepared to give advice concerning drainage, sewage, disinfection, ventilation and all sanitary arrangements which conduce to the comforts of home life.

6. A state thoroughly organized, having a board of health in every hamlet, keeps the people in touch with all sanitary measures, valuable in protecting and securing for our people the best possible results.

Dr. Starkel (Belleville).—I wish to say there is one locality where vital statistics are properly kept. The county of St. Clair has a perfect system of vital statistics.

The Chair.—Remarks on the points referred to in Dr. Griffith's paper are now in order.

Mr. John Hoskins (LaGrange).—In reference to the collection of vital statistics. In our community I find some hesitancy on the part of practicing physicians to report cases, whether from any delicacy of professional position or what it is I don't know, but it seems to me, occupying the position I do in regard to local boards of health, that it is a very difficult matter for me to command sufficient information to collect such items as were alluded to by the gentleman who read the paper, and if there is any remedy, I am open for suggestions. I would like to know if there is any remedy by which the medical authorities would join hands on this and furnish all information of the character wanted.

Dr. J. L. Reat (Tuscola).—I was not aware that no papers were to be read and I have a paper in my pocket with some remarks bearing upon the points suggested by Dr. Griffith.

The Chair.—I myself was not aware that no papers were to be read. All we intended by that was that no set papers have been assigned or prepared, but the object of this meeting is to get expressions of opinion of every person attending the meeting, and if you have reduced your opinion to writing, we would be very glad to hear it.

Dr. Reat.—I could very easily in a minute refer to the subject in general, but two-thirds of my paper is local in its character, describing something of the sanitary conditions 75 miles east of here and about one-third to raising some questions to our authority to act. (Dr. Reat's paper is as follows):

Tuscola, the county seat of Douglas county, is located 75 miles east of the State Capital, and is one of the smaller cities of the State, having a population of about 3,000. Its site is 640 feet above the Gulf of Mexico at tide water. The surrounding country is a rich, level prairie in all directions, with artificial groves upon almost every farm. The soil is a black loam, and every foot is susceptible of the highest degree of cultivation. But it has required years of toil and large sums of money to develop this remarkable productiveness. Ponds and sloughs have had to be drained, and malaria and its sequelæ relegated to the past. To accomplish this, a systematic sub-drainage has been carried on throughout the county for a number of years, until now there is scarcely a 40-acre tract of land that has not been tiled.

The following has been kindly furnished me by Mr. Henry C. Niles, of Tuscola, who is a civil engineer and a practical surveyor of large experience:

The big ditch business in Douglas county was begun in the year 1880, but it was not until the year 1885 that steam dredges were used, since which time, however, there have been constructed 83 miles of dredge ditch, ranging from 40 feet wide at the city of Tuscola, with a depth of 8 feet, down to a width of 18 feet.

The public ditches in this county made to date have required the removal of 1,352,900 cubic yards of dirt at an average cost of 12 cents per yard.

These ditches were made under the drainage law, and were, so to speak, voluntarily made by the land owners, the needful majority of interests having been legally secured.

Much opposition was manifested at first, and indeed, mass meetings were held to oppose them, but now that they are made, adverse action has about ceased, and the blessings that were promised have been realized to such an extent that hardly any consideration would induce the people to abandon them.

The completion of these large drains gave, as was to be expected, a wonderful impetus to tile drainage, now that almost everywhere in the county the land-owner is within convenient reach of some well planned and well made public ditch.

The 8 tile plants in the county have, in the last 10 years, furnished about 20,000,000 of tile, which presumably have been laid in the ground.

One section of land near Tuscola is drained by 12 miles of tiling.

The city of Tuscola, since the construction of the 40-foot ditch, which traverses a part of the city, has now an outlet that insures thorough sewerage, a system for which has been planned, and to some extent executed, by the laying of about 1 mile of main sewer, being large vitrified pipe, with junctions at every intersecting street, and the city has, in its 1 square mile of territory, about six miles of large tile, with ample outlet, as well as cellarage secure.

The system of brick streets began 2 years ago, by the construction of an experimental stretch of 450 feet, is to be extended the present season by the further laying of about one-half mile of curbed brick roadway, the contract for which has been let at a cost of about \$20,000. This brick roadway consists of the usual sub-grade, with a layer of brick on their flat sides, in addition to which, after the requisite sand, there is laid a floor of hard-burned brick on their edges.

The improvement encircles, as it were, the business part of the city, connecting the various railroad stations.

The brick pavement of our roadways makes a clean, substantial, almost imperishable surface, free from dirt and impervious to water, a well-planned system of surface drainage carrying off the rainfall rapidly and effectually.

I am indebted to Prof. Owens for the following interesting school report:

The Building.—This contains 12 rooms, office and basement, is constructed of brick, resting upon a solid and massive stone foundation, and is in first-class condition and repair throughout.

It is heated by 5 large hot-air furnaces located in the basement. The several rooms are kept warm and comfortable in the coldest weather.

The rooms are well lighted, and, by our arrangement of seating pupils, all can study under normal conditions of light.

The ventilation is in connection with the heating system, and the rooms are abundantly supplied with fresh air at all times.

We have the Dixon Dry Closet System located in the basement of the building. For this system two large separate flues were built, and the ventilation is so complete that absolutely no odor can be detected at any time in connection with the closets. Two furnaces supply the necessary draft for the ventilation, and in these furnaces all solid excrement is reduced to ashes every week.

A fire escape, consisting of an iron stairway 26 inches wide and extending from the ground to the third floor windows, has been erected recently. This fire escape is also connected by a landing with the windows of the second floor, and this furnishes ample facilities for the safe exit of every pupil upon the second and third floors in case of any sudden alarm of fire.

The Grounds.—These are large and beautiful, containing about 5 acres, with abundant shade trees and grass, making one of the most attractive and healthful playgrounds in the State. There is an abundance of water of excellent quality on the grounds. The drainage is perfect, and in every particular there are no more healthful school premises in the State.

The schools are organized and conducted upon the most approved modern plans, both with respect to the *physical* well-being and the intellectual and moral development of the children, and all of the school exercises are planned and conducted upon the same principle.

The present enrollment is 631, and the average monthly attendance is about 540.

The highest degree of interest is manifested throughout by teachers and pupils and the schools are supported with great liberality by the people.

A new county jail has recently been erected with modern improvements for the care of inmates. Steel cages 8x8 feet are surrounded by corridors on all sides. The plumbing and sewerage are good, with light and ventilation for all. At present there are no persons incarcerated within its walls. We have no open saloons.

A mild form of pertussis is now prevailing, no other epidemic has been reported to the Board of Health within the past year. A pest house is established. Sporadic cases of varioloid and scarlatina have occurred, but the spread of the diseases has been prevented.

Passing from the local to the general, I wish to quote from Ranke, who says that "Law is beneficence acting by rule." Can this be truthfully said of either "The State Board of Health Act," or the "The Medical Practice Act" of this State? These laws were intended to be both mandatory and prohibitory, commanding what should be done and forbidding what should not be done. But what beneficial results have been accomplished by either?

Can compulsory vaccination be enforced legally?

Can isolation of patients, with contagious diseases, or local or general quarantine be secured without the danger of entangling litigations?

Has not the collection of reliable vital statistics proven an embarrassing failure?

Is it safe to say that arrant quackery—that approbrium medicorum of our profession—has been suppressed?

These are some of the pertinent questions that cannot be answered correctly in the affirmative.

No shadow of censure is intended to be cast upon any member of the present or past State Boards. These medical gentlemen and their conferees have done all that should be expected of them, and along the line of sanitation there has been some substantial advancement, not, perhaps, by virtue of law, but because our people are appreciating its importance as population increases and dangers multiply.

I believe a large proportion of the citizens of this State will respect wholesome sanitary laws—even if their requirements are rigid—while the small minority—many of them in our own profession—should be compelled to acquiesce in their enforcement.

Perspicuity is, unfortunately, not a prominent characteristic of either "The Medical Practice Act" or "The State Board of Health Act," and hence the legal embarrassments in their execution. Can we not devise some means of securing from our next legislature such amendments as will simplify these laws and render them *both* more efficient in securing the objects for which they were created?

The Chair.—Are there any other remarks on this subject? The gentleman who has just spoken has touched upon various other phases of the problem of state sanitation. In his latter remarks he refers to the necessity of additional legislation, definite, explicit and uncontrovertible legislation, and it occurs to me in this very connection that if we can effect, as we shall effect, an organization including 1,000 or 1,500 sanitarians, such an organization representing every district in the State can make itself a power in the direction of effecting sanitary legislation in this State. Such an organization whose members hold together with one object, with one purpose, can make an impression upon the sanitary laws of the State more promptly and more forcibly than can be done in any other way.

In this State there is no such thing as compulsory vaccination; there is no such thing as compulsory vaccination in any part of the United States. Vaccination is obligatory in various states, including the State of Illinois, but it is not compulsory. There is no law in this State or in any other state which compels any citizen or any visitor in a city to be vaccinated against his will. There may be local ordinances which prohibit the admission of unvaccinated children to public schools and some local ordinances prohibiting the employment of unvaccinated persons, but there are no laws to compel children to be vaccinated or compel laboring persons to be vaccinated. The law might be designated as obligatory but it is not compulsory.

As I stated a day or two ago at a meeting of the State Medical Society, conditions may arise when forcible vaccination, while not in direct cognizance with the law, will nevertheless be fully sanctioned by the community. In time of ordinary safety or freedom from peril it would be a great crime for one to destroy a building with dynamite or

other explosive, but in time of great conflagration when the safety of a whole city is threatened, it is considered a good act to interrupt the progress of the conflagration by destroying with dynamite or other explosives, buildings that are in the track of the fire and that are doomed.

Our situation may be similar, although not the same *per se*, to seize an individual by the nape of the neck and vaccinate him, yet under circumstances to the prevalence of small-pox when the health of the commonwealth is at stake the community would in all conscience and judgment sanction forcible vaccination.

It is true there are many problems of sanitation that are likely to be in close contact with problems of the character which bring about litigation.

We, of the State Board of Health, wish to inform you, our invited colleagues, that we are ready—not only ready but willing—not only willing but we desire it—to assume every particle of responsibility connected with the enforcing of the state sanitary laws as they now exist. If you stand by the enforcement of the laws and the authority which is possessed by the State Board of Health, the State Board will see to it that you are not put to any inconvenience by reason of contention or litigation arising from the enforcement of the sanitary laws. [Applause.] The State Board of Health will furnish the sinews of war; the State Board of Health will furnish everything that needs to be furnished in order to carry every contention, if necessary, up to the Supreme Court of the State and have every question as it comes up finally and permanently settled. You may feel relieved of any anxiety that you may have had in respect to liability or involvement in litigation; you are pledged freedom from personal responsibility in every way. The State Board of Health pledges to assume the responsibility for any contention or litigation you may be involved in by reason of the enforcement of the sanitary laws.

Some reference has been made to the general inefficiency of the Board, and it is well for it. Every remark that has been made in this connection is quite true and it may be quite true without being any sort of a reflection upon the real efficiency of the Board. You would not expect me, living in Chicago, to rush down to the neighborhood of Kankakee or Cairo in order to arrest and prosecute an individual who is engaged in selling Kickapoo Salve or Indian Sagwa without a license. You cannot expect members of the State Board of Health to fritter away their time on matters of that kind.

It has been charged against the Board, and with some show of reason, that it has been exerting its power by chasing some quack doctor here and there, and by taking a slap against some quack medical college here and there, while in fact the more important measures of state sanitation have been overlooked altogether. It is insignificant now whether an individual is practicing without a license, as contrasted with the demands of the hour for an effective, solid state organization of sanitary workers. [Applause.]

Dr. G. L. Eyster (Rock Island).—The points presented in the remarks of Dr. Griffith are only a few of the important questions that should be met by an organization of this kind.

As I understand the matter, a convention of the various health officers and boards throughout the State has been called for the purpose of effecting a permanent organization which may aid the State Board of Health in its work by bringing to their attention the local sanitary conditions. In order to effect such an organization, I would move a committee be appointed to codify a form of organization and a set of rules which should govern its membership and the appointment of its officers, etc. It seems to me, while it is a very good meeting so far as it goes, yet there is a very insignificant portion of the State represented, and this organization should provide some means for appointing a member of its body in every township of the State, and that member should keep the State Board of

Health informed of the sanitary conditions of that particular locality. I therefore move you that a committee be appointed to codify and form rules of organization

Dr. A. G. Humphrey (Galesburg).—Before the motion for a committee of that kind is put, I would like to make a few remarks. It strikes me that there is danger of the organization becoming too large, and it comes to my mind that if this organization is to be made auxiliary to the State Board of Health it is to comprise all commissioners of health in each city of 3,000 to 5,000 inhabitants, and one from each county representing that county, to be appointed by the county board of supervisors, and have authority to represent the county, and let all the local boards of the county be represented by him, then this body can act as auxiliary to the State Board of Health, and be in contact with the people, and through this organization the work can be carried to every local board in the State of Illinois, and by that means would be in touch from the people of the State to the State Board of Health, and carry out every provision of the State Board. Then we would be second to no state in the Union in carrying out the laws instituted by the State Board. In this way it would not get too large, and yet have representation clear back to every township in the State, and through the supervisors of each county and through the cities, we would have no trouble in reaching the masses of the people whom it is necessary to touch so that the laws of sanitation can be carried out. Now, take it in my county—we could have the city physician and the county physician so that a delegate at large from that county would cover every township in the county of Knox. I represent the city of Galesburg, having 20,000 people, and thus there would be only two representatives in this organization from the county of Knox, besides those cities comprising from 3,000 to 5,000 people. In that way the organization would not be too large, and we would have a body of from 300 to 500 members instead of possibly 5,000, as you would have, if you had representation from each local board in this State.

Dr. W. G. Bailey (Pekin).—I second Dr. Eyster's motion.

Dr. F. H. Godfrey (Bloomington).—Before the second to the motion is recorded, I wish to make a few remarks. It seems to me in regard to this motion, that we are getting ahead of ourselves, that is to say, we hardly understand ourselves as yet. I think after we have had our say and given our opinions, and have some little talk, we will understand ourselves better and know what we want, but before doing that we hardly know what kind of an organization we do want, and I believe it would be better to defer that until later in the day when we can arrive at some conclusions and organize better than now. If it is in order, I wish to make some little points. I believe that Dr. Griffith stated that the people are in touch with the local boards and will help them in the performance of their duty, etc., or words to that effect. I believe that it is not always the case. We all know very well the old maxim that, "Familiarity often breeds contempt," and while local boards of health are necessary, and it is best to have local boards of health, at the same time people must understand that there is "a power behind the throne" in the shape of the State Board of Health, as an order coming from headquarters at Springfield or Chicago from some one in authority has a better effect than anything I could say to people who I see every day. They would pay no attention to what I say, while they would do what Dr. Quine would say. We all know well if a man wants a medical education he can get it here as well as he can by going to Germany after it. Yet he will go to Germany and spend six months there for the sake of getting a "better education." If a man goes to Chicago or St. Louis and takes a post-graduate course, the people don't think anything of that, but if he goes to Berlin and does the same thing they think he knows more, and he is considered a much better physician by the people because they think the education is superior to what they get in this country. Now, a member of the board of supervisors in our county when he was approached on the subject of this meeting said, "Well, if you want to go down there you can go and pay your own expenses. I will

never vote to pay your expenses for a purpose of that kind, and it would be better if half the doctors in this country were killed," etc. Now I can do nothing with such men as that, yet if the orders we issue emanate from the State Board of Health he would pay attention to them while he would pay no attention to a doctor in a country town. Now, in regard to birth and death certificates. We all know how the birth and death rates correspond at the present day. The fault is with the doctors themselves. The law is all right. The instructions of the Board of Health are very explicit and the blanks are duly furnished. At Bloomington the doctors not only do not furnish the certificates, but brag about it and say they will not do it, and you cannot get them to do it. Of course this refers to birth certificates, as the death certificates they are compelled to furnish by the city authorities before the body can be buried. Therefore, they register deaths but not births. I think the State Board of Health ought to proceed against some doctor to compel him to make the report required by law, make an example of him and compel them to obey the law, as, of course, it is no use to have a law unless it is going to be observed.

Dr. C. A. Mann (Chester).—I am entirely in sympathy with the gentlemen who have preceded me. I wish to say at the outset that I represent the city council, mayor and board of health of Chester. We are in sympathy with this movement in our municipal organization and that is why I am here, and I do not expect to pay my own hotel bills, or railroad fare, but expect my city to do it. I have my friend here on my right who voices my sentiments as to a free discussion of the sentiments of this body of men before this committee is appointed, but unlike him, I think now is the very time to discuss matters and to express our opinions. There is not a physician within sound of my voice who has served on a board of health who has not obtained some very unpleasant notoriety just because he faithfully performed his duty. [Applause.] It seems to me the drift of our discussion should be not to distract us entirely away from the important matter of having some way of procuring the hearty coöperation of the people with whom we live. Successful sanitation can only be obtained by the hearty coöperation not only with the State Board of Health, but absolutely with the people. Of course, in the faithful performance of our duty we are often called upon to do very unpleasant things, and as faithful members of the State Board of Health, and an eye singly to promoting the healthy sanitary condition of our State, we are called upon to do things that involve us in contention and invoke unfriendly criticism. Mr. President, he is a hero who successfully cures disease, but he is a benefactor as well as a hero who prevents disease. [Applause.]

Permit me to mention one more local matter while I am up. I have the honor to be a member of the Southern Illinois Medical Association, and it is with a feeling of gratification I am permitted here to state that we are in touch with the State Board of Health—we are in touch with this movement in regard to the sanitary condition of the State. At our last meeting, at Nashville, we agreed to send a special delegate who also represents the city of Anna, as well as being a representative of the Southern Illinois Medical Association—thus showing our interest in these matters and our devotion to this effort. Now permit me to introduce my talented friend, Doctor Hale, of Anna.

Dr. James I. Hale (Anna).—Mr. President and gentlemen of this convention: I have been sent here as a representative of the Southern Illinois Medical Association, one of the best and most practical working medical associations of the State of Illinois. Perhaps it is not the largest in its number of members, but I assure you in the character of its members equal to any. We comprise something like 200 members, the most active, progressive and energetic members of the medical profession in the southern part of the State, and I have the honor to represent that body in this sanitary convention, and I assure you Mr. President, and gentlemen, that the Southern Illinois Medical Association is in *touch with every endeavor* and act of the State Board of Health of Illi-

nois. It is our purpose to sustain them in their work and it was the purpose of the association in delegating me to come here as their representative to assure this body that whatever action we might obtain in this organization in behalf of the State Board of Health of Illinois, that the Southern Illinois Medical Association would heartily coöperate with it.

It has been the observation of nearly every member of the association scattered throughout the various towns and hamlets of the southern part of the State that, while we have very efficient laws in regard to public health, it is very difficult to enforce these laws, and it is hoped that, perhaps, through an organization of the kind contemplated in this gathering that possibly we could bring ourselves in touch with the State Board, and as mediums between the State Board of Health and the public we might subserve the public good.

I also represent the village of Anna, in the southwestern part of this State. The city is not of much importance in itself, but it is of some importance in its relation to State institutions, as we have there one State institution for the care of the insane.

There are some facts in connection with that institution, although it is, perhaps, as well conducted as any similar institution in the State, yet there are known facts of proper sanitation wanting in that institution, and, perhaps, through the means of this organization and the State Board of Health we can get through the legislature proper measures to remedy it.

I do not feel that it is necessary for me to prolong any talk in regard to this matter, but simply to assure you, Mr. President, and gentlemen, that whatever action this body may take, whatever action the State Board of Health may take, they can always depend and count on the Southern Illinois Medical Association, through its representatives in this body and elsewhere scattered all over the southern end of the State, to be strictly in harmony to help enforce the laws and promote the public good.

Wesley A. Dunn (Chicago).—This is rather a free-for-all expression of opinions, and I wish to talk in regard to a subject that has not as yet been touched upon. We look at this subject from the legal standpoint. The Board of Health is an executive power; the legislature is the law-giving power. We may make laws until we grow gray; we may have officers to carry out the laws, but if the people will not receive it we have done but little good. The greatest value to come out of this convention and its association with the State Board of Health is as a medium between the State Board of Health and the people. We must educate the people before we can govern them, and when they are so well educated in regard to sanitation that they will receive the laws kindly, then it will be no trouble to enforce them. Our great trouble just now is to get the people to appreciate the value of sanitation, to appreciate the value of vaccination and to appreciate the value of isolation in case of the existence of contagious disease. If you will have published a common work that the people will understand on these subjects and distribute it free in every part of the State, and let the members of this association be a distributing association and see that it gets into the hands of every one, then we will be able to govern the people by these laws. I believe in this matter of enforcing sanitation, but if we can teach the people to receive sanitation we will not have to enforce it. It is a matter of education of the people and not forcing the people. They will receive it all right if they understand it. The people are as much interested as the physicians, but they do not realize the value of it as we do. If we look less at the enforcing of the law and more to the education of the people to receive it we will do more good in the end.

P. C. Mosier (Greenview).—I notice a little article here on the subject of vaccination. It is short, and if in order, would like to have the Secretary read it.

[Newspaper with article therein handed President for perusal.] Dr. Quine—This is an article which appears in a paper called *The Progressive Thinker*. The article is headed "Danger—Danger," etc. The general purport of this article is that it calls for contributions to a fund to restrict vaccination. Gentlemen, do you wish this article read?

Several—No. No.

P. J. Palmquist (Greenview).—Dr. Dunn has just spoken my ideas regarding the matters under discussion. I have been on the committee of the town in which I live for several years, and when I was appointed I found that most of the people thought I had no authority to tell them what to do in the way of sanitary matters, but I said that I was appointed to do so and I wanted them to do what I said they should and it has proven beneficial since. What I take from that gentleman is the fact in regard to the education of the people—to educate the people in the matter of sanitation, cleanliness and all that. I have worked on the matter about six years, and to-day we have as good a sanitary committee there as anywhere and the people take and work with the committee. Whenever the committee is asked to do anything in regard to the public health, they do it cheerfully. Of course we are sometimes threatened with law suits, and if we try to enforce the laws it might do us some injury, but I always tell the people it is no use for them to do that as I was going to have it done. That is the best way for the benefit of the health of the community, to educate the people. You cannot force them except in a kindly way and that is to educate them to receive the law. In forming a committee there should be no complications. There should be in every county a board of health. That would be the local board of health, as the gentleman over there said, but I do not think that would be the better way—it would be too complicated.

S. R. Leal (Urbana).—In the line of coming in contact with people I think one very effective way, which has been tried to some material extent, has been to give a compact, practical sanitary lecture to teachers' institutes. They listen to it with intelligence if it is given to them in good form, if it is given to them so that they can grasp it without too much labor, and they come in direct contact with men and people of all classes and can communicate with them.

You will reach the people through them quicker than in any other way I know of. The season of teachers' institutes is coming soon and from 50 to 300 or 400 people will assemble in each county in this state. Now, if arrangements should be made for a snug sanitary lecture to be delivered before these teachers I think you would reach the people very rapidly in that way, more so than in any way I know of. I will say that it has been tried in Champaign county and even the lady teachers have done wonders in the line of drawing attention to sanitary matters out in the country.

Another point, and to my mind a burning question, is how to dispose of sewage. Now this is an important public point. I was talking with Dr. Burroughs, regent of the university, the other day, and asked him why a university whose business is to try experiments in various lines, in the farming line, could not try experiments in sanitary matters and establish on a small scale some filter beds to nitrify the sewage of the university so that if we wanted to establish a filter bed anywhere else we could go there and find an experiment already made and build on that basis. I merely mention this that it could be before the people. He said he thought it a good thing. The professor in chemistry, Dr. Park, thought so too, and I think if this body would make a request of this kind that the president and faculty will make an effort to establish filter beds, and let people go and see how they are formed without wasting time and money in experimenting in their own places.

H. J. White (Bloomington).—I am now in the sanitary work and am just beginning my second year, and the people of Bloomington are willing to do their share, at least they showed their willingness by sending

one or two of us here to represent them at this meeting, and I find that all the contention there is in Bloomington is principally among the different physicians.

I think there has been one or two cases where we have quarantined a contagious disease, but the physicians seem to take things in their own hands in several instances and last year took down some quarantine signs without notifying the health department at all, and I think they need a little stirring up in Bloomington as well as the people.

Dr. C. W. Rook (Quincy).—Gentlemen: I represent the medical members of the Quincy board of health. I wish to make a remark in regard to the better organization of the boards of health in the State. As I look at it, whenever we have in a city or community an established board of health, the relations between that board of health and the State Board of Health should be more intimate, and in every community where there is no board of health the State Board of Health should establish a board of health there. In the rural communities, by virtue of their office, the supervisor and his clerk constitute the local board of health of their township. That fact should be understood by the people more generally than it is at the present time, and communication should be held directly from the central authority, or State Board of Health, with each of the local officers in the townships.

It seems to me that we have already legally-qualified officers to represent the community in a sanitary sense, and if this association wishes to have a central authority delegated to some one or more members, or a committee, from each county they can so appoint, but it seems to me that we have already established a legal machinery for maintaining the sanitary work of the State, if we will only make use of it.

W. I. Hazelwood (Quincy).—I wish to state that I am not a public speaker, but I do claim to be a great worker.

I have been connected with the health department of the city of Quincy for three years and six months. When I was appointed, the people rather thought a health officer should be taken from the police force, and when I took the position as health officer I found an old tub of a desk, with a lot of old papers lying around, and the record showed that there had been no meeting for about sixteen months. It was a total wreck. I went to work and gathered together, as best I could, what material there was. I found no record of the number of cases of contagious diseases existing in the city, what houses were quarantined and where they were located, but with the assistance of the city marshal finally found sixty cases of scarlet fever and thirty-two of diphtheria, and we undertook to enforce our ordinance in regard to our quarantine regulations. They undertook to pull down my cards. I said I would test it right there, whether I had authority to enforce the law or they had authority to take it out of my hands in their own way. I settled that question. They don't pull them down now, but they wait for Hazelwood to pull them down. They will remain for six months unless I have them taken down. We have worked, and we have the people of Quincy educated up to a good point in the matter of city sanitation. [Applause.]

I worked alone for six months after being appointed. I hammered along for two years without a doctor. I talked the business up at every available opportunity, and a year ago they wanted to remove me because I talked too much. I enforced the sanitary laws, and they felt it was too hard. The prominent citizens of Quincy finally raised \$3,000 to clean the city of Quincy. Then the city officers came to time, and after a long fight the board of health decided to act with the citizens' sanitary committee, composed of prominent citizens of Quincy, and adopted a plan which I suggested, to district the city and make a house-to-house inspection, and on the 5th of April last, a year ago, I started twelve sanitary inspectors to work. I had to pick up such men as political influence would put in position. I was not consulted in that matter, but if a man did not fill the bill, I asked him to step down and out. We made a com-

plete house-to-house inspection. We got into a big row with the citizens of Quincy, some of them almost went crazy; but as Dr. Dunn, of Chicago, said, it is a matter of education of the people. We have educated them up so that they have reached a very good point, and we eased up our forces and now have only one man to assist the city marshal in the work. In the course of about a year, we got Dr. Rook added to our board, and I feel better now that we have a medical man on the board. Before, if I wanted advice in that direction, I had to beg it around among the physicians, and I now feel that I have got good advice at my right hand.

In regard to what the gentleman said awhile ago, you know the medical men want to run things their own way, but if he will send them down to me I will break them of pulling down cards. [Applause.]

The Chair.—The question is on a motion to appoint a committee to draft a plan of organization. Before putting it, let me ask this of you who have prepared papers, to present your papers to the secretary of the meeting. The transactions here are being duly reported. A stenographic report is made of every expression with the object of including the records of this meeting and all subsequent meetings in the transactions of the State Board of Health. Let me request you also that when you come to adjourn for dinner or for luncheon to retire to the office of the Board of Health, on the first floor of this building and there register, giving name and address, your official position and the organization or society that you represent at this meeting. Are there any further remarks on the subject?

Dr. F. H. Godfrey (Bloomington).—I represent the McLean County Medical Society as a delegate to this convention. We are heartily in favor of this movement. I also said awhile ago in my remarks something about one supervisor refusing to pay my expenses to this meeting. He is the only member on the board who objected. Once in a while you find a man whom you cannot educate. I say the only way you can educate the people is to enforce the law, and if you have done that and shown them the good effect of enforcing the law, you might educate them in that way. You may talk a year but you are wasting breath as you have got to enforce the law to educate them. I am a radical on that point. The McLean County Medical Association and the doctors of Bloomington are in favor of the most radical measures. I know some doctors have concealed cases of diphtheria in the city of Bloomington, and talked about it afterwards and said how it was done. If we only knew the truth, I have no doubt the same thing has occurred in Rock Island, Freeport and all other cities of any size, and I believe a free confession of our sins here is a good thing. I feel it has happened in other cities as I know it has in Bloomington, and I believe the only way to educate them is to enforce the law as it stands in regard to births and deaths, etc. If it is a good law it ought to be observed, and if it is not a good law let us take steps to have it changed.

Dr. E. H. Best (Freeport).—I am glad to say that the citizens of Freeport, the council and mayor are all in favor of this movement and they pay my expenses in coming here. I was the health officer last fall and we had many cases of scarlet fever, and, as the doctor who has just spoken said, some of them tried to keep it quiet but they soon gave that up. We claim credit for a few things. We had 30 or 40 cases in September and inside of two months had not a case. The greatest trouble I have is being handicapped in not knowing just exactly the limit of what I should do. That is a fact that is of great moment; I am here to find out what I can. We are all in sympathy at Freeport with this movement.

Dr. Hale (Anna).—We have been indulging in a great deal of random discussion not altogether pertaining to the question, and now in order to get back in line I wish to make a few remarks in favor of the motion, which I do favor conditionally. The motion, I think, as stated is a good one, and expresses what should be done, but the object of this association is to assist or devise ways and means to enforce the present State laws, find out the strong and weak points, and sustaining and upholding

the State Board of Health, and placing ourselves and the communities we represent in line to assist and maintain the authority of the State Board of Health. I think we had better go back to the motion and dispose of it in some way. I do not understand that the motion intended that the committee be appointed and adopt immediately a set of rules, but to formulate, if possible, and present to this organization, or to this body, before we go into a permanent organization a possible form of organization, and further on, then, we can take further measures in regard to appointing other committees. I think it is about time that we dispose of the question without so much other discussion. We can then take up other topics in relation to the purpose for which we are here and dispose of them in order.

T. W. Clark (Marshall).—In voting on the motion, I take it that the committee should be instructed to formulate something—a code of rules that would be easy to have enforced. I take it that all are in need of education on these matters, not only laymen, but doctors also. I represent the board of health of my little place. It is composed of two doctors and a layman. I believe we have instructed the people in regard to sanitary matters, and have educated them in the way of enforcing the rules as laid down by the State Board of Health. We should have somebody back of us, and I think the committee in getting up something for our adoption should aim to get something to present to the legislature, so that if the State Board of Health have anything to send out to the local boards they can have something to fall back on.

Mr. Dunn.—Some one said our object is to devise means to enforce the laws of the State. We should, I think, bear in mind that to enforce a law is not exclusively what we are here for. We are here to effect means to put into effect the laws of the State, which includes not only the ingrafting of law itself, but also to make a receptive soil to receive it. We must not forget that we must get people to appreciate the value of a law before we can enforce it. I am in favor of leading people and not driving them. Let us put that into effect.

Mr. Hazelwood.—Are not the present State laws of Illinois founded on facts, on an investigation being made and founded on the necessities of the case? Is there any further necessity for the adoption of a code of rules? Has not the present law in regard to the State Board of Health sufficiently covered the whole ground? We must deal with people—we cannot first educate them. That is my experience in this matter. When we had a milk case, affecting a whole community, upon applying to the man who was using water for his cows, filled with bacteria, and asked him to fill up the well, he said he had to preserve the well to water his cattle with. That shows you how difficult it is for some men to understand this subject of sanitation. We could not teach that man anything—we had to act. If the laws of this State are not sufficient, it is a very sad thing for this convention to contemplate, and to my mind, the laws are sufficient if they are only enforced.

The Chairman.—The question that is before the meeting has no relation to the adoption of a plan to enforce existing laws. The motion relates to the plan of organization. There is a motion to appoint a committee to draft a plan of organization. I understand this motion to refer to the adoption of rules and regulations, etc., for the guidance of our own deliberations, the recording of our own acts, the conversion of heterogeneous matters and measures into a compact and homogeneous body. As to the matter of administering existing laws, whether by rude compulsion or the gentler method of persuasion, is a question that does not concern us at the present time. It is obvious to the understanding of every person present that where persuasion will accomplish the desired purpose it is very much preferable to the exercise of force, but during the prevalence of an epidemic one would hardly be warranted in spending a year or two in trying to persuade or convince a stupid person to support a vaccination scheme, but one would do a great deal better to grasp him by the nape of the neck and vaccinate him and then employ speed in letting him go.

Are you ready to dispose of the question of the appointment of a committee to draft a code of organization?

Dr. Humphrey.—I would like to move an amendment to add to that committee the President and Secretary of the State Board of Health. I move that be added to this question; that they be constituted members of that committee when the committee is formed.

Mr. Mosier.—I second that motion.

Mr. Eyster.—In my motion for the appointment of this committee I did not specify the manner of its appointment. If the convention will allow me I will modify my motion that the committee be composed of three from the members present and the President and Secretary of the State Board of Health, and that the three members from the convention be appointed by the President.

Dr. Humphrey.—I withdraw my amendment.

Dr. Bailey.—I wish to add that the committee report to-morrow morning when we go into convention.

Dr. Humphrey.—We ought to have an earlier report; why not have it by three o'clock this afternoon.

The Chairman.—The majority hope to get away this afternoon or evening. I think the committee had better arrange to report this afternoon. The motion is amended to the effect that the committee be appointed, and that it consist of the President and Secretary of the State Board of Health and three other gentlemen representing sanitary organizations in various parts of the State. I now put the motion.

The motion was carried.

The Chairman.—I appoint on that committee Dr. Eyster, of Rock Island; Dr. Hale, of Anna, and Mr. Hoskins, of LaGrange. These gentlemen will please arrange to have a report of their acts and proceedings to place before this convention by three o'clock this afternoon.

It is the purpose of the Board of Health to publish a new edition of the public health laws of the State and various sanitary recommendations, and to distribute copies of the publication as freely as they are demanded throughout the State. Those of you desiring a copy of the publication will please leave a written request in the office of the State Board of Health, on the first floor, and if you desire copies sent to friends or to other persons interested in sanitary works, just leave the request also. What is the further pleasure of the meeting?

Mr. Mosier.—I move we adjourn until 1:30 o'clock this afternoon.

Mr. Hoskins.—I second that motion.

The Chairman.—Before putting that motion, let me inform you that it is proposed to present at the afternoon meeting a model form of ordinance, and to consider the details of that form.

The motion to adjourn put, and carried.

1:30 P. M., May 18, 1893.

The convention met pursuant to adjournment.

The Chairman.—The meeting will please come to order. The committee appointed to draft a plan of organization is ready to report. If the convention is ready to receive such report the secretary will read it.

Whereupon the secretary read the report, as follows:

This organization shall be known as "The Illinois State Board of Health Auxiliary Sanitary Association."

It shall consist of active and honorary or advisory members. The active membership shall consist of one or more representatives from each city, township or village board of health, or sanitary committee, where such exists. The honorary or advisory members shall consist of one or more delegates from each medical association or society—State, district, county or city—having a membership of not less than twenty-five.

The officers of this association shall consist of a president, a vice-president from each congressional district in the State, a secretary and a treasurer, who shall be elected annually and serve one year.

The objects of this organization shall be the protection and preservation of the public health by assisting the State Board of Health in disseminating sanitary information and carrying out the provisions of the State laws relating to the public health, supporting such provisions as may be found efficient, and endeavoring to secure such amendments or new provisions as may from time to time be deemed necessary.

The meetings of this association shall be held annually in the city of Springfield, during the month of May, and at such other times as may be deemed expedient, subject to the call of the State Board of Health.

COMMITTEE.

The Chair.—The report of the committee is before the convention for acceptance. It doubtless has occurred to the mind of nearly every gentleman here present, that it is impossible to draft a detailed plan of organization which shall apply equally well to every district and township in the State. Within the short period of time allotted to this committee, it cannot be done. We of the State Board of Health have learned the wisdom of making haste slowly and being sure of every step taken. It is the worst kind of policy to take action one day, to be under the compulsion of receding from that action some other day. The plan of organization should be matured with great deliberation, and not only hours taken for the elaboration of the plan, but even weeks for elaboration of every detail. Will you have this report read again, and will you pass on the articles *seriatim*, or adopt the plan as a whole?

The report having been again read, discussed and adopted, section by section, was finally adopted as a whole.

The Chair, in accordance with a motion to that effect, appointed a committee to nominate officers of the newly created Auxiliary Sanitary Association, and named Drs. Sanders, Best, Rook, Knott and Schussler.

The Chair.—While the committee on nominations is engaged in its deliberations, it is thought expedient to introduce to your attention the consideration of the model ordinance which has been adopted by the Illinois State Board of Health, and which is in operation in a considerable number of localities in this State. If you see fit to adopt it as the sense of this meeting, then it will serve for guidance in our administration of sanitary affairs. The secretary will please read it.

The secretary read as follows:

AN ORDINANCE

FOR THE PROTECTION OF THE PUBLIC HEALTH.

Be it ordained by the [city council or president and board of trustees, as the case may be] of the [city or village] of.....county of..... State of Illinois:

* ARTICLE I.

That there shall be appointed by the said [city council or president and board of trustees] a board of health in and for said [city or village]. The compensation of members, officers and employes of the board shall be fixed by the [city council or board of trustees] from time to time.

*See POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES: Items seventy-sixth, seventy-eighth, seventy-ninth, eighty-first, eighty-third. Also, TERRITORIAL JURISDICTION: JURISDICTION OVER WATERS; WATER-WORKS; CEMETERIES.

All references, where not otherwise specified, are to subjects in the following pages.

*ARTICLE II.—HEALTH OFFICER AND SANITARY POLICEMAN.

SECTION 1. That there shall be appointed by said board of health a medical health officer, who shall be a legally-qualified physician, possessed of the requisite knowledge of sanitary science and of preventive medicine, and who shall be *ex-officio* a member of said board of health, and whose duty it shall be to assist and advise the board in all matters relating to public health, and to superintend, under the direction of the board, the enforcement and observance of the provisions of this ordinance.

§ 2. That there shall be appointed by the said board of health, a sanitary policeman, or policemen, who shall assist the medical health officer, and perform the duties and service hereinafter indicated, or which may be prescribed by the said board from time to time, for the preservation or improvement of the public health.

† ARTICLE III.—BUILDINGS AND PREMISES.

SECTION 1. That whenever it shall come to the knowledge of the board of health, or of its officers or employés, that the condition of any building or premises is injurious to the health or dangerous to the lives of the occupants or of the public, it shall be the duty of the medical health officer or sanitary policeman to make a thorough examination of the building or premises, and to direct and instruct as to the remedy of such condition, and if this be not remedied within a reasonable time, he shall report the facts to the board of health, who shall thereupon cause such building or premises to be put in good sanitary order, at the cost of the individual responsible for, or causing, or permitting, such unhealthy condition.

‡ ARTICLE IV.—STREETS AND GROUNDS.

SECTION 1. That the deposit of offal, garbage, night-soil, or refuse of any description, upon any street, alley, vacant lot, public ground or premises, within the limits of the [city, town or village] of..... except by direction or written permission of the board of health, is declared an offense, and punishable as such.

§ 2. That it shall be the duty of the sanitary policeman to exercise a vigilant supervision over such places, and to notify any person found making such deposit, or responsible for the same, to remove the offending matter at once, and to properly cleanse the place. And if such removal and cleansing be not effected within twenty-four (24) hours after notification, the offending person, or persons, shall be punished by fine not exceeding one hundred (100) dollars, and for a second offense by fine

* While other members of a board of health may be non-medical men—citizens, selected for their general intelligence, public spirit, and direct interest in the welfare and prosperity of the locality, and to whom, therefore, the general direction of measures for the protection of the public health may be safely and properly entrusted—the medical health officer, the member *ex-officio*, should be a thoroughly educated physician, practically versed in sanitary matters, and skilled in the diagnosis and management of contagious and infectious diseases. Upon this technical knowledge, his wisdom and discretion, and his executive ability, largely depend the efficiency of the board and its success or failure in the prevention of disease and the promotion of health.

He should be one who can command the fullest confidence and respect of the community, and upon whose counsel and advice his fellow-members may implicitly rely. Health boards are necessarily endowed with large discretionary powers—the preservation of the public health being rightly deemed a matter of supreme importance, and courts sustain them, to the fullest extent, in the exercise of these powers whenever it can be shown that their action was guided by a sound discretion, and was deemed necessary for the public welfare. It is, therefore, incumbent upon such boards that they be well and intelligently advised, and for such advice it will be true economy to make adequate compensation. These considerations should be taken into account in appointing and in fixing the rate of pay of the medical health officer.

† See POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES: Items sixty-first and eighty-first to eighty-fourth, inclusive. Also, NUISANCES: Items six, seven and eight; Secs. 221 and 222. Also, PUBLIC BUILDINGS.

‡ See POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES: Items seventh to twelfth, inclusive; thirteenth to sixteenth, inclusive. Also, TERRITORIAL JURISDICTION. Also, NUISANCES: Items one and five. Sec. 221.

not exceeding two hundred (200) dollars, or by imprisonment not exceeding six (6) months, or by both fine and imprisonment, and the necessary removal and cleansing shall be performed at the expense of such person, or persons.

* ARTICLE V.—NUISANCES.

SECTION 1. That it is a public nuisance—

To cause or suffer the carcass of any animal, or any offal, filth or noisome substance to be collected, deposited or to remain in any place, to the prejudice of others;

To throw or deposit any offal or other offensive matter, or the carcass of any animal, in any water course, lake, pond, spring, well or common sewer, street or public highway;

To corrupt or render unwholesome or impure the water of any spring, river, stream, pond or lake, to the injury or prejudice of others.

To erect, continue or use any building or other place for the exercise of any trade, employment or manufacture, which by occasioning noxious exhalations, offensive smells, or otherwise, is offensive or dangerous to the health of individuals, or of the public.

§ 2. That it is hereby made the duty of the board of health of....., to cause the summary abatement of any such nuisance at the proper expense and cost of the party or parties responsible for or permitting the nuisance.

† ARTICLE VI.—SEWERS, PRIVIES AND CESS-POOLS.

SECTION 1. That no privy-vault or cess-pool for sewage shall be permitted in any part of the [city, town or village] of where a sewer is provided in front of the property lines, and no connection from any cess-pool or privy-vault shall be made with any sewer or drain-pipe, nor shall any opening be made in the sewer-pipe of a building for the purpose of affording surface drainage for the cellar, without proper provision against the access of sewer-air into the building.

§ 2. That no privy-vault, cess-pool or reservoir into which a privy, water-closet, stable or sink is drained, shall be established or permitted within fifty feet of any well, spring or other source of water used for drinking or culinary purposes, without written permission from the Board of Health based upon the advice of the medical health officer. And every privy-vault and cess-pool shall be cleaned, and the contents thereof removed, at least once before the first of May in each year.

§ 3. That all sewers or drains that pass within fifty feet of any source of water used for drinking purposes shall be water tight.

‡ ARTICLE VII.—FOOD.

SECTION 1. That no article of food or drink intended for human use or consumption, nor any article of such food or drink, or which may be used in the composition or preparation of such food or drink, not being then healthy, fresh, sound, wholesome, fit and safe for such use, nor any animal or fish that died by disease or accident, and no carcass of any calf, pig, or lamb, which at the time of its death, was less than four weeks old, and no meat therefrom, shall be brought within the limits of the [city, town or village] of and offered, or held for sale, as food anywhere in said [city, town or village].

* See POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES: Items fortieth and seventy-fifth. Also, NUISANCES.

† See POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES: Items twenty-seventh, twenty-ninth and eighty-fourth. Also NUISANCES: Sec. 222, item two. Also, SEWERAGE.

‡ See POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES: Items fiftieth, fifty-second, fifty-third. Also FOOD SUPPLY; WATER SUPPLY.

* ARTICLE VIII.—SCHOOLS.

SECTION 1. That the board of health of shall have jurisdiction in all matters pertaining to the preservation of the health of those in attendance upon the public and private schools in the [city town or village] of; to which end it is hereby made the duty of said board of health—

To require that all persons attending said schools, either as teachers or pupils, shall have presented satisfactory evidence of proper and successful vaccination;

To exclude from said schools any person suffering with a contagious or infectious disease, or liable to convey such disease to those in attendance;

To make regular inspections of all school buildings and premises as to their hygienic condition, and to report the result of such inspections to the [city council or board of trustees], and to those having charge and control of such schools, with instructions as to the remedy of conditions (if any such be found), whereby the health of those in attendance may be impaired or life endangered.

§ 2. That in the event of failure or refusal of those having such charge and control to carry out the instructions so given, then the board of health shall cause such faulty conditions to be remedied at the proper cost and expense of those having charge and control of the school or schools.

† ARTICLE IX.—CONTAGIOUS DISEASES.

SECTION 1. That the necessary rules and regulations concerning cholera, small-pox, yellow fever, diphtheria, scarlet fever, typhoid fever and other contagious or infectious diseases, shall be enforced by the board of health of under the supervision of the medical health officer; and all public officers of [the city, town or village] of in their proper capacities, are hereby commanded and enjoined to assist the board of health in the enforcement of said rules and regulations.

§ 2. That no person or thing liable to propagate any of the contagious diseases enumerated in section 1 of this article shall be brought within the limits of without the special permit and direction of the board of health, and whenever it shall come to the knowledge of any person that such person or thing has been brought within such limits, he shall immediately give notice thereof to a member of the said board, together with the location thereof. No person shall, within the built-up portion of without a permit from the board of health, carry or remove from one building to another [or from any vessel to the shore†] any person afflicted with such contagious disease. Nor shall any person afflicted with such contagious disease, or liable to communicate and spread the contagion thereof, be shipped or removed from to any other place, except under the charge and direction of the board of health, and with proper precautions against the spread of the contagion.

‡ ARTICLE X.—NOTIFICATION OF CONTAGIOUS DISEASES.

SECTION 1. That every householder within the limits of the [city, town or village] of in whose dwelling there shall occur a case of cholera,

* See ORDER OF STATE BOARD OF HEALTH concerning Vaccination of School Children. Also, POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES; Items seventy-seventh and seventy-eight. Also, Rules and Regulations of State Board of Health concerning Contagious and Infectious Diseases.

† See ORDER OF STATE BOARD OF HEALTH Concerning Vaccination of School Children. Also POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES. Items seventy-seventh and seventy-eighth. Also Rules and Regulations of State Board of Health Concerning Contagious and Infectious Diseases.

‡ Applicable only to localities having water communication.

§ See POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES: Item seventy-eighth. Also Notification of Contagious Diseases, Order of the State Board of Health.

yellow fever, typhoid fever, scarlet fever, diphtheria, or small-pox, shall immediately notify a member of the board of health of the same; and until instructions are received from the said board, no clothing or other property that may have been exposed to the infection or contagion shall be removed from the house; nor shall any occupant of such infected dwelling change his residence elsewhere, without the consent of the said board, during the prevalence of any public danger from said disease. And all physicians or other attendants upon any person sick with small-pox, cholera, typhoid or scarlet fever, diphtheria, or other disease dangerous to the public health, shall forthwith report the same to some member of the said board of health, and said board shall at once notify the State Board of Health of the existence of such disease, and shall subsequently cause a full report to be made by the medical health officer to the secretary of the State Board of Health, upon the blank forms furnished for that purpose.

*ARTICLE XI.—BURIALS.

SECTION 1. That no burial or interment shall be lawful in the..... of....., nor shall any dead body be removed from said....., until a permit for such burial, interment or removal shall have first been obtained from the †.....of said.....

§ 2. That such permit shall be issued by the †..... upon his receipt of the usual certificate of death, signed by (1) the attending physician in the case; or, if none, by (2) one of the parents of the deceased; or, if none, by (3) the nearest of kin not a minor; or, if none, by (4) the resident householder where the death occurred; or, if none, by (5) any reputable citizen cognizant of the facts and circumstances of the death; or, if the death be the subject of an inquest, by (6) the coroner or other officer holding said inquest.

§ 3. That the †.....shall enter into a suitable book to be kept for that purpose, a record of all burial permits issued, specifying the date of issue and to whom issued, together with all the items of information contained in the certificates upon which the issue of such permits is based; and he shall forward to the county clerk of..... county, at the end of each month, all of said certificates so received during the month.

§ 5. That the transportation or removal of bodies of persons who have died of small-pox, cholera, yellow fever, diphtheria, or other disease dangerous to the public health, is forbidden within the limits of..... except within conformity of the rules and regulations of the State Board of Health concerning the same. And no burial or exhumation of any body shall be permitted in the night time unless for good reasons, to be entered in full upon the record book above provided for.

ARTICLE XII.—SANITARY INSPECTIONS.

SECTION 1. That the board of health shall cause a thorough sanitary inspection of the entire area within its jurisdiction to be made under the supervision of the medical health officer, at least once each year, and oftener if necessary. Such inspection shall include all matters affecting the public health, and a report of the sanitary conditions disclosed by the inspection shall be made to the [city council or board of trustees] of....., and to the State Board of Health, upon the blanks furnished for that purpose by the said State Board.

‡ARTICLE XIII.—DISEASED ANIMALS.

SECTION 1. That no domestic animal afflicted with a contagious or infectious disease shall be allowed to run at large, or be exposed in any

*See Circular Letter of the State Board of Health concerning Burial Permits. Also form of Burial Permit, also Rules for the Transportation of Corpses by Railroads and Steamboats.

†Designated official.

‡See DISEASES OF ANIMALS.

public place, whereby the health of man or beast may be affected, within the limits of.....; nor shall such diseased animal be shipped, or removed, from the premises of its owner, except under the supervision of the Board of Health of.....or of the State Veterinarian. And it is hereby made the duty of the board of health to secure such disposition of any diseased animal, and such treatment of infected premises, as to prevent the communication and spread of the contagion or infection, except in cases where the State Veterinarian is empowered to act, and in all such cases the board of health shall coöperate with the State Veterinarian so far as such coöperation may be necessary to the protection of the health of the citizens of.....

* ARTICLE XIV.—PENALTIES.

SECTION 1. That the violation of any of the foregoing provisions or any interference with the board of health in its execution and enforcement of this ordinance, shall be punishable by fine, not exceeding two hundred (200) dollars for each offense, or by imprisonment not exceeding six (6) months for each offense, or by both such fine and imprisonment at the discretion of the court.

† ARTICLE XV.—ORDINANCE IN FORCE.

SECTION 1. That this ordinance shall be in force from and after its passage and publication.

COMMENTARY UPON THE FOREGOING ORDINANCE.

DR. JOHN H. RAUCH, *Secretary State Board of Health*:

DEAR SIR:—in accordance with your request, I have made a careful and detailed examination of the health ordinance prepared by you for the use of cities, towns and villages in this State, and published in "Public Health Laws of Illinois and Sanitary Memoranda," issued by the State Board of Health, and I note the following views concerning the legality of the same:

Articles I, II, III, IV, V, VI and VII, are each specifically authorized by the different paragraphs of Sec. 62, Chap. 24, Revised Statutes. Some question might be made as to the power to compel the persons causing the unhealthy condition of buildings and premises to pay the cost of putting them again in a sanitary condition (Art. III), but I find such power sustained by the courts and our best law writers.

In the case of *Harrison v. The City of Baltimore*, 1 Gill, 264, the Supreme Court of Maryland held the consignee of a vessel coming into port with small-pox on board responsible for the cost not only of fumigating and purifying the vessel, but also for the cost of cleansing the passengers and their baggage, although it could not be said that the consignee was in any way responsible for the small-pox being on board, but some one connected with the vessel was deemed responsible, and in this way only could he be reached.

Judge Dillon, in his work on Municipal Corporations, Sec. 93, lays down the rule that every citizen holds his property subject to the proper

* See POWERS OF CITY COUNCILS AND VILLAGE TRUSTEES: City councils and village trustees have the power "to pass all ordinances, rules and make all regulations, proper or necessary to carry into effect the powers granted to cities and villages, with such fines or penalties as the city council or board of trustees shall deem proper: *Provided*, no fine or penalty shall exceed \$200, and no imprisonment shall exceed six months, for one offense."—Revised Statutes, Chapter 24, Section 62, Item ninety-six.

† All ordinances of cities and villages imposing any fine, penalty, imprisonment or forfeiture shall, within one month after they are passed, be published at least once in a newspaper published in the city or village; or if no such newspaper is published therein, by posting copies of the same in three public places in the city or village, and no such ordinance shall take effect until after it is so published.—Revised Statutes, Chapter 24, Section 61.

exercise of the police power, which power Judge Scott, in the case of *The Town of Lake View v. Rose Hill Cemetery*, defined to be "that inherent and plenary power in the State which enables it to prohibit all things hurtful to the comfort, safety and welfare of society." It is sometimes called the law of "overruling necessity." Judge Dillon further says of this power: "Of this nature is the authority to suppress nuisances, preserve health, prevent fires, to regulate the use and storing of dangerous articles, to establish and control markets and the like." And again in Sec. 303 he says: "Our municipal corporations are usually invested with power to preserve the health and safety of the inhabitants. This is indeed one of the chief purposes of local governments."

It would seem, then, that there can be no doubt of the power of the city council, by ordinance, to compel the person responsible for, or permitting, an unhealthy condition of any building or premises to pay the cost of cleansing it. It was by his default the expense became necessary, and it is but just that he should repay such expense.

Concerning Art. VIII, on the subject of schools, I have no doubt that the power to exclude from schools any and all persons—teachers as well as children—who have been exposed to infectious or contagious diseases, or who, in the judgment of competent authority, are liable to contract or transmit such disease, is properly exercised by the city council or board of trustees through its agent, the local board of health. The highest authority in this State on this subject, to-wit, the State Board of Health, has decided that the vaccinal protection of school children and teachers is necessary for the prevention of the epidemic spread of small-pox, as well as for the safety of schools from the danger of being interrupted and closed by this disease. There can be no question that the courts would sustain the validity of any municipal enactment supported by this authority.

Article VIII, therefore, I find to be sustained by the authorities and by the statutes.

Article IX, concerning contagious diseases, is fully authorized under paragraphs seventy-seven and seventy-eight of Sec. 62, id. In the case heretofore cited of *Harrison v. Baltimore*, the Supreme Court of Maryland, in speaking of the power conferred in the charter of the city "to enact all ordinances necessary to preserve the health of the city, prevent and remove nuisances, and to prevent the introduction of contagious diseases," said: "to accomplish within the specified territorial limits the objects enumerated, the corporate authorities are clothed with all the legislative powers which the General Assembly could have exercised. Of the degree of necessity for such municipal legislation, the mayor and city council of Baltimore were the exclusive judges. To their sound discretion is committed the selection of the means and manner (contributory to the end) of exercising the powers which they might deem requisite to the accomplishment of the objects of which they were made the guardians."

Our general laws concerning towns and cities are now, under the constitution of 1870, the charters of all towns and cities in the State not still acting under special charters, and the powers given by such general law are powers that each incorporated town and city in the State may exercise.

Article X, concerning the notification of the existence of contagious diseases, is one that must commend itself to every one. The failure of any person to give proper notification of the existence of such diseases may be the direct cause of many deaths and the remote cause of wholesale loss of life, and under the power given to the city council to suppress disease, this is one of the most important acts in the exercise of that power, and a failure to comply strictly with this portion of the ordinance should be visited with the heaviest penalties.

The clause requiring notice to be given to the State Board of Health of the existence of such disease, so that measures may be taken to prevent the spread of contagion to other portions of the State, is fully as important.

Article XI, concerning burials, is sustained by incontrovertible authority. Dillon, in his work on Municipal Corporations, Sec. 306, says: "The public health, comfort and convenience are concerned in the proper regulation of burials, and the evils resulting from its neglect are especially to be apprehended in the crowded populations of cities." The courts also have universally sustained all reasonable regulations made by cities and towns concerning burials. Our Supreme Court, in the case of *Lake View v. Rose Hill*, above cited, say: "There is nothing in nature but may be the instrument of mischief, and the burial of the dead may be so done as to be most injurious in its consequences to the people in the vicinage."

The general argument for such an enactment is well set forth in the circular letter of the State Board, to which reference is made in the foot-note to this article, and which is summarized in the following:

First.—It will be of value in securing fuller, more accurate, and more readily available knowledge of the causes of death—a knowledge which is absolutely necessary to the profitable application of efforts for the preservation of health, the limitation of diseases and the prolongation of human life.

Second.—It will be of value in the protection of life against criminal violence, by facilitating the detection of such violence through preventing the burial of victims of homicide, abortion, poisoning, etc., without proper investigation.

Third.—It will be of value in the protection of property interests, by making the facts pertaining to a death and burial matters of record, which may be useful in probating wills, settling estates, determining heirships, perfecting letters, adjusting life insurance, and kindred matters.

Article XII on sanitary inspection is also sustained by authority, and is so proper and reasonable in itself that no question of its validity can be maintained.

Article XIII, on diseased animals, is in harmony with the State laws upon that subject, and the power is given to the town or city under paragraphs seven and eight of Sec. 62, before mentioned.

Finally, I have no doubt of the validity and sufficiency of the ordinance under discussion. Its provisions are in accord with the statutes, or are based upon well-settled principles of common law. It is comprehensive, without being cumbersome in detail. Its machinery is simple, and wisely secures a defined responsibility in a single official—the medical health officer, whose qualifications, duly prescribed, should be sufficient guaranty for the timely, intelligent and judicious enforcement of the precautions and observances necessary for the protection of life and health of the citizen.

As to its sufficiency, it is to be observed that there is no more liberal law or charter in existence than is given to the councils of cities and the trustees of towns and villages by Sec. 62, Chap. 34, of the revised statutes, for the almost absolute and unrestrained control of the agencies affecting the public health. And it is upon this authority that the ordinance in question is based. Concerning the force and effect of such an ordinance, the Supreme Court of Illinois, in the case of *Mason et al. v. The City of Shawneetown*, (77 Ill. 533) say: "When an incorporated town or city has been invested with power to pass an ordinance, by the legislature, for the government or the welfare of the municipality, an ordinance enacted by the legislative branch of the corporation has the same force and effect of a law passed by the legislature, and cannot be regarded otherwise than as a law of and within the corporation. An ordinance is the law of the inhabitants of the municipality."

With this endorsement of their power, with the knowledge that every enlightened person has of the protection afforded by the use of reasonable care, and with the positive assurance that life will be the sacrifice if care is not exercised, how can any city or town councilman justify

himself, here or hereafter, if for the want of attention to his duties in the passage of laws protecting the health of the citizen even a single life should be lost.

Respectfully submitted,

JAMES McCARTNEY.

After considerable discussion, the ordinance was approved.

The Chair.—It occurs to the Chair, in this connection, that it might be considered expedient by this body to appoint a committee on legislation, to consider existing sanitary laws and to prepare any plan of suggestions for the improvement of these laws and to present such plan at a subsequent meeting. If it seems expedient to you to have a committee on legislation that they may develop the question of sanitary law where it needs developing in such cases as have been brought to the attention of the meeting, motions are then in order.

On motion of Mr. Brosam, seconded by Mr. Bailey, the appointment of this committee was duly ordered, and the Chair appointed as its members, Dr. J. A. Vincent, of Springfield; Mr. George Brosam, of Sullivan; Dr. W. C. Bailey, of Pekin; Dr. N. F. Quales, of Chicago, and J. D. Knott, of Monticello.

The Secretary.—While awaiting the report of the committee on nominations, I wish you would notice that this model form of ordinance calls for a sanitary inspection and survey of every town and city in the State. There have been sent out for several years from the State Board of Health blanks on which to make a report and which contemplate an inspection of each house and has a diagram on the back for the location of nuisances and setting forth the location of the house, the privy vault, water closet, etc., together with the sickness that now exists on the premises and the sickness that has or may have existed during the previous twelve months. It is the intention of the State Board of Health to endeavor to have this kind of an inspection, which will be systematic and which will be uniform all over the State and will place the State Board of Health in possession of the exact facts in regard to the sanitary condition of every city in the State. From this we can ascertain not only the sanitary condition of the State, but also the information as to the prevalence of certain diseases, and this taken with the sanitary condition will enable us to prescribe the proper remedy. I hope that every health officer present will provide himself when he goes home, and will make this sort of an inspection. It appears to me that this is the most thorough inspection that can be made. I have a number of these blanks in the office and will be glad to furnish them if you will look them over and study them.

The Chairman.—I see the committee on nominations is ready to report.

Dr. D. R. Sanders.—Mr. Chairman: Your committee on nominations beg leave to report as follows: For President, Dr. W. E. Quine; for Secretary, Dr. J. W. Scott; for Treasurer, Dr. G. N. Kreider, and that the Vice-Presidents be selected in open session as the congressional districts are called. Should any district be not represented in this convention, the President is authorized to appoint the Vice-President for that district.

Respectfully submitted,

D. R. SANDERS, M. D.

President.

LXXVIII

On motion of Dr. Godfrey, seconded by Dr. Humphrey, the report of the committee was adopted, and the following Vice-Presidents were selected in the manner prescribed:

VICE-PRESIDENTS.

- | | | | |
|------|--------------------------------------|----------------------------------|------------------------------|
| 1st | } | Dr. Arthur R. Reynolds, Chicago. | |
| 2nd | | | |
| 3rd | | | |
| 4th | | | |
| 5th | | | |
| 6th | } | | |
| 7th | | | Dr. E. P. Clapp, Evanston. |
| 8th | | | Theodore Zingrebe, Goodfarm. |
| 9th | | | E. H. Best, M. D., Freeport. |
| 10th | | | M. Bevier, Bradford. |
| 11th | Mr. Matthiessen, LaSalle. | | |
| 12th | Theo. Finet, Braidwood. | | |
| 13th | J. L. Reat, Tuscola. | | |
| 14th | Dr. R. A. DuMars, Peoria. | | |
| 15th | Dr. A. G. Patten, Monmouth. | | |
| 16th | Dr. Wm. K. McLaughlin, Jacksonville. | | |
| 17th | Mr. Palmquist, Menard county. | | |
| 18th | William H. Grayson. | | |
| 19th | T. W. Clark, Marshall. | | |
| 20th | To be filled by the President. | | |
| 21st | Dr. C. H. Starkel, Belleville. | | |
| 22nd | Dr. D. R. Sanders, Jonesboro. | | |

The President of the Association was authorized to appoint the Vice-President for the 20th congressional district.

Dr. Kreider.—When is the committee on laws expected to report—at some subsequent meeting, to-day, or next year?

The Chairman.—Let the committee report to the State Board of Health when it is ready to report.

On motion of Dr. Kreider it was

Resolved, That it is the sense of this meeting that in cases where proper authorities refuse to appoint health officers, that the residents, one or more, of such community, communicate the fact to the Secretary of the State Board of Health.

Dr. Bailey.—I would like to ask if the duties of these various officers we have elected have been stated?

The Chair.—The committee appointed to draft a plan for organization reported a brief plan, which has been adopted, and it was adopted with the understanding, I suppose, that the committee is to continue under its instructions and to amplify this plan, or to develop it, and when such development is made it will be presented to all persons interested.

Mr. Reat.—I would like to ask one question: Now, in the selection of that model system of rules and regulations there it is provided with the manner in which these officers are to be elected or appointed. Now, in my own case, I have been appointed every two years for a number of years and that is true, so far as I know, throughout my part of my country. Under which law are we to act—the ordinances of our cities or villages, or under this?

The Chair.—This model ordinance has no force whatever in sections of the State which have not formally adopted it. You will have to be governed by the ordinances which control affairs in your own section.

Dr. Humphreys.—I suggest that for the purpose of fully organizing, as we are hardly a representative body under the plan of organization we have adopted, the State Board of Health call this body together between now and January to act as a representative body for all portions of the State.

The Chair.—I would be glad, indeed to have a definite motion made as to when the next meeting shall be held—the month, if you please?

Dr. Sanders.—I think the condition of the health in the different localities of the State, or the success or failure we have in getting laws we want, ought to determine the calling together of this body; and I believe that the President, being here, where he is perfectly familiar with all the environments, can better determine than we can at this time what is best to do toward calling a meeting.

The Chair.—The President does not live here—he lives in Chicago. What is your further pleasure?

Mr. McLauchlan (LaSalle).—I came here for information. About the rest of it I don't care anything. A large corporation at our place owns an entire district, rents out houses for its employes to live in and has nothing but filthy water for them, or supplies nothing but filthy water. How can the Board of Health compel them to supply good water? We are annoyed with diphtheria, scarlet fever, have had small-pox three times since I have been supervisor and have deaths every year from such causes. The county has to support those people while they are shut up. Is there no way we can compel them to supply good water and preserve the health of the people? I came here to find out how we can obtain these things.

The Illinois canal runs through our place and the water gets putrid during the month and it is used to sprinkle the streets with. We could get artesian water in our town if we had somebody to take hold of it and sink wells. The water now used to sprinkle streets with is putrid, and we do not think it fit to put on the streets. I would like to know what we can do about sprinkling streets with such water.

The Secretary.—Your local board of health should regulate that.

Mr. Palmquist.—I would like some information in regard to the ordinance—the sanitary ordinance. Does that have to be adopted by the town and city authorities?

The Secretary.—It is desired that it should be, where it is not already in force.

Mr. Hazelwood.—Is it the intention of the State Board of Health to publish and distribute among the delegates in attendance here a report of the proceedings, and, if so, how soon can Dr. Rook and I expect a copy so that we can make our report?

The Chair.—In about two weeks you will be furnished with a printed copy.

Dr. Hale.—I move we adjourn. Seconded.

The Chair.—The motion to adjourn is carried.

The following is a list of those in attendance at the meeting:

DELEGATES TO CONVENTION MAY 18, 1894.

- P. J. Palmquist, Greenview, Ill.
- Theodore Zingrebe, Goodfarm, Grundy Co., Ill.
- M. Bevier, Bradford, Stark Co., Ill.
- C. W. Sibley, Fairfield, Ill.
- James I. Hale, M. D., Anna, Ill.
- C. B. Johnson, M. D., Board of Health, Champaign, Ill.
- T. W. Clark, Mayor, Marshall, Ill.
- Theodore Finet, Braidwood, Ill.
- James L. Reat, M. D., President Board of Health, Tuscola, Ill.
- J. W. Parker, M. D., Board Physician, Warsaw, Ill.
- J. D. Knott, Member of Council, Monticello, Ill.
- Wesley A. Lunn, M. D., Secretary Illinois Homeopathic Medical Association, 929 Marshall Field Building, Chicago, Ill.
- C. D. Bartlett, Supervisor, DuPage county, Ill.
- Howard Crutcher, M. D., Dunham Medical Society, Chicago, Ill.
- Chas. H. Starkel, M. D., Medical Health Officer, Belleville, Ill.
- C. F. Strecker, M. D., East St. Louis, Ill.

LXXX

R. A. DuMars, M. D., Health Commissioner, Peoria, Ill.
 A. K. Crawford, M. D., President Illinois Homeopathic Medical Association, Chicago, Ill.
 John McLauchlan, Supervisor, LaSalle, Ill.
 C. H. Murphy, M. D., Health Officer, Chesterfield, Ill.
 W. R. Schussler, M. D., Orland, Ill.
 Douglas King, Supervisor, Athensville, Ill.
 F. M. Nance, Health Officer, Avon, Ill.
 D. C. Linn, M. D., Supervisor, Frederick, Ill.
 G. R. Shafer, M. D., Morton, Ill.
 J. F. Snyder, County Physician, Virginia, Ill.
 Brice McGeehon, O'Fallon, Ill.
 Dr. E. F. Beucking, Eclectic Medical and Surgical Society, Chicago, Ill.
 W. H. Hipp, M. D., Chicago, Ill.
 W. I. Haselwood, Health Officer, Quincy, Ill.
 Lem Burk, Supervisor, Golden, Ill.
 Miles T. Quales, 52 Fowler street, Chicago, Ill.
 T. M. Dromgold, Seneca, Ill.
 George Brosam, Mayor, Sullivan, Ill.
 A. G. Humphrey, M. D., Commissioner of Health, Galesburg, Ill.
 G. L. Eyster, M. D., Commissioner of Health, Rock Island, Ill.
 T. H. Godfrey, M. D., County Physician, Bloomington, Ill.
 Edward H. Tinen, M. D., Resident Physician, Cook County Hospital, Chicago, Ill.
 E. H. Best, M. D., Commissioner of Health, Freeport Ill.
 A. G. Patton, M. D., Health Officer, Monmouth, Ill.
 J. A. Clyne, M. D., Health Commissioner, Joliet, Ill.
 B. G. Winters, Supervisor, White Hall, Ill.
 Wesley G. Bailey, M. D., Health Officer, Pekin, Ill.
 John Hoskins, La Grange, Ill.
 Harlie J. White, Sanitary Policeman, Bloomington, Ill.
 W. R. Schussler, Orland, Ill.
 W. G. Wingate, M. D., Wisconsin State Board of Health, Milwaukee, Wis.
 T. R. Leal, Urbana, Ill.
 P. C. Mosier, Homer, Ill.
 C. A. Mann, M. D., Chester, Ill.
 W. K. McLaughlin, Health Officer, Jacksonville, Ill.
 S. J. Layman, Tamaroa, Ill.
 J. M. Wagner, M. D., President Board of Health, Newman, Ill.
 W. J. Willis, representing Dixon Sanitary Creamatory.
 A. J. Perkins, President Board of Health, Plainfield, Ill.
 M. D. Stover, President Board of Health, Forreston, Ill.
 M. A. Fori, Secretary Board of Health, Forreston, Ill.
 Chas. W. Rook, M. D., City Board of Health, Quincy, Ill.
 James D. Whitley, Medical Health Officer, Petersburg, Ill.
 D. R. Sanders, M. D., Jonesboro, Ill.

RAILROAD SANITATION.

Immediately following the adjournment of the April quarterly meeting the following circular letter, with attached instructions, approved by the Board at that meeting, was sent to the general manager of every railroad company operating lines within the State: No. 57775.

SPRINGFIELD, April 27, 1894.

To the General Manager, ——— Railroad.

DEAR SIR:—With the approach of warm weather the danger of the appearance of such diseases as are known to have their origin in filth is greatly increased. It is known that the unsanitary condition of a great many railway stations is quite a factor in the production of these disorders.

It is therefore ordered by this Board that you cause to be inspected all depots, buildings, out-houses, feed-yards, cattle-pens, chutes, etc.,

with a view of ascertaining and correcting such unsanitary conditions as may be found to exist; remove the contents of privies from the premises, and disinfect the vaults; correct all defects in the sewerage connections of water closets (where such sewerage connections are in use) and furnish a pure and wholesome supply of water for passengers and employes.

It is requested that such inspections be made and a report thereof furnished this Board by June 1, 1894, as after that time we intend to have the results reviewed by our own inspectors.

Very respectfully,

J. W. SCOTT, M. D.

Secretary.

In line with the provisions of the enclosed circular relative to railway sanitation, we beg to offer the following suggestions:

Stations should be looked after as regards cleanliness, disposal of excreta and water supply.

Waiting rooms and their surrounding yards should be thoroughly cleaned. Horse manure and animal and vegetable refuse of all kinds should be removed.

Low places about stations collecting stagnant water should be filled or drained.

Care should be taken to obtain water, supplied for stations, from a pure source. Suspicion should attach to water from a well within 100 feet of an uncemented privy vault. Drinking vessels should be washed at least once daily.

Full or foul privy vaults should have their contents removed and the vault disinfected. A privy vault should never be permitted to be filled up and abandoned without having its contents removed.

Where water closets are in use, care should be taken to insure that all fixtures are properly trapped, and that the traps are in working order. Closets should be made clean, and it would be well to treat them with liberal amounts of a disinfectant solution.

In the sanitation of trains we would emphasize the importance of giving attention to the following points:

Great care should be taken to insure purity of water furnished passengers for drinking, and not only should its source be closely scrutinized, but the after care of it should be kept in mind. In this connection we desire to call your attention to the dangerous method in vogue for supplying water tanks with ice. Where these tanks are charged from the top, the ice, after it is broken to suitable size, is handled at least twice by men with dirty, begrimed and possibly infected hands: where the ice is brought into the cars, by the dirty hands of at least one workman. This filthy practice should be broken up, because there is real danger of infecting the water supply of trains.

Water tanks should be thoroughly cleaned at frequent intervals, and it would be advisable when doing so to have them scalded inside.

Passenger cars should be kept in the cleanest possible condition. The frequent practice of sweeping and dusting cars en route, when occupied, is most reprehensible, and should be stopped, as

the dust so raised may oftentimes be infected with disease germs. Instead of dry sweeping and dusting they should be cleaned by damp mops and cloths.

Each car should be provided with a reliable thermometer, and conductors should be instructed to keep their cars heated in winter, or cool weather, not above 70 degrees nor below 60 degrees F.

Conductors should also be required to pay special attention to the ventilation of their cars.

Urinals and water closets should be thoroughly cleaned, and flushed with a disinfectant solution at the end of each trip.

The floors of water closets should be mopped with the disinfectant solution.

By carrying out these and other measures of cleanliness that may suggest themselves, railroad companies can do much toward securing the health and comfort of the traveling public, and from the interest you have heretofore exhibited in sanitary reforms we confidently expect your cordial coöperation in this effort to protect the public health.

By an agreement of coöperation a similar letter was sent out to the railroads of Indiana and Ohio by the state boards of health of those states. The letter was generally well received by the railroad companies. In many instances they expressed their appreciation of the action of the board in placing in their hands specific instructions as to the points to be covered by their inspectors and the unsanitary conditions to be remedied, and stated that they would preserve the board's instructions as a guide to future work.

Among the roads which have thus responded are the following named companies:

Atchison, Topeka & Santa Fé R. R. Co.; Baltimore & Ohio; Chicago & Alton; Illinois Central; Chicago, Rock Island & Pacific; Chicago Great Western; Wiggins Ferry Company; Louisville, Evansville & St. Louis Consolidated; Wisconsin Central Lines; Michigan Central; Chicago & Eastern Illinois; Chicago & Calumet Terminal; Chicago & Northern Pacific; Lake Shore & Michigan Southern; Chicago, Burlington & Northern; Chicago & Erie; New York Chicago & St. Louis; St. Louis, Alton & Terre Haute; Terminal Railroad Association of St. Louis; Louisville & Nashville; Pennsylvania Lines West of Pittsburg; Elgin, Joliet & Eastern; Lake Erie & Western; Peoria & Eastern; Wabash Railroad; Chicago & Northwestern; Indianapolis, Decatur & Western, and Chicago, Burlington & Quincy.

Appended are excerpts from some of the letters received, submitted to show the thoroughness and extent of the work done and the good will with which the request of the Board has been met:

John R. Hastings, general superintendent of the Chicago, Burlington & Northern Railroad Company, St. Paul, Minn., writes:

Replying to your letter of April 27th, requesting that we have all depots, buildings, out-houses, feed yards, cattle pens, chutes, etc., inspected, I beg leave to say that the inspection has been made, and in compliance with your request I enclose herewith a report as to the sanitary condition of the same in Illinois. You will note measures taken to put our *property in proper shape*.

The report enclosed is as follows:

A thorough inspection of the line in Illinois has been completed, with the following results:

Station buildings: All clean, with pure water supply; excretion properly disposed of; no horse manure, animal or vegetable refuse in their vicinity. No low places about station where stagnant water could collect. Where full or foul privy vaults have been discovered, their contents have been ordered removed and vaults disinfected. There are no regular water closets in any of our Illinois depots. Stock yards are all in good condition, and clean.

As regards passenger trains: Water for the same is furnished from artesian wells; the ice is thoroughly cleaned and water tanks washed out frequently. The matter of cleaning passenger cars has been taken up and instructions issued not to sweep and dust cars when containing passengers, but to remove the dirt and dust with damp mops and cloths. The attention of conductors has been called to the necessity of proper ventilation and keeping cars at a uniform temperature. Urinals and water closets in the cars are cleaned at the end of each trip.

A. M. Tucker, general manager of the Chicago & Erie Railroad Company, writes:

CLEVELAND, OHIO, May 25, 1894.

Referring to your circular notice of April 27, I beg to advise that we have had a full and thorough examination made as to the sanitary condition of our premises in the State of Illinois.

I find that, with the exception of the water closets in our Fourteenth street freight station, at Chicago, everything for which we are responsible in the State of Illinois is in thoroughly good condition, and I have ordered extensive and thorough repairs to be made at Fourteenth street at once.

C. H. Bosworth, general manager of the Chicago, Peoria & St. Louis Railway, had, to some extent, anticipated the action of the Board by issuing the following circular:

JACKSONVILLE, ILL., March 31, 1894.

To all Agents:

On the first of April I desire to have a general house cleaning. As soon as possible after the first you will arrange to clean your stations. The floors should be scrubbed and the walls brushed down, and I desire all advertising matter of every description removed from the walls of the waiting room, and in the future you must not allow such matter to be tacked up unless it is enclosed in a neat frame of some kind.

The platforms must be thoroughly swept and the freight rooms must be put in perfectly clean and respectable condition. Any freight requiring to be stored should be piled up carefully and the rooms thoroughly swept out.

In the future, it will be a dischargeable offense for an agent to sweep waste papers, straw or trash of any description off his platform and leave it next to the track or near the platform where it may be seen by the public. All such matters must be burned or sacked up.

The roadmasters are arranging to give the yards and side tracks a thorough overhauling, and will have all the scraps of iron, chunks of wood or other debris cleaned up and taken care of. I wish to impress upon you the importance of keeping your stations in perfectly respectable and clean condition. An inspection will be made shortly and I hope to find you all on the safe side.

H. S. REARDEN,

Master of Transportation.

E. St. John, general manager of the Chicago, Rock Island & Pacific Railway Company, writes:

CHICAGO, ILL., June 5, 1894.

Your circular letter of April 27th was placed in the hands of our general superintendent, with instructions to comply with it fully, and I have a communication from him to-day which states that all depot buildings, outhouses, feed yards, cattle pens, chutes, etc., belonging to this company in the State of Illinois have been thoroughly inspected and put in the best sanitary condition possible. This is simply for your information and to let you know that a full compliance on the part of this company has been had.

Charles M. Hays, vice-president and general manager of the Wabash Railroad Company, writes:

ST. LOUIS, MO., May 5, 1894.

Replying to your favor of the 27th ult., will say that our passenger cars are cleaned at all terminal points by mopping the floors and dusting the upholstering. Water closets are scrubbed out, urinals cleaned, and disinfectants used. The water tanks are also cleaned out frequently and supplied with pure water and ice. We also endeavor to handle the ice with tongs, as much as possible, so the hands of the men do not come in contact with it.

Copies of the circular of the State Board of Health of Illinois have been sent to all terminal points within the bounds of the State with instructions to comply with same as far as possible.

All matters pertaining to the regulation of vaccination and to the propagation of vaccine virus was referred to the Committee on the Administration of the Medical Practice Act.

The Committee on Itinerant Vendors submitted the following report, which was adopted:

An Act to Regulate the Practice of Medicine in the State of Illinois, passed June 15, approved June 16, and in force July 1, 1887, says:

15. ITINERANT VENDOR OF DRUGS, ETC. LICENSE.] § 11. Any itinerant vendor of any drug, nostrum, ointment or appliance of any kind intended for the treatment of disease or injury, or who shall, by writing or printing, or any other method, profess to cure or treat disease or deformity by any drug, nostrum, manipulation or other expedient, shall pay a license of one hundred (\$100) dollars per month into the treasury of the Board, to be collected by the State Board of Health, in the name of the people of the State of Illinois, for the use of the State Board of Health.

It is to be assumed from this that the General Assembly intended to regulate the itinerant vendor of drugs, nostrums, etc., and authorized the State Board of Health to grant licenses to do this after method indicated.

Therefore, if an applicant for license as an itinerant shall present an application to the State Board of Health, in due form and in compliance with the law, the Board, in its discretion, may grant a license to such applicant. Compliance with the law is intended to mean that the drug, nostrum, ointment or combination of drugs, or appliances, for the relief of disease or injury shall, in the judgment of the Board, be not harmful if administered to the sick or applied to the injured.

The Board in this, the fifteenth section of the act, is also empowered to refuse license for sufficient cause. The Board defines such sufficient cause to be, first, that the drug, nostrum, ointment or appliance intended

to be vended itinerantly is harmful, dangerous or deleterious, in that it contains a noxious or poisonous ingredient: second, that its mode of vending is calculated to deceive or defraud the public.

And the Board hereby declares: First—That any applicant for the itinerant license under said section 15 shall furnish a full and true statement of the formula, drug, nostrum, ointment, and an accurate description of the appliance which it is proposed to vend.

Second—That the applicant shall defray the expenses of the necessary analysis or other expert examination of his drug, nostrum, ointment or appliance, and no license will be granted until the Board can have this analysis made.

Third—That the applicant shall furnish a full, true and complete description of the methods by which he proposes to advertise and promote the sale and vending of his drug, nostrum, ointment or appliance, together with copies of his advertisements, hand-bills, pamphlets and other printed matter, that the Board of Health may have the means of knowing with some certainty whether the vendor is falsifying or misrepresenting the value of his drugs and appliances.

Fourth—After having obtained an itinerant license, if any vendor shall, without the consent of the Illinois State Board of Health, change the composition of his said drug, ointment or appliance, or shall change his method and material of advertising, so as to differ from that stated in his application, the license issued to such vendor shall be declared null and void.

Fifth—That there shall be a committee of three members of the Illinois State Board of Health, appointed by the President, known as the Itinerant License Committee, who shall have charge of the itinerant license matter, subject to the approval of the Board.

All of which is respectfully submitted,

B. M. GRIFFITH, *Chairman.*
JULIUS KOHL,
JOHN A. VINCENT.

The question of the recognition of diplomas issued by schools of midwifery having been fully discussed, it was ordered that, owing to the fact that the full Board was not present, that final action on this matter be deferred until the next meeting of the Board, and that the committee appointed to investigate and determine the question of such recognition be continued.

On motion of Dr. Vincent, the following resolution was adopted:

WHEREAS, The unsanitary condition of the Illinois Central and B. & O. S. W. depots at Springfield, Illinois, is a menace to the health of the city of Springfield and the traveling public, and the employes of said road, be it

Resolved. By the State Board of Health of Illinois, that they recommend that the local board of health take such steps as may be necessary to secure the abatement of said nuisance.

The Auditing Committee reported that they had examined the accounts for the quarter, and recommended that they be paid.

On motion of Dr. Kohl, the Board adjourned.

QUARTERLY MEETING, CHICAGO, OCTOBER, 1894.

The regular quarterly meeting of the Illinois State Board of Health was held at the Grand Pacific Hotel in the city of Chicago, October, 1894. The meeting was called to order at 10 A. M., President Wm. E. Quine, presiding.

The following members of the Board were present: Drs. Julius Kohl, John A. Vincent, George Thilo, B. M. Griffith, J. B. McFarrich and the Secretary, J. W. Scott, M. D.

The minutes of the meeting held June 24th were read, received and approved. Carrying out an action of the Board at the previous meeting, the President appointed a Committee on Itinerant Licenses as follows: Drs. Kohl, Griffith and Vincent, and on motion of Dr. Vincent, the Secretary was added to the Committee.

Marcus Pomeranc who had been arrested and fined for practicing medicine illegally, appeared before the Board with his attorney and made application for a certificate based upon a diploma which he claimed had been issued to him by the University of Wurtzburg, Bavaria. Pomeranc also presented several witnesses to identify him as the person to whom the certificate had been granted in 1877. Witnesses were all examined, including Pomeranc, and at the conclusion of the testimony, which proved conclusively that Pomeranc had been guilty of attempted bribery and false swearing, the Board voted unanimously to reject the application for the certificate.

The Secretary presented the following report of the work done during the preceding quarter, which was received and adopted.

SECRETARY'S REPORT.

Office Work:

During the period, June 26 to September 30, 1894, 159 certificates were issued entitling to practice medicine and surgery in Illinois; 144 being based upon diplomas unconditionally recognized as in good standing, and eleven upon the applicants having supplemented their diplomas by passing the examination required of graduates of schools which do not fully conform to the Board's schedule of minimum requirements. Fourteen supplemental examinations have been conducted in the office of the Secretary, and as a result of the examinations, eleven successfully passed and

were granted certificates, three failed to receive the required percentage and their applications were rejected. Twelve candidates presented themselves at the non-graduate examination, nine failed to receive the percentage necessary to entitle them to the State certificate, their applications were rejected. Three successfully passed and received the State certificate. One duplicate certificate was issued upon the order of the Board, the applicant having filed satisfactory proof of the loss or destruction of his original certificate.

Certificates were issued to 44 midwives, and two applications were rejected upon failure to pass the necessary examination.

Correspondence:

During the quarter, 1904 written communications were received, 1194 sent out; 922 copies of the Board's report on Medical Education, 91 sixteenth annual reports, 275 circular letters, 2,600 personal vaccination certificates and 76 copies of previous reports of the Board were also sent out.

The general health of the State has been remarkably good during the past quarter. This too, notwithstanding the prolonged drought which gave rise to the apprehension that it might cause an increase of typhoid fever and other intestinal diseases through its effect on water supplies. So far as the reports of correspondence of the Board are an indication that this apprehension would seem to have been unfounded, and there has been not only no increase of this class of sickness, but the communicable diseases generally have been less prevalent and less fatal than usual.

The seasonal lull in small-pox which began about the close of last quarter, continued during July and August, but there has been an increase in the number of cases in Chicago since the 1st of September, which is occasioning concern for the approaching cold weather. This is not confined to Illinois alone, but is shared in by most of the interior states. The situation at the date of the preparation of this report is as follows:

Secretary Metcalf of the Indiana State Board of Health, reports since August 16th, four cases in Kosciusko county, one in Whitley county, two in Indianapolis, Marion county; one in Marion, Green county. The case in Whitley county and the four new cases in Kosciusko county were the results of exposure to the original case in the latter county. The first case in Indianapolis was in the person of a negro tramp, who said he had recently come from Chicago. The case in Marion was that of a lady, who recently came from North Dakota, and on her way to Indiana, stopped over for a short time in Milwaukee and Chicago. The origin of the Walkerton outbreak has not been satisfactorily determined. There is a gradual increase in the number of new cases—including arrivals from other infected places—in Chicago. During July and August there were 230 cases, an average of 3.8 cases per day; this daily number had nearly trebled by the middle of the present month. In the State at large there have been the following cases during the quarter:

Downer's Grove, Du Page county, four cases; Genoa, DeKalb county, one case; Paris, Edgar county, four cases; Toluca, Marshall county, one case. In all cases reported to the Board, its rules and regulations have been promptly enforced and in no instance has there been any spread of the contagion.

The situation is not materially improved in Wisconsin, although the Health Commissioner of Milwaukee has been sustained by the courts. Dr. Charles Marquardt of the state board of health is down with the disease at his home in La Crosse; the disease was contracted in Milwaukee, while there on official business. The disease has also been imported from Milwaukee into Racine county. There are a number of cases in Leavenworth, Kansas. In Detroit, Michigan, the outbreak has almost entirely subsided. New cases continue to occur in New York City.

In the recent suits promoted by the Anti-Vaccination League in various parts of the country, notably in Connecticut, New York, Pennsylvania, Indiana and Wisconsin, the courts have uniformly sustained the rights of school boards to exclude pupils who have not been vaccinated, on the ground that the precaution of vaccination "is essential to the preservation of the health of a large body of scholars." Mr. Justice Bartlett, of the Supreme Court of New York, whose language is above quoted, refused to allow the attorney of the New York Anti-Compulsory Vaccination League to enter upon a review of the question whether vaccination is "healthy" or not, on the ground that such a review is unnecessary—"the vast preponderance of medical opinion throughout the civilized world is in favor of vaccination."

A number of valuable contributions in further proof of the value of vaccination and re-vaccination have been furnished in the medical and sanitary periodicals during the quarter. Among the more noteworthy of these is a memorial of Dr. Goldschmidt, of Strasburg, on the necessity of re-vaccination and its increasing importance with the increasing age of the subject, concerning which the Journal of the American Medical Association (July 21) says the data should be added to the mass of facts and figures furnished by Dr. Quine in his address on state medicine at the recent meeting of the State Medical Association. Dr. Goldschmidt points out that Germany is the only country where vaccination and re-vaccination have been compulsorily enforced since 1875, and a glance at the figures of the death rates before and after show the striking result of this practice as a means of exterminating small-pox.

Annual averages of deaths from small-pox among every 100,000 inhabitants of Prussia before the compulsory law was enforced—33.34; annual average during the ten years following the compulsory enforcement of vaccination and re-vaccination—2.23.

In Berlin, Dresden, Breslau and Bavaria, under compulsory vaccination the small-pox deaths per 100,000 (1875-84) have been 1.68, 1.48, 1.61 and 1.11 respectively; in the following cities where

vaccination is voluntary, the deaths per 100,000 during the same period were: Paris, 28.95; Vienna, 84.37, and in London, where one vaccination only is compulsory, the deaths were 25.50 in the 100,000 inhabitants. As to re-vaccination, it has been shown that the proportion of successful operations increases with the age of the subject. Thus the percentage of success in those vaccinated between 6 and 7 years of age was 32.60; 7 to 8 years, 64.00; 8 to 9 years, 72.52; 9 to 10 years, 79.63; 10 to 11 years, 85.94; 11 to 12 years, 88.64, and adults 90.00. These facts and others like them which are accumulating constantly, prove the absolute necessity of re-vaccination, since they show that 85 to 90 times in the 100 the immunity against small-pox conferred by the first vaccination has disappeared in twenty years; they also demonstrate in a most striking manner how certain as measures of public defense against the spread of small-pox are compulsory vaccination and re-vaccination.

Outbreaks of other contagious diseases have been reported from the following places: Typhoid fever—Macon, Macon county; Dawson, Sangamon county, and Lee Center, Lee county.

Scarlet fever—Pekin, Tazewell county; Hanover, Jo Daviess county; Murrayville, Morgan county.

Diphtheria, O'Fallon, St. Clair county.

In the case of the People ex rel. McCandless vs. The State Board of Health, which has been pending since January 20th, decision was rendered in Judge Windes' court, July 18, 1894, at 10 A. M.

The case occupied five days in trial and the arguments, which were oral, were at considerable length.

As the decision sets forth the views which courts would take upon many points, touching the authority of the Board and its right to act in certain premises, which cannot but be of use to the Board in guiding its action in future similar cases. (See file in office "Opinions and Decisions.")

At the June meeting of the Board action was had definitely defining the conditions under which licenses should be granted to itinerant vendors as provided for by section 15 of the medical-practice act. With a view of making public this action of the Board and of compelling compliance with the provisions of the law, the following circular letter was prepared and forwarded to the State's Attorney of every county in the State.

No. 63519

April 30, 1894.

State's Attorney, ——— County.

DEAR SIR:—Section 15 of an act to regulate the practice of medicine in the State of Illinois, provides for the payment of a license fee of one hundred (100) dollars per month to the State Board of Health by all persons vending drugs, nostrums, etc., and says that the Board may issue such licenses. In the exercise of this discretion, the Board has recently determined the conditions under which such licenses may be granted, a copy of which, together with a pamphlet copy of the law, is herewith enclosed. No such licenses have been issued by the Board and all itinerants vending drugs, etc., in the State are doing so in violation of the law, and I would respectfully urge that whenever it shall come to your

knowledge that drugs are being vended upon the streets, you demand, of those vending, the State license, and if they are unable to show such license that you at once institute proceedings against them in accordance with the provision of the law, and sign and forward to this office one of the enclosed contracts, upon the receipt of which a specific authorization will be sent for the prosecution of each case.

The arrangement which the Board makes for the payment of attorneys prosecuting cases, under this law, is that they shall retain all fines collected in lieu of fees, viz.: one hundred (100) dollars for the first offense and two hundred (200) dollars for each subsequent offense.

Kindly let me hear from you regarding this matter.

Very truly yours,

(Signed) J. W. SCOTT, M. D.,

Secretary.

Enclosed therewith was a copy of the report of the action of the Board.

Subsequently, the following communication was prepared and forwarded to the same parties.

No. 63788.

August 20, 1894.

DEAR SIR:—Realizing the difficulty of forwarding a contract to this office for each individual case to be proceeded against, it has been decided to issue a general authorization for the prosecution of any and all persons violating section 15 of the medical-practice act, by vending drugs, nostrums or ointment itinerantly in this State without a license from the Illinois State Board of Health.

If you will sign the enclosed contract and forward it to this office, an authorization in accordance with the terms and conditions of the contract with this Board, will be immediately forwarded to you.

Very truly yours,

(Signed) F. A. TREACY,

Chief Clerk.

To these letters, reply was received from a great majority of the State's Attorneys in the State, expressing their willingness to undertake such prosecutions and promising to lend hearty coöperation to the Board in its endeavor to enforce the law.

Attention was called by many, however, to the difficulty of enforcing this section of the law, for the reason that the statute provides that action against such offenders be in the nature of an action for debt, such an action requiring that a summons be served at least three days before trial, and does not provide for the issuing of a warrant upon which to hold the offender, the result being that when complaint is made and an action instituted, the offender simply leaves the county, judgment is taken by default, the company replaces him with a new man and the attorney is out the costs incident to the bringing of the case, with no assurance whatever of being reimbursed.

Notwithstanding this question, however, in several instances prosecutions have been brought and the statutory fine imposed. In others, where action has begun, the parties have immediately left the State, and for the past thirty days no reports of violations of this section have been received in this office.

The Secretary would respectfully suggest that the Committee on Legislation formulate an amendment whereby this section of the law can be made more easily effective.

Upon the 18th day of May last, a meeting of the representatives of the local boards of health, municipal and township, together with representatives of various medical societies throughout the State, was held in the city of Springfield, in response to a call issued by this Board, for the purpose of effecting a closer and more complete organization of the sanitary forces of the State.

At that meeting there was effected an organization known as the "Illinois State Board of Health Auxiliary Sanitary Association," and one hundred and eight (108) representatives of various health boards attended that association.

It was decided at that time to hold regular meetings of that association annually in the city of Springfield, during the month of May, and at such other times as might be deemed expedient, subject to the call of the Illinois State Board of Health.

After consulting with the President and resident members of this Board, and acting upon the expressed desire of the Executive of the State, it was decided that a larger and more representative meeting of this Association should be held before the meeting of the next legislature.

Acting upon this suggestion, the following circular letter was prepared and sent to the Vice-Presidents of the Association residing in the different congressional districts throughout the State:

64195.

September 10, 1894.

DEAR SIR:—The fifth paragraph of the plan of organization of the Illinois State Board of Health Auxiliary Sanitary Association, as adopted at a conference of local boards of health with the State Board of Health, May 18, 1894, recites: "That the meetings of this Association shall be held annually in the city of Springfield, during the month of May, and at such other times as may be deemed expedient, subject to the call of the State Board of Health."

The State Board of Health, upon earnest consideration, has reached the conclusion that the measure of success the Association will meet in getting necessary legislation will be determined by a manifestation of the numerical strength of the Association.

A new legislature is to be chosen in November, and it is to this body we look for the legislation necessary to enable us to do thorough and effective work. A meeting should, therefore, be held this fall, at which drafts of such bills or amendments as may be decided upon should be prepared and each member furnished with a copy of the same, and with such arrangements for their enactment as the collective wisdom of the Association may formulate. Armed with these, the members of the Association and all persons interested will be able to exert the coöperative influence which can hardly fail of success. In view of these considerations, the State Board of Health now issues this, its authorized call, for a meeting of the Illinois State Board of Health Auxiliary Sanitary Association, to be held in the capitol at Springfield.

As vice-president of the association for the congressional district you are not only urgently invited to be present in person, but are authorized to invite and urge the attendance of all persons connected with any health board in your district. It is to be especially remembered that

this association is non-sectarian and desires to include in its membership every person connected with the administration of sanitary affairs in this State, without reference to his connection with the medical profession; and it is also hoped that, beginning with the next annual meeting, every medical society in the State will be represented by delegates in the deliberations of our body.

Arrangements are being made for the attendance of some of the most experienced and noted sanitarians in the country, who will give the association the benefit of their counsel. The interest of the Chief Executive of the State has been assured.

For yourself, it is especially requested that you come prepared with clear-cut, definite views of the most important sanitary requirements of your locality in particular and of the State in general, with your own ideas of their remedy, whether by legislation, voluntary organization or otherwise. You will also contribute to the interest in and success of the conference if you will notify the Secretary of matters you desire to have considered and acted upon.

Special rates at hotels and boarding houses will be obtained; excursion rates, or better, on railroads.

Correspondence with the Secretary on details, and suggestions of method to make this an impressive sanitary demonstration are earnestly invited.

The exact date will be fixed at the next meeting of the Board, and you will be immediately notified.

J. W. SCOTT, M. D.,

Secretary.

W. E. QUINE, M. D.,

President.

A similar letter, more in detail, is being prepared and will be sent as before to the health officers of every city, town and township in the State. It is desired at this meeting that the members of the Board should make such suggestions to the Secretary as, in their judgment, will contribute to the success of the meeting, and that a date be fixed upon which the largest attendance will probably be secured.

Respectfully submitted,

J. W. SCOTT, M. D.,

Secretary.

Professor S. A. Forbes, professor of zoölogy of the University of Illinois, appeared before the Board and asked that some action be taken positively determining what credit should be given colleges in good standing to students who had completed science courses in schools requiring certain work done in different branches belonging to such a course. In the discussion which followed, Professor Forbes presented the schedule of work done in the science courses in the University of Illinois, especially prepared for those students whose intention it is to pursue a medical course.

At the close of Prof. Forbes' remarks, Dr. Vincent moved that the matter be referred to the Committee on the Administration of the Medical-Practice Act, and that the Secretary of the Board be added to the committee; also, that Prof. Forbes be invited to meet and confer with the committee in determining the question. Prof. Forbes further stated that he had discussed with the Secretary

of the Board the matter of requiring that the examinations for admissions to medical colleges in the State of Illinois be conducted by a committee of the faculty of the State University, and that Dr. Draper approved of the plan and would use his influence in accomplishing the result, provided the Board should determine that it was advisable so to do. This matter was also referred to the Committee on the Administration of the Medical-Practice Act.

The Committee on the Administration of the Medical-Practice Act presented a report, based upon an investigation made by the Secretary of the Board, regarding the Wisconsin College of Physicians and Surgeons, of Milwaukee, Wis., and recommended that diplomas of that institution be recognized as a basis upon which to issue the State certificate.

On motion of Dr. Kohl, the report of the committee was adopted.

The same committee made a report upon the American Medical College, of St. Louis, Mo. On motion of Dr. McFatrigh, it was ordered that further consideration of the recognition of the American College be deferred for one year. The same committee also made a report on the Southwestern Homeopathic College, of Louisville, Ky., and the medical department of the Ohio University, at Columbus, O. On motion of Dr. McFatrigh, further consideration of the status of these institutions was also postponed for one year.

On motion of Dr. Kohl, it was ordered that in future all investigations of medical colleges outside of the State of Illinois be conducted at the expense of the institution interested.

On motion of Dr. Thilo, it was ordered that no re-investigation be made of any institution within the same twelve months, and that all investigations be conducted while the institutions are in session.

On motion of Dr. Vincent, the Secretary was instructed to issue a certificate to W. J. Chittenden, of Newton, Jasper county.

The Secretary was instructed to cite Dr. D. Delta Rea to appear before the Board at its next meeting and show cause why his certificate, No. 10189, should not be revoked on the ground of unprofessional and dishonorable conduct, in that he had obtained from various persons sums of money under contract to render certain services, which had not been rendered, and had thus been guilty of obtaining said sums of money under false pretenses.

On motion, the date for the meeting of the Auxiliary Sanitary Health Association of the Illinois State Board of Health, was fixed for the 13th of November.

On motion of Dr. McFatrigh, it was ordered that the expenses of the President, Dr. Quine, as a representative of the Board at the meeting of the American Association of Medical Colleges, be paid from the Treasury of the Board.

Duplicate certificates were ordered issued to Mrs. Marie Huber and W. O. Blaisdell, of Macomb.

The Auditing Committee reported having examined the annual statement of the Treasurer—statement of the receipts and disbursements for the quarter ending September 30, 1893—that they had found the same correct, and recommended that the accounts be paid.

On motion, the report of the committee was adopted.

Adjourned.

XCV

FINANCIAL STATEMENT
OF THE
ILLINOIS STATE BOARD OF HEALTH,
FOR THE
FISCAL YEAR ENDED SEPTEMBER 30, 1894.

<i>State Board of Health, Dr.</i>		
<i>To the State Treasurer:</i>		
Balance of regular appropriation, October 1, 1893.....	\$6,655 97	
Balance of contingent fund, October 1, 1893.....	10,000 00	
Regular appropriations to July 1, 1894, for ensuing year.....	9,000 00	
Contingent fund, July 1, 1894, for two years.....	10,000 00	
		\$35,655 97
<i>To the Treasurer of Board:</i>		
Balance on hand, October 1, 1893.....	\$2,921 66	
Office receipts for year ended September 30, 1894.....	4,510 00	
		7,431 66
		<u>\$48,087 63</u>
<i>State Board of Health, Cr.</i>		
By payment of all accounts as per itemized statement.....	\$13,135 28	
By unexpended balance regular appropriations, September 30, 1894.....	6,845 30	
By unexpended balance contingent fund, September 30, 1894.....	10,000 00	
By unexpended balance in hands of Treasurer of Board.....	3,107 07	
By unexpended balance lapsed in State Treasury.....	10,000 00	
		43,087 63

ITEMIZED STATEMENT OF EXPENDITURES
OF THE
ILLINOIS STATE BOARD OF HEALTH,
FOR THE
FISCAL YEAR ENDED SEPTEMBER 30, 1894.

Clerical services.....	\$3,882 50	
Secretary's salary.....	3,000 00	
F. W. Reilly, M. D., to work on report on Medical Education, 1893.....	861 75	
Incidental office expenses.....	820 69	
Investigation of medical colleges.....	525 80	
Services of Secretary, revising Medical-Practice Act.....	500 00	
Extra clerical services.....	477 10	
Secretary's travelling expenses.....	460 04	
Postage.....	426 80	
Legal services.....	368 00	
Expenses attending meetings.....	335 05

REPORT OF THE TREASURER
OF THE
ILLINOIS STATE BOARD OF HEALTH,
FOR THE
FISCAL YEAR ENDED SEPTEMBER 30, 1894.

To the President and Members of the Illinois State Board of Health:

GENTLEMEN:—Your Treasurer begs leave to present the following report of receipts and disbursements for the last fiscal year, ended September 30, 1894:

<i>General Account, Dr.</i>		
Balance to credit of general account, October 1, 1893.....	\$2,921 66	
Received from Secretary, office receipts for the fiscal year ending September 30, 1894.....	4,510 00	
Total accountability.....		\$7,431 66
<i>General Account, Cr.</i>		
Amounts paid by order of the Board, on vouchers duly audited, approved and on file, for indebtedness accrued during the fiscal year ended September 30, 1894:		
Services of F. W. Reilly, M. D., compiling report on Medical Education, 1893.....	\$861 75	
Incidental office expenses.....	820 69	
Investigation of medical colleges.....	525 90	
Services of Secretary, re Medical Practice Act.....	500 00	
Clerical services.....	477 10	
Legal services and costs of suits.....	368 00	
Examination of midwives.....	312 00	
Medical and sanitary books, journals and papers.....	156 00	
Expenses making sanitary and other investigations.....	109 40	
Rent of Chicago office.....	100 00	
Preparing report of Medical Education, 1893.....	35 00	
Expenses attending health conference.....	33 75	
Attendant non-graduate examination.....	20 00	
Cost of diploma lost in office October, 1892.....	5 00	
Total expenditures.....	\$4,324 59	
Balance, cash on hand, September 30, 1894.....	3,107 07	
		\$7,431 66

All of which is respectfully submitted.

B. M. GRIFFITH, *Treasurer.*

OFFICIAL REGISTER.

PHYSICIANS.

MEDICAL INSTITUTIONS REPRESENTED IN THE OFFICIAL REGISTER OF PHYSICIANS.

"BASIS OF ISSUE" OF THE STATE CERTIFICATE.

In order to reduce the bulk of the Official Register, and so to keep within the number of pages (300) prescribed by the statute, sundry data heretofore given are omitted or condensed in the following pages. The most important of these changes consists in the substitution of numbers for the titles of medical institutions, examining bodies and other authority for the issue of the State Certificate. These numbers—see column "Basis of Issue"—refer to the corresponding numbers in the following list of titles.

For example: The first name in the Register has, under the heading "State Certificates" and in the column "Basis of Issue," the number "30." This indicates that the basis of issue of the State Certificate was a diploma of the institution numbered "30" in the subjoined list of titles.

1. Academy of Medicine, Paris, France.
2. Albany Medical College, Albany, N. Y.
3. American Medical College, Cincinnati, O.
4. American Medical College, St. Louis, Mo.

 C. G. Smith, M. D., Secretary.....Bellmont.

Membership, 21. Meetings in January, April, July and October.

WHITESIDE COUNTY MEDICAL SOCIETY.

Reorganized in 1894.

C. A. Griswold, M. D., President.....Fulton.
 J. B. Crandall, M. D., Vice-President.....Sterling.
 Frank Anthony, M. D., Vice-President.....Sterling.
 F. Fitzgerald, M. D., Vice-President.....Morrison.
 J. F. Keefer, M. D., Secretary.....Sterling.
 H. J. Hensinkoeld, M. D., Treasurer.....Fulton.

Directors: Drs. Frank Anthony, Jas. H. Mosher, Alex. C. Smith, R. E. Robinson and Dana Seger.

Meetings, annually.

WILL COUNTY MEDICAL SOCIETY.

Organized January 5, 1875.

Smith T. Ferguson, M. D., President.....Joliet.
 F. W. Werner, M. D., Vice President.....Joliet.
 Wm. Dougall, M. D., Secretary and Treasurer.....Joliet.

Censors: George C. Raynor, M. D., Joliet; Wm. Richards, M. D., Joliet; P. G. Rulien, M. D., Joliet.

Membership, 45.

WILLIAMSON COUNTY MEDICAL ASSOCIATION.

Organized October 14, 1878.

John W. Vick, M. D., President.....Carterville.
 G. W. Evans, M. D. Vice-President.....Marion.
 A. N. Lodge, M. D., Secretary and Treasurer.....Marion.

Censors, J. M. Fowler, M. D., Marion; J. J. Fly, M. D., Pulley's Mills; W. H. Perry, M. D., Carterville.

Membership, 25. Meetings, bi-monthly, first Monday.

WINNEBAGO CONNTY MEDICAL SOCIETY.

Organized ——

Geo. L. Winn, M. D., President.....Rockford.
 T. N. Miller, M. D., Vice-President.....Rockford.
 J. E. Allaben, M. D., Secretary and Treasurer.....Rockford.

Membership, 27.

WOODFORD COUNTY MEDICAL ASSOCIATION.

Organized July 5, 1870.

A. L. Mendenhall, M. D., President.....Kappa.
 C. E. Davis, M. D., Vice-President.....Peoria.
 Frank Stubblefield, M. D., Secretary and Treasurer.....El Paso.

Membership, 40. Meetings, first Monday in May.

BELLEVILLE MEDICAL SOCIETY.

Organized in 1889.

A. M. Scheel, M. D., President.....Belleville.
 F. Rubach, M. D., Vice-President.....Belleville.
 E. P. Raab, M. D., Secretary.....Belleville.

Membership, 12:

CAIRO MEDICAL SOCIETY.

Organized October, 1892.

W. P. Maione, M. D., President.....Cairo.
 J. C. Sullivan, M. D., Vice-President.....Cairo.
 J. J. Gordon, Jr., M. D., Treasurer and Secretary.....Cairo.

Membership, 10. Meetings, second Wednesday in each month.

CHICAGO MEDICAL SOCIETY.

Organized April 5, 1862.

N. Senn, M. D., President.....532 Dearborn av., Chicago.
 L. L. McArthur, M. D., First Vice-President.....70 State, Chicago.
 H. N. Moyer, M. D., Second Vice-President.....434 W. Adams, Chicago.
 Arthur R. Reynolds, M. D., Treasurer.....36 Washington, Chicago.
 Junius C. Hoag, M. D., Secretary.....58 Forty-third, Chicago.

Membership, 746. Meetings, first and third Monday of each month.

DECATUR MEDICAL SOCIETY.

Organized November, 1876.

Ira N. Barnes, M. D., President.....Decatur.
 W. H. Walters, M. D., Vice-President.....Decatur.
 J. N. Randall, M. D., Secretary and Treasurer.....Decatur.

Censors: Wm. J. Chenoweth, M. D., Decatur; E. W. Moore, M. D., Decatur.

Membership, 16. Meetings, fortnightly.

MONMOUTH MEDICAL SOCIETY.

Organized July, 1893.

J. H. Wallace, M. D., President.....Monmouth.
 A. G. Patton, M. D., Secretary and Treasurer.....Monmouth.

Censors: E. J. Blair, M. D., Monmouth; E. C. Linn, M. D., Monmouth; W. E. Taylor, M. D., Monmouth.

Membership, 10. Meetings, first Thursday in each month.

OTTAWA CITY MEDICAL SOCIETY.

Organized April 1, 1855.

R. F. Dyer, M. D., President.....Ottawa.
 E. H. Butterfield, M. D., Vice-President.....Ottawa.
 J. R. Hoffman, M. D., Treasurer and Secretary.....Ottawa.

Membership, 12.

PEORIA CITY MEDICAL SOCIETY.

Organized in 1874.

J. W. Hensley, M. D., President.....Peoria.
 W. R. Allison, M. D., Vice-President.....Peoria.
 L. A. McFadden, M. D., Treasurer.....Peoria.
 Geo. A. Zeller, M. D., Secretary.....Peoria.

Censors: Isabelle F. Howes, M. D., Peoria; J. S. Miller, M. D., Peoria; O. B. Will, M. D., Peoria.

Membership, 35. Meetings, first Tuesday in each month.

SOUTH CHICAGO MEDICAL SOCIETY.

Organized 1890.

E. T. Cody, M. D., President.....South Chicago.
 Don S. Harvey, Treasurer.....South Chicago.
 Jno. Scudder Davis, Secretary.....South Chicago.

Meetings, first and third Tuesday of each month.

CALUMET GYNECOLOGICAL SOCIETY.

Organized ——.

E. M. Webster, President.....South Chicago.
 C. F. Swan, Vice-President.....South Chicago.
 A. W. McLaughlin, Treasurer.....South Chicago.
 Jno. Scudder Davis, Secretary.....South Chicago.

THE CHICAGO PATHOLOGICAL SOCIETY.

Organized September, 1892.

Randolph N. Hall, M. D., President.....339 Warren av., Chicago.
 Frank B. Earle, M. D., Vice-President.....535 Washington boul., Chicago.
 Homer M. Thomas, M. D., Treasurer.....Marshall Field bldg., Chicago.
 Dennis D. Bishop, M. D., Curator.....Rush Medical College, Chicago.
 George H. Weaver, M. D., Secretary.....535 Washington boul., Chicago.

Censors: Geo. H. Cleveland, M. D., 95 W. Harrison, Chicago; Joseph M. Patton, M. D., 237 S. Hoyne av., Chicago; Franklin C. Wells, M. D., 359 Warren av., Chicago.

Publication Committee: Geo. H. Weaver, M. D.; Jas. B. Herrick, M. D., 751 Warren av., Chicago; John Milton Dodson, M. D., 631 Jackson boul., Chicago.

Membership, 130. Meetings, second Monday evening of each month, at the Physiological Laboratory of Rush Medical College, 750 W. Harrison.

CHICAGO OPHTHAMOLOGICAL AND OTOLOGICAL SOCIETY.

Organized April 12, 1892.

F. C. Hotz, M. D., President.....24 Washington, Chicago.
 E. J. Gardner, M. D., Vice-President.....34 Washington, Chicago.
 C. P. Pinckard, M. D., Secretary and Treasurer.....103 State, Chicago.

Membership, 41. Meetings, second Tuesday of October to May, inclusive.

THE SCANDINAVIAN MEDICAL SOCIETY OF CHICAGO.

Organized in October, 1887.

N. T. Quales, M. D., President.....52 Fowler, Chicago.
 N. Remmen, M. D., Vice-President.....465 Milwaukee av., Chicago.
 A. B. Oyer, M. D., Treasurer and Secretary.....807 N. Rockwell, Chicago.

CHANGES AND CORRECTIONS.

- Achenback, page 103, should be John G. Achenbach.
- Baer, Julius F., died in Chicago of pulmonary consumption, March 4, 1895, aged 30 years.
- Bailey, R. Hiram, not Baile, as on page 24.
- Bidgood, Henry R., removed to Chicago Heights.
- Borst, Henry, has removed to 3300 State St., Chicago.
- Brewer, Frank M., has removed to 1970 North Halsted St., Chicago.
- Clausius, Max F. not Clavsius, as on page 93.
- Cook, J. F., died in Chicago of uraemia, March 21, 1895.
- Correll, Wm. Chas., has removed to Groveland and Thirty-first St., Chicago.
- Dyas, Wm. G., killed on railroad tracks in Chicago, February 17, 1895, aged 37 years.
- Edmonds, Samuel, not Edmudds, as on page 145.
- Filkins, Frank S., has removed to Woodstock, McHenry county.
- Fitzgerald, F. W., has died, see page 185.
- Gibson, Horace, has removed to 93 West Eighteen St., Chicago.
- Guthrie, J. B., has removed to Guelph, Ontario.
- Hammer, Isaac A., has died, see page 185.
- Heath, Helen A., has died, see page 185.
- Hunt, Delos W., has died, see page 185.
- Kerrigan, John J., has removed to Centre Ave. and Harrison St., Chicago.
- Leonard, J. Henry, died in Chicago, May 19, 1895, of pneumonia, aged 28 years.
- Love, Joseph G. has died, see page 186.
- Mahon, W. H., has removed to Mendota, LaSalle county.
- Marshall, Ira E., died in Chicago, March 18, 1895, of pneumonia, aged 39.
- Maxson, O. T., died at Pasadena, Cal., May 7, 1895, aged 71 years.
- McGurty, P. H., has removed to Hume, Edgar county.
- Mulfinger, John L., not Mulfincher, as on page 68.
- Park, E. C., not Parl, as on page 23.
- Seip, Ada M., and A. K., not Seig, as on page 16.
- Schembs, Frank H., has removed to 5201 Ashland Ave., Chicago.
- Stoops, Arthur L., page 106, should be Perry H.
- Thomas, Dion, died in Chicago, February 17, 1895, of la grippe, aged 55 years.
- Trude, Francis M., has died, see page 186.
- Watson, Sam'l J., died in Chicago, March 12, 1895, of anaemia, aged 43.
